

# **Exhibit 3**

**DECLARATION OF WILLIAM E. DEMUTH II**

I, William E. Demuth II, declare as follows:

1. I am currently the Laboratory Director for the Illinois State Police, Division of Forensic Services/Forensic Science Command's Training and Applications Laboratory. I have held this position for three and a half years. Prior to this, I held the position of Firearms/Toolmarks Training Coordinator for ten and a half years and Forensic Scientist specializing in Firearms/Toolmarks examination for nine and a half years prior to that.
2. I am a veteran of the United States Army and Illinois Army National Guard, where I received training and experience working with the military versions of several of the firearms explicitly regulated by the Protect Illinois Communities Act.
3. As a Firearms Examiner and Training Coordinator for the Illinois State Police, I have in excess of twenty years of training and experience in the examination and identification of all types of firearms. I am also a Distinguished Member and the current President of the Association of Firearm and Tool Mark Examiners (AFTE), a professional organization for forensic professionals that provides guidance and training in this discipline.
4. I submit this declaration in support of the Office of the Attorney General of Illinois response to litigation challenging various aspects of Illinois Public Act 102-1116, also known as the Protect Illinois Communities Act. Illinois State Police is a named Defendant in multiple cases involving the Protect Illinois Communities Act, including: *Harrel v. Raoul*, Case No. 23-cv-141-SPM (S.D. Ill.); *Langley v. Kelly*, Case No. 23-cv-192-NJR (S.D. Ill.); *Barnett v. Raoul*, 23-cv-209-RJD (S.D. Ill.); *Federal Firearms Licensees of Illinois v. Pritzker*, 23-cv-215-NJR (S.D. Ill.); *Barnett v. Raoul*, 23-cv-209-RJD (S.D. Ill.); and *Herrera v. Raoul*, 23-cv-532 (N.D. Ill.).
5. I have reviewed the provisions of Public Act 102-1116 being challenged in this case.

6. Exhibit A is a compilation of images of firearms explicitly regulated by the Protect Illinois Communities Act. The source of these images is a general internet image search, confirmed by my training and experience as a Firearms Examiner.

7. Exhibit B is a compilation of representative images of large capacity magazines explicitly regulated by the Protect Illinois Communities Act. The source of these images is a general internet image search, confirmed by my training and experience as a Firearms Examiner.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

Executed on February 24, 2023 at 2060 Hill Meadows Drive, Ste.1, Springfield, IL 62702.

# **EXHIBIT A**

<b>Regulated Assault Weapons<sup>1</sup></b>		
<b>Regulated Semiautomatic Rifles (by feature)<sup>2</sup></b>		
<b>Statutory Provision</b>	<b>Regulated Feature</b>	<b>Image</b>
(A)(i)	A pistol grip	
(A)(i)	A thumbhole stock	

(section continues on next page)

<sup>1</sup> Exhibit A contains pictures of assault weapons regulated in the Protect Illinois Communities Act, 720 ILCS 5/24-1.9, sourced through a search of publicly available internet sources.

<sup>2</sup> 720 ILCS 5/24-1.9 (a)(1)(A) defines assault weapon as any semi-automatic rifles that has the capacity to accept a detachable magazine or that may be readily modified to accept a detachable magazine, if the firearm has one or more of the specified features.

720 ILCS 5/24-1.9 (a)(1)(B) defines assault weapon as any semi-automatic rifle that has a fixed magazine with the capacity to accept more than 10 rounds, except for an attached tubular device designed to accept, and capable of operating only with, .22 caliber rimfire ammunition.

<p>(A)(ii)</p>	<p>Protruding grip</p>	
<p>(A)(iii)</p>	<p>Folding stock</p>

<b>Regulated Shotgun<sup>4</sup></b>		
<b>Statutory Provision</b>	<b>Regulated Feature</b>	<b>Image</b>
(E)	A revolving cylinder	 <p style="text-align: center;">Pictured: Cobray/SWD Street Sweeper</p>

---

<sup>4</sup> 720 ILCS 5/24-1.9(a)(1)(E) defines assault weapon as any shotgun with a revolving cylinder.

<b>Regulated Semiautomatic Shotguns (by feature)<sup>5</sup></b>		
<b>Statutory Provision</b>	<b>Regulated Feature</b>	<b>Image</b>
(F)(i)	Thumbhole stock	
(F)(ii)	Feature capable of functioning as protruding grip	
(F)(iii)	Folding stock	
(F)(iii)	Thumbhole stock	

(section continues on next page)

<sup>5</sup> 720 ILCS 5/24-1.9(a)(1)(F) defines assault weapon as any semiautomatic shotgun with one or more of the specified features.

