ACT No. 455

SENATE BILL NO. 154
BY SENATOR ALLAIN
Prefiled Pursuant to Article III, Section 2(A)(4)(b)(i)
of the Constitution of Louisiana.
AN ACT

To enact Chapter 12-B of Title 30 of the Louisiana Revised Statutes of 1950, to be
comprised of R.S. 30:1161 through 1179, relative to renewable energy leases;
to provide for rights and obligations; to provide for terms and conditions;
to provide for remedies; to provide for termination; to provide for privileges;
to provide for redesignation; and to provide for related matters.

Be it enacted by the Legislature of Louisiana:
Section 1. Chapter 12-B of Title 30 of the Louisiana Revised Statutes of 1950,
comprised of R.S. 30:1161 through 1179, is hereby enacted to read as follows:

CHAPTER 12-B. RENEWABLE ENERGY LEASES
PART I. THE LESSEE

§1161. Renewable energy lease
A “renewable energy lease” is a lease of immovable property that is entered
for the primary purpose of the lessee's engaging in the production of wind,
solar, or hydroelectric energy using the leased immovable, and any other lease
pursuant to which the lessee's primary activity on the leased immovable is the
production of wind, solar, or hydroelectric energy. A renewable energy lease
is not a mineral lease. The lessee's rights in a renewable energy lease and his
rights in the buildings, improvements, and other constructions on the leased
immovable are susceptible of mortgage.

§1162. Preservation of rights
The owner of land burdened by a renewable energy lease and the lessee of a
renewable energy lease shall exercise their respective rights with reasonable
regard for those of the other. Subject to the laws of registry, the lessee of a
renewable energy lease shall not unreasonably interfere with the rights of
others lawfully exercising their rights in the land.

§1163. Lessee's obligation to act as reasonably prudent operator
A lessee of a renewable energy lease is not under a fiduciary obligation to his
lessor, but he is bound to perform the contract in good faith and to develop and
operate the property leased as a reasonably prudent operator for the mutual
benefit of himself and his lessor. Parties may stipulate what shall constitute
reasonably prudent conduct of the lessee to develop and operate the leased
property.

§1164. Lessee's right to assign or sublease
The lessee's interest in a renewable energy lease may be assigned or
subleased in whole or in part, unless the lease expressly prohibits assignments
or subleases. If a renewable energy lease contains a provision that expressly
prohibits either assignments or subleases, then unless the lease language
clearly shows a contrary intent, the provision will be interpreted as prohibiting
both assignments and subleases.

§1165. Responsibility of assignee or sublessee to original lessor
A. To the extent of the interest acquired, an assignee or sublessee acquires the
rights and powers of the lessee and becomes responsible directly to the lessor
for performance of the lessee's obligations. Except as otherwise expressly
agreed to in writing by the lessor, an assignor or sublessor is not relieved of
his obligations or liabilities under a renewable energy lease unless the lessor
has discharged him expressly and in writing in a separate instrument executed

at the time of the assignment or sublease or thereafter. The lessor shall not unreasonably withhold the discharge. A partial assignment or partial sublease does not divide a renewable energy lease. A renewable energy lease lessor shall accept performance by an assignee or sublessee whether or not the assignment or sublease is filed for registry.

B. If the assignor assigns his rights in the renewable energy lease, the assignor shall provide to the lessor a notice of assignment containing the name, address, phone number, and email address of the assignee. The assignee or his operator shall comply with all applicable requirements of R.S. 30:1154.

§1166. Demands by lessor; effect on assignee or sublessee

An assignee or sublessee is bound by any notice or demand by the lessor on the lessee unless the lessor has been given written notice of the assignment or sublease. If such notice has been given, any subsequent notice or demand by the lessor shall be made on the assignee or sublessee.

PART 2. TERMINATION AND REMEDIES FOR VIOLATION

§1167. Termination of renewable energy lease

A renewable energy lease terminates at the expiration of the agreed term or upon the occurrence of an express resolatory condition.

