Superintendent’s Note

The information below describes the operating levy and building bond levy that is part of the November 7th election. Faribault Public Schools has the responsibility to provide the community with the facts about these levies.

This information, along with other details, is available on the Faribault District website and at all schools and offices.

The school board has decided to ask for an operating levy and authority to issue building bonds. The operating levy will provide funds to support operating costs and staff for the additions and modifications in the bond issue. For the building bond issue to pass, both questions must be approved.

We want to make sure local voters are aware of these important levies when they go to the polls next month. Please look over this information. It will help you when you make this important decision when you vote on November 7th.

Todd Sesker
Superintendent
