

**ACD map: SAR to MSI**  
28 Dec. 2015 — 30 Mar. 2019

On the left is a change detection map of the construction of SoFi Stadium over the course of three years; on the right is the multispectral image of the same area. The black marks on the first image show unusual changes; gray indicates common changes; and white illustrates persistent changes.

28 Dec. 2015 — 30 Mar. 2019

**ACD map: MSI to MSI**  
30 Dec. 2015 — 30 Mar. 2019

Integrated images from different sensor modalities of construction of the SoFi stadium. On the left are integrated images from both SAR and multispectral imaging sensors. On the right are images from different kinds of multispectral imaging sensors. The black marks show unexpected changes over a period of three years.
