## HAS FERGUSON DAMAGED NIXON'S POLITICAL FUTURE?

BY KEVIN McDERMOTT  
kmcdermott@post-dispatch.com  
AND VIRGINIA YOUNG  
vyoung@post-dispatch.com

Until 16 days ago, Missouri Gov. Jay Nixon was in a position most politicians would envy.

As the moderate two-term Democratic governor of a Republican-leaning state, he could tout a stellar state credit rating, a scandal-free personal résumé and a folksy persona that plays well in middle America. His one brief brush with the national spotlight — in the aftermath of the Joplin tornado in 2011 — portrayed an effective and empathetic leader.

With two years left in his

## QUALIFIED BLACK APPLICANTS HARD TO FIND, CHIEFS SAY

BY DOUG MOORE • dmoore@post-dispatch.com  
WALKER MOSKOP • wmoskop@post-dispatch.com  
AND NANCY CAMBRIA • nancy.cambria@post-dispatch.com

About 67 percent of Ferguson's residents are African-American, but only 7 percent of the city's commissioned police officers are black.

That lopsided representation, brought to light after a black teen was killed by a white police officer two weeks ago, has city leaders pledging to try harder to improve race relations.

The disparity is common among communities in St. Louis County with significant black populations. Many police departments do not reflect the communities they serve.

No known agency tracks the racial makeup of police departments, so the Post-Dispatch contacted 36 St. Louis County police departments in cities

## Colleges' adjunct faculty eyeing unionization

The part-time teachers cobble together a living, not knowing when they will be needed and working without benefits.

BY KORAN ADDO  
kaddo@post-dispatch.com > 314-340-8305

Nine months out of the year, Andrew Nelson works about 50 hours a week, driving his 1995 Mazda on either 50- or 100-mile round trips every weekday to his college teaching gigs at Lindenwood University in St. Charles and East Central College in Union.

He gets paid just \$22,000 a year combined — without the benefit of a retirement package or

health care coverage.

Nelson is one of an estimated 4,000 adjunct faculty working in the St. Louis area. All together, they make up the working class of the academic community. They are the low-wage earners who teach classes when full-time faculty are already overloaded with heavy course loads, and they fill in when teaching departments are short-staffed.

For the past few years, a number of shadow
