6               An ordinance concerning use of City resources to amend marijuana laws within the City  
7     of St. Louis, to amend Ordinance 69429, to regulate the use of City resources to enforce laws  
8     against marijuana and marijuana paraphernalia, to enforce marijuana laws by restricting illegal  
9     acts regarding marijuana usage or possession, to allow for police use of marijuana as cause for  
10    reasonable suspicion in searches, to minimize disproportionate penalties for violations, to  
11    prioritize enforcement activities of the City of St. Louis, including the St. Louis Metropolitan  
12   Police Department, and to eliminate redundant law enforcement of marijuana laws where  
13   adequate enforcement exists under federal law which prohibits the same conduct. The ordinance  
14   contains a savings provision and a severability provision.

15              **WHEREAS**, in 2013, Board of Aldermen addressed marijuana possession in the City of  
16   St. Louis by passing Ordinance 69429, as codified in Part IV, Chapter 11.60, Title 11 of the  
17   Revised Code of the City of St. Louis;

18              **WHEREAS**, at least five cities, including Breckenridge, Colorado; Denver, Colorado;  
19   Portland, Maine; South Portland, Maine; Washington, D.C., and eight states, including Colorado,  
20   Washington, Oregon, Alaska, California, Maine, Massachusetts, Nevada have legalized and  
21   regulated marijuana under state and local laws;

22              **WHEREAS**, cities and states have not seen significant increases in crime since

1       legalization and regulation of marijuana, and many have seen slight decreases in crime;

2           **WHEREAS**, the Drug Enforcement Agency found that, overall, research does not  
3       support a direct causal relationship between regular marijuana use and other illicit drug use;

4           **WHEREAS**, the Metropolitan Police Department has contended that it is understaffed by  
5       over 110 officers;

6           **WHEREAS**, federal law prohibition makes enforcement of state laws on marijuana by  
7       the City of St. Louis, including by the Metropolitan Police Department, redundant and wasteful  
8       of city resources;

9           **WHEREAS**, arresting, citing, and prosecuting marijuana offenders diverts police time  
10      away from crimes with victims. Nationally, 87% of all motor vehicle thefts and over 70% of  
11      robberies go unsolved, while law enforcement pursues over half a million arrests for marijuana  
12      possession. Regulating marijuana would free up law enforcement time and resources to focus on  
13      real crime;

14           **WHEREAS**, it is in the best interests of the City of Saint Louis that City resources only  
15      be devoted to issues of priority in ensuring public safety and protecting the quality of life for its  
16      residents;

17           **WHEREAS**, eliminating marijuana enforcement by local police may separate the market  
18      for marijuana from the market for more harmful substances, reducing the likelihood that  
19      marijuana consumers will be exposed to opiates or other dangerous drugs when they purchase  
20      marijuana;

21           **WHEREAS**, studies have found that a 48% reduction in patients' opioid use after three  
22      months of medical marijuana treatment, 39% reduction in their opioid dosage, and 39% stopped

1 using opioids altogether;

2       **WHEREAS**, researchers at Columbia University's School of Public Health found that, in  
3 states that passed medical marijuana laws, fewer drivers killed in car crashes tested positive for  
4 opioids after the laws went into effect;

5       **WHEREAS** the City of St. Louis and the Metropolitan Police Department, have  
6 discretion to enforce the law or to not enforce certain laws depending on enforcement priorities;

7       **WHEREAS** the City of St. Louis places a high priority on fighting violent crime, and  
8 places a low enforcement priority on enforcing marijuana laws;