(F)(iv)	Grenade launcher	 <p>Pictured: Saiga 12 gauge semiautomatic shotgun with 37 mm flare/grenade launcher attached under the barrel</p>
(F)(v)	Fixed magazine with capacity of more than 5 rounds	 <p>Pictured: Tavor TS12 – three fixed magazine tubes, each holding up to five 2 3/4" 12 gauge shells</p>
(F)(vi)	Capacity to accept a detachable magazine	

<b>Other Regulated Firearms</b>		
<b>Statutory Provision</b>	<b>Regulated Firearm</b>	<b>Image</b>
(G)	Any semiautomatic firearm that has capacity to accept a belt ammunition feeding device	 <p style="text-align: center;">Pictured: Belt-fed, semiautomatic, RPD rifle</p>
(H)	Any firearm that has been modified to be operable as an assault weapon [as defined by 720 ILCS 5/24-1.9 (a)(1)]	 <p style="text-align: center;">Unmodified Ruger, model 10/22 (not restricted)</p> <p style="text-align: center;">Ruger, model 10/22, with aftermarket collapsible stock, pistol grip, and large capacity magazine (restricted)</p>

(section continues on next page)

<p>(I)</p>	<p>Combination of parts designed or intended to convert a firearm into an assault weapon.<sup>6</sup></p>	 <p>Semiautomatic SKS Rifle with fixed, ten-round capacity magazine (not restricted on its own)</p> <div style="border: 2px solid red; padding: 5px;">     </div> <p>Combination of parts: Semiautomatic SKS rifle, plus pistol grip collapsible stock, plus detachable magazine, plus flash suppressor (combination of parts is restricted)</p>  <p>Semiautomatic SKS with above listed parts installed (restricted)</p>
------------	---	---

<sup>6</sup> Per 720 ILCS 5/24-1.9 (a)(1)(I), an assault weapon includes “[a]ny part or combination of parts designed or intended to convert a firearm into an assault weapon, including any combination of parts from which an assault weapon may be readily assembled if those parts are in the possession or under the control of the same person.”

<b>Regulated Semiautomatic Rifles (specific models)<sup>7</sup></b>		
<b>Statutory Provision</b>	<b>Regulated Firearm</b>	<b>Image</b>
<b>(J)(i)</b>	<b>All AK Types, including:</b>	<b>(intentionally blank)</b>
(J)(i)(I)	AK	 <p>“AK” is a general term for a class of rifles based on the original Kalashnikov-designed AK-47, an example of which is pictured here.</p>
(J)(i)(I)	AK47	
(J)(i)(I)	AK47S	 <p>“S” variants of the AK series of rifle have a downward folding stock. Pictured is an AKS-47 rifle.</p>

<sup>7</sup> Per 720 ILCS 5/24-1.9 (a)(1)(J), all of the listed rifles, copies, duplicates, variants, or altered facsimiles with the capability of any such weapon are assault weapons.

(J)(i)(I)	AK-74	 A photograph of an AK-74 assault rifle, featuring a silver-colored receiver and a distinctive curved orange magazine. The rifle is shown from a side profile against a dark, textured background.
(J)(i)(I)	AKM	 A photograph of an AKM assault rifle with a black metal receiver and a curved black magazine. It has a wooden stock and handguard. The rifle is shown from a side profile against a plain white background.
(J)(i)(I)	AKS	 A photograph of an AKS assault rifle, which is a simplified version of the AKM. It features a black receiver, a curved black magazine, and a wooden handguard. A tan fabric sling is attached to the rifle. The rifle is shown from a side profile against a plain white background.
(J)(i)(I)	(Maadi) ARM	 A photograph of a Maadi ARM assault rifle, which is a simplified AKM variant. It has a black receiver, a curved black magazine, and a wooden stock and handguard. The rifle is shown from a side profile against a plain white background.

(J)(i)(I)	MAK90	
(J)(i)(I)	(Maadi) MISR	
(J)(i)(I)	NHM90 (with thumbhole stock)	
(J)(i)(I)	Norinco NHM91	
(J)(i)(I)	FEG SA85	

(J)(i)(I)	Arsenal (Bulgaria) SA93	
(J)(i)(I)	Vector Arms AK- 47 (AKS)	
(J)(i)(I)	VEPR (FM- AK47-11)	
(J)(i)(I)	WASR-10 with flash suppressor	

(section continues on next page)

(J)(i)(I)	WUM (Romanian WUM1)	
(J)(i)(II)	IZHMASH Saiga AK	
(J)(i)(III)	Maadi AK-47 with side folding stock	
(J)(i)(III)	Maadi ARM	
(J)(i)(IV)	Norinco 56S	

(J)(i)(IV)	Norinco 56S2	 A side-profile photograph of a Norinco 56S2 assault rifle. It features a black metal receiver, a curved magazine, a wooden handguard, and a wooden stock with a folding rear sight.
(J)(i)(IV)	Norinco 84S	 A side-profile photograph of a Norinco 84S assault rifle. It has a black receiver, a curved magazine, a wooden handguard, and a wooden stock with a folding rear sight.
(J)(i)(IV)	Norinco 86S	 A side-profile photograph of a Norinco 86S assault rifle. It is a bullpup-style rifle with a black receiver, a curved magazine, and a black stock with a top-mounted carrying handle.
(J)(i)(V)	Poly Technologi es AK 47	 A side-profile photograph of a Poly Technologies AK 47 assault rifle. It features a black receiver, a curved magazine, a wooden handguard, and a wooden stock with a folding rear sight.