§1168. Right to relief for violation

If a renewable energy lease is violated, an aggrieved party shall be entitled to any appropriate relief provided by law. Parties may stipulate what constitutes appropriate relief.

§1169. Rules of default applicable except as specified

The provisions of the Louisiana Civil Code concerning putting in default are applicable to renewable energy leases subject to the modifications in this Part.

§1170. Written notice; requirement and effect on claims for damages or dissolution of lease

If a renewable energy lessor seeks relief from his lessee for any claim that the lessee has failed to develop and operate the property leased as a prudent operator, he shall give his lessee written notice of the asserted breach of performance and allow a reasonable time for performance by the lessee as a prerequisite to a judicial demand for damages or dissolution of the lease. If a lessee is found to have had actual or constructive knowledge of its failure to perform as a prudent operator and is held responsible for consequent damages, the damages may be computed from the time a reasonably prudent operator would have remedied the failure to perform. In other cases where notice is required by this Part, damages may be computed only from the time the written notice was received by the lessee. The parties may stipulate what constitutes a reasonable time for performance under this Section.

§1171. Nonpayment of royalties; notice prerequisite to judicial demand

If a renewable energy lessor seeks relief for the failure of his lessee to make timely or proper payment of rent or royalties, he shall give his lessee written notice of such failure as a prerequisite to a judicial demand for damages or dissolution of the lease.

§1172. Required response of lessee to notice; effect of response

The lessee shall have thirty days after receipt of the required notice to pay the rent or royalties due or to respond by stating in writing a reasonable cause for nonpayment. The payment or nonpayment of the rent or royalties or stating or failing to state a reasonable cause for nonpayment within this period has the following effect on the remedies of dissolution and damages:

A. If the lessee pays the rent or royalties due within thirty days of receiving the required notice, the remedy of dissolution shall be unavailable unless it be found that the original failure to pay was fraudulent. The lessee also remains liable for interest from the time the payments were due under the lease.

B. If the lessee pays the rent or royalties due within thirty days of receiving the required notice, but the original failure to pay rent or royalties was either fraudulent or willful and without reasonable grounds, the court may in its discretion award as additional damages in an amount not to exceed the amount of rent or royalties that were not timely or properly paid, interest on that sum from the date due, and reasonable attorney fees. In all other cases, such as mere oversight or neglect, damages shall be limited to interest on the rent or royalties computed from the date due, and reasonable attorney fees if such interest is not paid within thirty days of the written demand.

C. If the lessee fails to pay rent or royalties due and fails to inform the lessor of a reasonable cause for failure to pay in response to the required notice, the court may dissolve the lease. In addition, the court may award as damages the amount of rent or royalties due, interest on that sum from the date due, and reasonable attorney fees regardless of the cause for the original failure to pay.

D. The parties may stipulate a time period longer than thirty days within which the lessee shall pay rent or royalties due following written notice for payment thereof by the lessor, but in no circumstance shall such time period be greater than sixty days from delivery of the written notice to the lessee.

§1173. Notice; manner of delivery

For any written notice required under this Chapter, the parties to a renewable energy lease may stipulate the conditions, manner, and method by which delivery of such written notice to the lessee shall be made.

§1174. Summary eviction not applicable

A renewable energy lessee cannot be evicted by summary process.

§1175. Dissolution may be partial or entire

A renewable energy lease may be dissolved partially or in its entirety. A decree of partial dissolution may be made as to those portions of the land subject to a renewable energy lease on which construction of the renewable energy facility has not commenced within ten years of the effective date of the lease, or in any other fashion which may provide appropriate justice in the judgment of the court.

PART 3. THE LESSOR'S PRIVILEGE

§1176. Lessor's privilege

The lessor of a renewable energy lease has, for the payment of his rent, and other obligations of the lease, a privilege on all equipment, machinery, and other property of the lessee on or attached to the property leased. The right also extends to equipment, machinery, and other property of a sublessee on or attached to the property leased, but only to the extent that the sublessee is indebted to his sublessor at the time the lessor exercises his right.

