As a member of our team, you will enjoy competitive pay, good benefits and a 4-day (Mon-Thurs) work week. If you are an energetic, self-motivated individual with the drive to become part of a growing organization do not hesitate to respond today. **All BPS positions require U.S. Citizenship or Permanent Residency (Green Card)**

SEWING MACHINE OPERATOR

Experience is preferred but will provide training for the right candidate with good work ethic and a positive attitude. Industrial sewing machine work. Full time 40-hour week; salary/wage rate compensation dependent on experience. Full benefits and a positive work environment.

MATERIALS COORDINATOR

The Materials Coordinator handles and controls raw materials including dispensing and sampling operations. Responsible for the safe and efficient transportation of materials to production and ensuring the correct inventory levels are maintained. Additional duties include receiving goods from suppliers, full circle material documentation, raw material sampling, inventory control, dispensing, packaging and labeling of finished products. Prepares and maintains documentation for all internal and external transactions on computer and within Butler's filing system. They perform all duties as outlined in QSM and Operating Procedures

DRAFTING TECHNICIAN

The Drafting Technician will be responsible for working directly with Engineers to provide any required support. The person in this role will perform computer aided drafting (CAD) and design assignments of proposed engineering and operations related projects, tracks and maintains the records related to those assignments, and carries out general office functions for Engineering.

Requires:

- Strong project skills
- Proficient with Microsoft Office Suite or related software
- Proficient with computer-aided design (CAD) software
- Ability to understand instructions and independently carry out instructed tasks
- Detail and quality oriented. Must be comfortable reading and interpreting technical documentation including blueprints, construction specifications and other items
- AAS degree in related field preferred, or equivalent work experience will be considered
- AutoCAD: 1-3 years
- SolidWorks or solid modeling: 1 year
