

If you're suffering from nerve problems in the legs and feet, you must read about a clinical study that showed...

How 85% of Patients Eliminated Numbness, Tingling, or Sharp Pains

Numbness, tingling, and pain are an extremely annoying problem.

It may come and go...interrupts your sleep...and even makes your arm or legs feel weak at times. Maybe you've even been to other doctors and they claim all the tests indicate you *should* feel fine or nothing they can do, well...you are not alone!

If You Read Nothing Else, Read This:

More than 20 million Americans suffer from peripheral neuropathy, a problem caused by damage to the nerves that supply your legs and feet.

This painful condition interferes with your body's ability to transmit messages to your muscles, skin, joints, or internal organs. If ignored or mistreated, neuropathy can lead to irreversible health conditions.

Our **REAL** number one complaint from neuropathy in our clinic is our patients lose the ability to drive because they cannot feel the pressure on the gas pedal or brake. And a close second is falling.

Why not get help (if you qualify) with a drug-less, non-invasive therapy plan for neuropathy and balance problems, called the NerveFit®

More Pills Are Not the Solution

A common treatment for many nerve problems is the 'take some pills and wait and see' method. While this may be necessary for temporary relief of severe symptoms, using them long term is no way to live. Some of the more common drugs given include pain pills, anti-seizure medications, and anti-depressants -- all of which have serious side effects.

The Likely Cause of Your Problem

My name is Dr. Ryan Lewis, DC President of the Missouri Pain Treatment Center. I've been helping people with neuropathy for 12 years and nerve problems for more than 16 years.

Neuropathy is the condition when nerves become damaged. Unfortunately there are over 100 causes of neuropathy or nerve damage. No matter the cause the nerves ultimately become damaged from a deficit of key nutrients (we call

fuel) and a lack of stimulation (we call activation).

The good news is that neuropathy therapy, called the NerveFit® have proven effective in helping the nerves get the fuel and activation they need too help the nerves heal as close to normal as possible.

You see nerves have the ability to change and heal on their own. It is called Neuroplasticity. Sadly, they're just not good at doing it on their own.

This Is Where We Come In

By using the NerveFit®, we are able to help neuropathy patients get fuel and activation to their damaged nerves. This allows the nerves to heal and the symptoms to go away.

Numerous studies have proven non-invasive therapeutic effectiveness in helping nerve conditions.

"Patients showed an **85% resolution of the nerve symptoms** after only 9 chiropractic treatments" – *Journal of Chiropractic Medicine*

"At the end of the 30 day trial, all 49 subjects had partial restoration of feeling in their feet." --- *Journal of the American Podiatric Medical Association*

"98% of patients reported having a significant reduction in pain." – *Journal of Diabetes and its Complications*

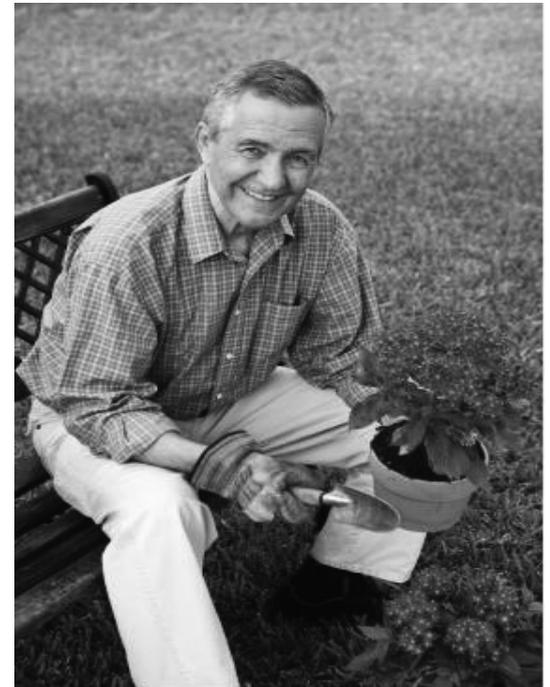

What these studies mean is that you could soon be enjoying life...without those aggravating nerve problems.

Could This Be Your Solution?

It's time for you to find out if our **NerveFit® Program** will be your neuropathy solution.

Until October 12th, you will get all the services I normally charge new patients \$140 for **FREE!** What does this offer include? Everything. Take a look at what you will receive:

- An in-depth consultation about your health and well-being where I will listen...really listen...to the details of your case.
- A complete neuropathy evaluation (normally \$140).
- A thorough analysis of your evaluation findings so we can start mapping out your plan to being pain free.

Don't let numbness, tingling and pain hold you back from enjoying life.

Remember this expires on Oct. 12th! You can get everything I've listed here for **FREE!** The normal price for this type of evaluation is \$140, so you've saving a considerable amount by taking me up on this offer.

Call 314-802-4491.

I'll answer your most probing questions about nerve problems and how my NerveFit® program can help.

When you call, tell the receptionist you'd like to come in for the *Neuropathy Assessment* so she can get you on the schedule, and make sure you receive proper credit for this special offer.

Sincerely,
Dr. Ryan K. Lewis, D.C.

P.S. Remember, you only have until October 12th, 2019 to reserve an appointment at this significant discount. Why suffer for years in misery? Why risk falling?

That's no way to live, not when there could be an easy solution to your problem. Nothing's worse than feeling great mentally, but physically feeling held back from life because your legs and feet hurt – and the pain just won't go away! Take me up on my offer and call today