§1177. Right to seize property on premises or within fifteen days of removal

The renewable energy lessor may seize the property subject to his privilege before the lessee removes it from the leased premises, or within fifteen days after it has been removed by the lessee without the consent of the lessor, if it continues to be the property of the lessee, and can be identified.

§1178. Manner of enforcement

The renewable energy lessor may enforce his privilege in the same manner as the privilege accorded other lessors.

§1179. Exclusion; offshore wind

Unless incorporated by reference into an agreement, this Chapter shall not apply to offshore wind energy agreements entered into by the state.

Section 2. The Louisiana State Law Institute is hereby directed to redesignate Chapter 12 of Title 30 as Chapter 12-A.

Section 3. This Act shall become effective upon signature by the governor or, if not signed by the governor, upon expiration of the time for bills to become law without signature by the governor, as provided by Article III, Section 18 of the Constitution of Louisiana. If vetoed by the governor and subsequently approved by the legislature, this Act shall become effective on the day following such approval.

To enact R.S. 9:2717.1, relative to contracts; to provide relative to foreign adversaries or persons connected with foreign adversaries; to prohibit the acquisition of immovable property; to provide for prospective application; to provide for actions and investigations by the attorney general; to provide for attorney fees and court costs; to provide relative to judgments; to provide for civil forfeiture; to provide for exceptions; to provide for definitions; and to provide for related matters.

Be it enacted by the Legislature of Louisiana:

Section 1. R.S. 9:2717.1 is hereby enacted to read as follows:

§2717.1. Prohibition of acquisition of immovable property by a foreign adversary or a person connected with a foreign adversary

A.(1) No foreign adversary or person connected with a foreign adversary may purchase, lease, or otherwise acquire immovable property in this state.

(2) A party to a contract to purchase, lease, or otherwise acquire immovable property may rescind the contract prior to the transfer of the immovable property if the party determines that the purchaser or lessee is a foreign adversary or a person connected with a foreign adversary.

(3) The provisions of this Section are applicable to contracts entered into by a foreign adversary or person connected with a foreign adversary to purchase, lease, or otherwise acquire immovable property after August 1, 2023. These provisions are not applicable to existing contracts to purchase, lease, or otherwise acquire immovable property or the renewal of existing leases that were in place prior to August 1, 2023.

(4) A person may conclusively rely upon an affidavit made by a person intended to acquire or holding an interest in immovable property to the effect that the person is neither a foreign adversary nor a person connected with a foreign adversary, and the correctness of those facts may not be controverted against a person relying on the affidavit, unless actual fraud by such person is proved. A person who gives a false affidavit shall be responsible for any loss or damage suffered by any person whose rights are adversely affected.

(5) No seller or lessor shall be liable pursuant to this Section, except a foreign adversary or a person connected with a foreign adversary that is required to forfeit or dispose of property pursuant to a court order as provided for in Subsection C of this Section.

B.(1) The attorney general may bring an action for injunctive relief in the name of the state against the foreign adversary or the person connected with a foreign adversary to enjoin the property transfer prior to the transfer of the immovable property. The attorney general shall serve the petition for injunctive relief upon all parties to the transaction.

(2) If the transfer or lease of the property has been completed, the attorney general may bring an action in the name of the state against the foreign adversary or a person connected with a foreign adversary.

(3) Any action by the attorney general may be brought in the district court having civil jurisdiction in any parish in which a portion of the immovable property is located, and the attorney general may recover reasonable attorney fees and court costs.

(b) The attorney general believes it to be in the public interest that an investigation needs to be made to ascertain whether a foreign adversary or a person connected with a foreign adversary in fact is attempting to enter into, conspiring to enter into, or has entered into a contract to purchase, lease, or otherwise acquire immovable property in this state.

