When a health care provider disputes the amount to be paid by the health carrier for services rendered to an enrollee, the provider and the health carrier are required to make a

good faith effort to reach a resolution on the reimbursement amount. If the health carrier and the provider cannot agree on a commercially reasonable payment amount, either party may seek to resolve the dispute through arbitration. The decisions of the arbitrators are reported to the Bureau.²

On behalf of the Commission, the Bureau has prepared this annual report summarizing the health insurance balance billing dispute resolution information received from arbitrators, as required by [§ 38.2-3445.02](#) of the Code of Virginia (Code):

1. The Commission shall prepare an annual report summarizing the dispute resolution information provided by arbitrators, including information related to the matters decided through arbitration as well as the following information for each dispute resolved through arbitration: the name of the carrier, the name of the health care provider, the health care provider's employer or the business entity in which the provider has an ownership interest, the health care facility where the services were provided, and the type of health care services at issues.

The report must be posted on the Commission's website and submitted to the Chairs of the House Committee on Labor and Commerce and Committee on Appropriations and the Senate Committee on Commerce and Labor and Committee on Finance and Appropriations annually by July 1. This report covers the reporting period June 1, 2022, through May 31, 2023.

All the decisions pertained to medical and osteopathic doctors.

For comparison purposes, the following table shows the specialty areas with reported decisions over the past three years.
