

PERIPHERAL NEUROPATHY AND CHRONIC PAIN WARNING!

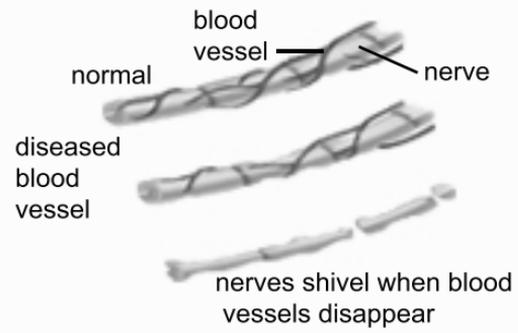

St. Louis, MO --- The most common method your doctor will recommend to treat your chronic pain and/or neuropathy is with prescription drugs that may temporarily reduce your symptoms. These drugs may cause you to feel uncomfortable and have a variety of harmful side effects.

Chronic pain and/or peripheral neuropathy is a result of damage to the nerves often causing weakness, pain, numbness, tingling, and the most debilitating; balance problems. This damage is commonly caused by a lack of blood flow to the nerves in the hands and feet which causes the nerves to begin to degenerate due to lack of nutrient flow.

As you can see in Figure 2, as the blood vessels that surround the nerves become diseased they shrivel up which causes the nerves to not get the nutrients to continue to survive. When these nerves begin to "die" they cause you to have balance problems, pain, numbness, tingling, burning, and many additional symptoms.

The main problem is your doctor has told you to just live with the problem or try the drugs which you don't like. There is now a facility right here in St. Louis that offers you hope without taking those endless drugs with serious side effects.

Treatment that is provided at The Vanguard Clinic has three goals.

- 1) Increase blood flow
- 2) Stimulate and increase small fiber nerves
3. Decrease brain-based pain

In addition, we use a state-of-the-art diagnostics like the TM Flow diagnostic unit to accurately determine the increase in blood flow and a small skin biopsy to accurately determine the increase in small nerve fibers!

The Sanexas electric cell signaling system delivers energy to the affected area of your body at varying wave lengths, including both low frequency and middle frequency signals. It also uses amplitude modulated (AM) and frequency modulated (FM) signaling. During a treatment session, the Sanexas system automatically changes to simultaneously deliver AM and FM electric cell signal energy. THE GREAT NEWS IS THAT SANEXAS IS COVERED BY MEDICARE AND MOST INSURANCE!

Depending on your coverage, your treatment could be little to no cost to you!

The Vanguard Clinic will do a chronic pain and neuropathy severity examination to determine the extent of the nerve damage to you and/or your family and friends.

The Vanguard Clinic will be offering this chronic pain and neuropathy examination from now until October 31, 2019. Call 314-325-1815 to make an appointment to determine if your chronic pain and peripheral neuropathy can be treated.

Due to our very busy schedule, we are limiting this offer to the first 15 callers. YOU DO NOT HAVE TO SUFFER ANOTHER MINUTE, CALL 314-325-1815.....NOW!!!