(5) If an action is brought pursuant to this Section then no later than one business day after filing the action, the attorney general shall record in the public mortgage records of the parish clerk of court of each parish in which any portion of the immovable property is located a notice of pendency of the action pursuant to Code of Civil Procedure Article 3751 et seq. The institution of the action and the recordation of the notice of pendency of the action shall have no effect on persons obtaining rights in the immovable property prior to the recordation of the petition. The attorney general shall cause the notice of pendency of action to be cancelled from the mortgage records no later than one business day after judgment is rendered or after a request for cancellation is made by any interested party in connection with the transfer of the property to a person other than a foreign adversary or person connected with a foreign adversary. If the notice of pendency of action relates to a property interested vested in a foreign adversary or person connected with a foreign adversary, the attorney general may petition the court for an order requiring the proceeds of the sale attributable to the property interest of the foreign adversary or person connected with a foreign adversary after the deduction of payments to mortgagees, lienholders, person providing services in connection with the transfer of the property, and credits to the purchaser relating to tax and other customary prorations, be deposited in the registry of the court in which the proceeding is pending.

(6) Prior to bringing an action pursuant to this Section, the attorney general shall provide written notice to the holder of each mortgage, lien, privilege, and other encumbrance encumbering the subject immovable property, which is filed in the public mortgage records in the parish where the immovable property is located. Such notice shall be provided in the same manner as provided in R.S. 40:2608 or R.S. 14:90.1.

(a) Order that the foreign adversary's interest in the property be sold to a person who is not a foreign adversary or to a person who is not connected to a foreign adversary.

(b) Order that the foreign adversary or person connected with a foreign adversary's interest in the property be sold at a judicial sale in accordance with the requirements of Code of Civil Procedure Article 2331 et seq.

(iv) Indebtedness, including interest, penalties, attorney fees, and court costs, secured by a lien or privilege on the property.

(v) Commissions due to a real estate broker or real estate agent.

(vi) Costs related to the perfection of the sale.

(2) After satisfying all mortgages, liens, privileges, and other encumbrances encumbering the property subject to this Section, and payment of all persons providing services in connection with the transfer of the property, sheriff's fees, and credits to the purchaser relating to tax and other customary prorations, the remaining proceeds of the sale provided by this Subsection shall be considered a civil asset forfeiture and the money shall be paid to the Department of Justice to fund services for veterans of foreign wars. The attorney general may also enter into cooperative endeavor agreements with other state agencies or local governments to provide services for veterans who suffer from injury or disability as a result of a foreign war.

D.(1) All proceedings under this Section shall be made with due provisions to protect the rights of any person unless the attorney general proves beyond a reasonable doubt that the person entered into the transaction with the foreign adversary or person connected with a foreign adversary for the purpose of aiding such foreign adversary or person connected with a foreign adversary in compromising the security of the United States.

(2) No mortgage, lien, privilege, or other security interest recognized under the laws of this state and no ownership interest in indivision, lease, servitude, usufruct, right of use, bond for deed, or other real right shall be affected by a forfeiture or disposition pursuant to this Section.

(3) No forfeiture or disposition under this Section shall affect the rights of any person unless the attorney general proves beyond a reasonable doubt that the person entered into the transaction with the foreign adversary or person connected with a foreign adversary with the purpose of aiding such foreign adversary or person connected with a foreign adversary in compromising the security of the United States.

E. No attorney, title insurer, title insurance producer, title insurance agency producer, lender, mortgage loan servicer, notary public, real estate agent, real estate broker, seller, or lessor shall have a duty to make any investigation as to whether a party to a transaction involving immovable property is a foreign adversary, nor shall any such person be liable for failing to identify that a party to a transaction involving immovable property is a foreign adversary.

F. The provisions of this Section shall not apply to any of the following:

(1) A natural person who is an American citizen, regardless of whether the United States citizenship was acquired by birth or the United States citizenship was granted to a person after meeting the requirements established by the United States Congress in the Immigration and Nationality Act, 8 U.S.C. 1158, et seq.

(2) A person who is not a United States citizen but is a permanent legal resident or is lawfully present in the United States by virtue of authorization by the United States Department of Homeland Security.

