

Big Game Migration

Corridors Protected by
the Roadless Rule

Big Game Migration
Corridors

0 75 150 300 Miles

Map by Defenders of Wildlife June 2025. Migration corridor data from Ungulate Migrations of the Western United States Vols 1-5 (Lowrey and Kauffman et al. 2020-2025) and represent mule deer, pronghorn, elk, and moose. Both corridors and herd routes were used. Roadless Areas represent the 2001, Idaho, and Colorado rules.
