ST. MARYS MANUFACTURING FACILITY

Positions

At AAM, we're looking for associates who push boundaries and drive solutions for the future. Innovators. Thinkers. Dreamers. Doers. No matter the role or function, every associate is a piece of what makes AAM great.

AAM's St. Marys Manufacturing Facility is seeking a motivated, responsible individual for:
Molding Die Setter, Maintenance Mechanic, and Maintenance Electrician.

Molding Die Setter:

- 3-5 years minimum requirement of set-up experience.
- Single- and Multi-action experience necessary.
- Working knowledge of manual and computerized presses.
- Robotics experience is a plus.
- Knowledge of and ability to read blueprints.
- Effective communication skills in one-on-one and small group situations.
- Strong participant in group problem solving and decision-making activities.
- This position works with minimal Supervision.

Maintenance Mechanic:

- 4-6 years minimum experience in mechanical troubleshooting.
- Experience in repair and preventative maintenance of 60 – 800 ton powder metal molding and sizing presses and secondary processing equipment.
- Working knowledge of applicable hydraulics and pneumatics is required.
- Ability to fabricate, install and repair machinery and equipment in an industrial establishment.
- Associate degree in mechanical-related field or equivalent from two-year college or technical school is preferred.
- Work history that includes welding, electrical skills and supervisory experience is a plus.

Maintenance Electrician:

- 4-6 years minimum experience in electrical troubleshooting.
- Experience in repair and preventative maintenance on production machinery and building environmental equipment (HVAC, heat/lighting, etc.).
- Working knowledge of using multimeters, megohmmeter, oscilloscope, and a PC for units controlled by programmable logic controllers.
- Ability to Wire and install new control panels to upgrade existing equipment.
- Associate degree in electrical-related field or equivalent from two-year college or technical school is preferred.
- Work history that includes blue print reading, electrical skills and supervisory experience is a plus.

AAM-St. Marys Manufacturing Facility offers competitive wages, benefits, and retirement.