(3) A juridical person, as defined in Civil Code Article 24, that is wholly owned by persons who qualify under Paragraphs (1) and (2) of this Subsection.

(4) Immovable property purchased, leased, or otherwise acquired by a natural person that is used as a one to four family residential property.

(5) A juridical person that owned and conducted oil and gas operations located in Louisiana prior to July 1, 2023, and that is granted permissions by a General License issued by the United States Department of the Treasury, Office of Foreign Assets Control (OFAC General License) and that purchases or acquires property in Louisiana with a party or parties that are subject to the OFAC General License.

G. For the purposes of this Section:

(1) "Foreign adversary" means an individual or a government identified as a foreign adversary in 15 CFR 7.4(a) and identified in the database maintained by the United States Department of Treasury, Office of Foreign Assets Control.

(2) "Person connected with a foreign adversary" means the juridical person, as defined in Civil Code Article 24, in which the foreign adversary has

the power to direct or cause the direction of the management or policies of the juridical person whether through ownership of securities, by contract, or otherwise. A person or entity that directly or indirectly has the right to vote fifty percent or more of the voting interests of an entity or is entitled to fifty percent or more of its profits is presumed to have the power to direct or cause the direction of the management or policies of the juridical person.

H. This Act shall apply only to property acquired by a foreign adversary or person connected with a foreign adversary on or after August 1, 2023. If a foreign adversary or person connected with a foreign adversary acquires immovable property despite the prohibitions as provided in this Section, the property shall only be subject to forfeiture during the period in which the prohibited foreign adversary or person connected with a foreign adversary owns the property. ACT No. 465

**HOUSE BILL NO. 2
BY REPRESENTATIVE BISHOP
AN ACT**

To provide with respect to the capital outlay budget and the capital outlay program for state government, state institutions, and other public entities; to provide for the designation of projects and improvements; to provide for the financing thereof making appropriations from certain sources; and to provide for related matters.

Be it enacted by the Legislature of Louisiana:

Section 1. The following sums or so much thereof as may be necessary are hereby appropriated out of any monies in the state treasury from the sources specified, from federal funds and self-generated revenues belonging to the state of Louisiana and/or collected by boards, commissions, departments, and agencies thereof, all for making capital outlay and for the purposes and in the amounts specified herein for the Fiscal Year commencing July 1, 2023, and ending June 30, 2024, subject to the conditions thereafter provided:

A project with funding

Payable from General Obligation Bonds Priority 1 indicates that the funding for the project includes the reauthorization of funding which was previously granted as a line of credit by the State Bond Commission in Fiscal Year 2022-2023. As used in this Section, the term “general obligation bonds” means state general obligation bonds or other evidences of indebtedness

Payable from the Bond Security and Redemption Fund. The amount set forth in this Section opposite each project, or so much thereof as may be necessary, is hereby appropriated and

Payable from the source of funding indicated; provided, however, amounts appropriated and

Payable from federal funds may be encumbered or expended only to the extent such amounts shall have been committed or received. Pursuant to the provisions of R.S. 39:82, funds for planning, acquisition, construction, and major repair projects appropriated by this Act may be retained until completion of the project, even if no bona fide liability exists on the last day of the fiscal year.

This Act shall constitute the comprehensive state capital outlay budget for the 2023-2024 Fiscal Year. Projects set forth which are

Payable from the proceeds available from the sale of general obligation bonds shall have the priorities as indicated. The Request for Line of Credit form used by the attorney general and Bond Counsel in evaluating Louisiana Constitutional, Internal Revenue Code, and applicable income tax regulations shall be filed with the commissioner of administration, State Bond Commission, and state attorney general. No general obligation bond cash lines of credit shall be granted to fund any lower priority project prior to the granting of general obligation bond cash lines of credit to fund all higher priority projects (the “general rule”), except as hereinafter provided. This prohibition against funding a lower priority project shall not apply upon a showing of an impossibility or impracticality either to proceed with all unfunded higher priority projects or to proceed with the funding of such projects or any part thereof through the issuance of general obligation bonds for any reason. Such showing shall be stated in reasonable detail in a certificate or certificates signed by the state agency responsible for administering the funding, and filed with the commissioner of administration and the State Bond Commission (hereinafter referred to as “the Commission”). Upon a determination by the Commission that proceeding with such a project or the funding thereof through the issuance of general obligation bonds is impractical or impossible, the Commission may then proceed with the sale of general obligation bonds or the granting of cash lines of credit without regard to the priority of the unfunded projects determined to be impossible or impractical.

