

CAROLINE FAYARD

US SENATE

October 28, 2016

Mr. Tim Fandal, President
The Alliance for Good Government

Sent via email

Mr Fandal:

On behalf of Caroline Fayard and the Caroline Fayard for US Senate campaign, I hereby inform you that we are unable to meet your demand that we remove our latest campaign ad under threat of losing your organization's endorsement.

Please note that we are not in violation of the terms of the agreement signed by our campaign prior to the forum, a signed copy of which to date you have failed to produce. We also have followed your directive to pay our pro rata share of the ads sanctioned by your organization. And finally, in the interests of good faith, Ms. Fayard even attempted this morning to strike a compromise with you on this matter as to use of the Alliance as a source citation in the ad. Sadly that compromise too was rejected.

Given that your organization's continuing attempt to use its endorsement of Ms. Fayard as a means to assert editorial control over and censor our message undermines the very principles of full disclosure, transparency, and accountability which your organization purportedly promotes, we are unable to continue our association with your organization.

Accordingly we not only decline to meet your demands that we pull the ad, we also respectfully rescind our acceptance of your endorsement.

We ask that you please inform your board of our decision.

Sincerely,

David Morris
Campaign Manager,
Caroline Fayard for US Senate
