Ted James: because they've already seen what they're gonna get with her and there's nothing downtown There's no movement on DPW. It's it's inaction It's it's a lot of turn over here in her office and a lot of them are willing to take a chance on on me and and quite honestly... This is screwed up. A White man, if he knows he got to deal with somebody Black, would rather deal with another man than a woman, it's fucked up. It's screwed up. And I'm honestly, I get to take advantage of it right now. And that's not going to change in four years. It's not going to change in eight years.

P1: I know that.

Ted James: And the funny thing is I fight about it in terms of Kamala Harris, right? Like I fight about it because she's a personal friend of mine. She gets the same right now. The same like even people in our party, they, she if they don't care about Joe they just don't want her to be the president because she's a black woman I get it, I understand it.

Ted James: saying it about me I'm not gonna dive down this road because people have donated to you that you don't always agree with. People have donated to me that I don't always agree with and I don't want to confuse the voters by if some of y'all hate Eddie Response so much? Great, Davante Lewis is gonna endorse me so I got MAGA and LGBT like that's what I'm bringing together right so you can't say that I'm the Trump guy I got the first openly gay Black man as an elected official supporting me. I can't be both, right? I can't be woke and MAGA, right? And they're saying it all about me. I'm woke and MAGA. I'm a woke MAGA guy.