Upon recommendation by the state agency responsible for administering the funding, if it is determined at any time that proceeding with the project or with the funding thereof is no longer impossible or impractical, the State Bond Commission may rescind the certificate of impossibility or impracticality and may proceed with the project or with the issuance of general obligation

bonds or the granting of cash lines of credit to fund the project. Alternatively, the Interim Emergency Board (hereinafter referred to as “the Board”), upon reviewing certificates as described above and determining that proceeding with such projects or the funding thereof through the issuance of general obligation bonds is impossible or impractical, may designate a lower priority for such projects. The Board’s determination and lower priority designation shall be submitted to the members of the legislature for their approval in accordance with the provisions of Chapter 3-B of Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950. In accordance with the provisions of Chapter 3-B of Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950, whenever at the written request of the appropriate legislators and agency, the Board determines that an adjustment to a project description originally set forth in such capital budget adopted by the legislature for a current fiscal year is necessary to correct a mistake in a project description, clarify a description, change the scope of a description, or make any other adjustment the Board deems necessary to implement the purpose of the project, such adjustment shall become effective only upon the approval by majority vote of the elected members of each house of the legislature in the manner provided for in Chapter 3-B of Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950.

If such approval is granted, notification by the chair or secretary of the Board of the results of the balloting shall be transmitted to the State Bond Commission, which may then proceed with the sale of general obligation bonds or the granting of cash lines of credit for each change approved upon request of the commissioner of administration in accordance with the general rule.

With respect to Priorities 1 through 5, a lower priority project may be moved to a higher priority only upon a showing of an emergency or other cause not reasonably anticipated by the legislature, which shall be stated in reasonable detail in a certificate signed by the head of the appropriate department, political subdivision, or agency and filed with the commissioner of administration and the Board. Upon a determination by the Board that such project should be moved to a higher priority because of an emergency or other cause not reasonably anticipated by the legislature, the Board shall designate a higher priority to the project. The matter then shall be submitted to and be subject to the same approval by the members of the legislature in the manner previously indicated in this Section. If such approval is granted, notification by the chair or secretary of the Board of the change of priority shall be transmitted to the State Bond Commission, which then upon request of the commissioner of administration, may proceed with the sale of general obligation bonds or the granting of cash lines of credit in accordance with the general rule. As to projects within a priority, the State Bond Commission acting on requests submitted by the commissioner of administration shall determine when such project, or phases thereof, shall be funded. In making such determination, the State Bond Commission shall consider the amount of proceeds of general obligation bonds to be made available in light of money and capital market conditions; the expenditure requirements of the project; the time required for architectural plans and drawings, public bidding, and site acquisition and preparation; availability of receipt of federal monies; litigation affecting the undertaking or completion of a project; federal tax laws and regulations regarding the sale of municipal bonds; and other items of a similar nature bearing upon the possibility or the necessity to commence a project or any particular phase thereof.

Any other provision of this Act to the contrary notwithstanding, projects described in Priority 5 of this Act shall not be moved to a higher priority except upon one of the following conditions: (1) Funding is necessary to complete or additionally fund a project located elsewhere in the Capital Outlay Act. Determination of such condition shall be made by the head of the appropriate department or agency by means of a certificate to that effect filed with the Interim Emergency Board, who shall, by mail ballot, request approval of such change and if approved by a majority of each house of the legislature it shall be funded, or (2) unless required by an emergency or other cause not reasonably anticipated by the legislature, to be in accordance with procedures set forth in this Section. However, the State Bond Commission may authorize a non-cash line of credit for any project in Priority 5 which represents that portion of construction contracts which were let during a previous fiscal year, or construction contracts which will be let during the current fiscal year, but which will not require cash expenditures during the year. Such non-cash lines of credit, when combined with previously sold bonds or with higher priority bonds or lines of credit, or with funds appropriated from other sources, will provide sufficient appropriated funds to award equipment or construction contracts. Contracts shall not be awarded without approval of the division of administration.

