Subject: NIBRS/MIBRS Certification for St. Louis Metro Police Department

CAUTION, EXTERNAL EMAIL: This email originated from outside the SLMPD. Take this into consideration before clicking on links, opening attachments, or responding.

Dr. Baumgartner,

Congratulations! As the State of Missouri's UCR Program Manager, I can confirm that St. Louis Metropolitan Police Department's (SLMPD) incident-based data was successfully received and processed into the MIBRS Repository and forwarded to the Federal Bureau of Investigation's NIBRS Repository **on September 15, 2021**. Many more data submissions are expected in order for SMLPD to fully cover all crime and arrest activity occurring within the City of St. Louis for January 1, 2021 forward.

I know your agency has worked very hard to achieve NIBRS/MIBRS compliant status.

Please contact me with any questions,

Kyle W. Comer, JD, MPA