Upon approval by the State Bond Commission, and subject to compliance with its policies and procedures and the procedures set forth herein, a line of credit providing for the use of funds in anticipation of the sale of general obligation bonds may be granted to the appropriate administering agency or department from the Comprehensive Capital Outlay Escrow Account, or if there is not a sufficient amount available in such account, from other available state cash in the state treasury, for capital improvement projects for which bond proceeds are appropriated by a current capital budget, prior to the actual issuance of bonds for such projects, unless the attorney general advises that an impediment exists to the valid issuance of the bonds on the date such line of credit is granted.

All bonds that are to be repaid, in whole or in part, by revenues generated by the project shall be designated as “Reimbursement Bonds.” The State Bond

Commission shall enter into such agreements as are necessary to provide that the agency or subdivision, whose project is reimbursable, shall pay the bond debt costs into the Bond Security and Redemption Fund. Such costs may be paid annually or at the end of the term of the bonds issued as determined by the State Bond Commission.

Priority 1 general obligation bond funding shall be limited to:
(1) Projects and amounts which were previously authorized by Act 117 of the 2022 Regular Session of the Legislature; and which were granted cash lines of credit by the State Bond Commission. The bonds to fund these projects were not sold in Fiscal Year 2022-2023.

(2) The reauthorization of the portion of the outstanding Fiscal Year 2022-2023 Priority 5 Non-Cash Lines of Credit for projects which will require cash expenditures in

Fiscal Year 2023-2024 and therefore must be converted to Cash Lines of Credit in Fiscal Year 2023-2024.

(3) Commitments made in the Higher Education Desegregation Settlement Agreement.

Priority 2 general obligation bond projects are for the completion of plans and specifications, land acquisition, site preparation, or for construction which will begin during the fiscal year. It is presently anticipated that the listed projects will require the sale of bonds or extension of lines of credit during the fiscal year after adoption of this Act.

Priority 3 general obligation bond projects are for the preparation of plans and specifications, land acquisition, site preparation, or for construction and shall be limited to funding for the portion of construction contracts which will not require cash expenditures during the fiscal year. The projects in this category shall be considered future year projects in the state's five-year capital outlay plan. It is presently anticipated that the listed projects will not require the sale of bonds or extension of lines of credit during the fiscal year.

Priority 4 general obligation bond projects are for the preparation of plans and specifications, land acquisition, site preparation, or for construction and shall be limited to funding for the portion of construction contracts which will not require cash expenditures during the fiscal year. The projects in this category shall be considered future year projects in the state's five-year capital outlay plan. It is presently anticipated that the listed projects will not require the sale of bonds or extension of lines of credit during the fiscal year.

Priority 5 general obligation bond funding shall be limited to funding for the portion of construction contracts which will not require cash expenditures during the fiscal year. These funds, when combined with previously sold bonds or with higher priority bonds on lines of credit, or with funds appropriated from other sources, will provide sufficient appropriated funds to award contracts. Non-cash lines of credit shall be required prior to the award of these contracts.

In accordance with the cash management plan adopted pursuant to R.S. 48:251(D) and the provisions of Act 161 of the 1998 First Extraordinary Session, the Department of Transportation and Development is authorized to enter into contracts or agreements for projects approved pursuant to the Highway Priority Program, Airport Construction and Development Priority Program, Port Construction and Development Priority Program, and Statewide Flood Control Program for projects bid and awarded, authorized, or commenced during the fiscal year which do not require cash expenditures for the full contract or agreement amount.