(L)(iv)(VI)	All IZHMASH Saiga 12 types: Saiga 12K 040 Takita	

(L)(v)	(Cobray) Streetsweeper	 A black, bullpup-style rifle with a long barrel and a folding stock. It features a magazine on the left side of the receiver and a pistol grip on the right.
(L)(vi)	(Penn Arms) Striker 12	 A black and tan bullpup-style rifle with a large, cylindrical magazine mounted on the left side of the receiver. It has a pistol grip on the right and a long barrel with a muzzle device.

# **EXHIBIT B**

<b>Regulated Large Capacity Magazine<sup>13</sup></b>		
<b>Statutory Provision</b>	<b>Regulated Accessory</b>	<b>Image</b>
(1)	Magazine, restored or converted to accept more than 10 rounds of ammunition for a long gun	 <p style="text-align: center;">Pictured: commonly available examples of 30 round magazines for AR-style rifles</p>
(1)	Magazine, restored or converted to accept more than 10 rounds of ammunition for a long gun	 <p style="text-align: center;">Pictured: commonly available examples of 30 round magazines for AK-style rifles</p>

(section continues on next page)

<sup>13</sup> The Protect Illinois Communities Act defines “large capacity ammunition feeding device” as

- (1) a magazine, belt, drum, feed strip, or similar device that has a capacity of, or that can be readily restored or converted to accept, more than 10 rounds of ammunition for long guns and more than 15 rounds of ammunition for handguns; or
- (2) any combination of parts from which a device described in paragraph (1) can be assembled.

In this exhibit, “large capacity magazines” is used to refer to magazines that fall within the definition of “large capacity ammunition feeding devices” under the Act. *See* 720 ILCS 5/24-10(a)(new).

<p>(1)</p>	<p>Magazine, restored or converted to accept more than 10 rounds of ammunition for a long gun</p>	 <p>Pictured: SureFire, AR-15 magazine, capacity 60 rounds of 5.56mm NATO/223 Remington ammunition</p>
<p>(1)</p>	<p>Belt, restored or converted to accept more than 10 rounds of ammunition for a long gun</p>	 <p>Pictured: ammunition belt for DSA RPD, semiautomatic rifle</p>

(section continues on next page)

(1)	Drum, restored or converted to accept more than 10 rounds of ammunition for a long gun	 <p>Pictured: KCI AR-15, 100 round drum magazine</p>
(1)	Drum, restored or converted to accept more than 10 rounds of ammunition for a long gun	 <p>Pictured: Romanian surplus, 75 round magazine for AK-style rifles</p>
(1)	Feed strip, restored or converted to accept more than 10 rounds of ammunition for a long gun	No Image Available <sup>14</sup>

<sup>14</sup> I am not aware of a commercially available rifle that uses a “feed strip.” Feed strips were used to feed ammunition into the chambers of machineguns prior to the development of the feed belt.

<p>(1)</p>	<p>Magazine, restored or converted to accept more than 15 rounds of ammunition for a handgun</p>	 <p>Pictured: Glock 21 (45 auto) with 30 round magazine</p>
<p>(1)</p>	<p>Magazine, restored or converted to accept more than 15 rounds of ammunition for a handgun</p>	 <p>Pictured: Intratec TEC-9 with 33 round magazine</p>

(section continues on next page)

<p>(1)</p>	<p>Magazine, restored or converted to accept more than 15 rounds of ammunition for a handgun</p>	 <p>Pictured: commonly available examples of 30 round magazines for AR-style pistols</p>
<p>(1)</p>	<p>Magazine, restored or converted to accept more than 15 rounds of ammunition for a handgun</p>	 <p>Pictured: commonly available examples of 30 round magazines for AK-style rifles</p>
<p>(1)</p>	<p>Belt, restored or converted to accept more than 15 rounds of ammunition for a handgun</p>	 <p>Pictured: Freedom Ordnance FM-9, belt fed upper receiver on AR-style pistol</p>

(section continues on next page)

<p>(1)</p>	<p>Drum, restored or converted to accept more than 15 rounds of ammunition for a handgun</p>	 <p>Pictured: Glock pistols with SGM Tactical 50 round drum magazines</p>
<p>(1)</p>	<p>Feed strip, restored or converted to accept more than 15 rounds of ammunition for a handgun</p>	<p>No Image Available<sup>15</sup></p>
<p>(2)</p>	<p>Any combinations of parts from which a device from (1) can be assembled</p>	 <p>Pictured: magazine tube/body, floorplate, and internal components of a 30 round AR-style magazine. Combined, these parts constitute a large capacity magazine.</p>

<sup>15</sup> I am not aware of commercially available pistol that uses a “feed strip.” Feed strips were used to feed ammunition into the chambers of machineguns prior to the development of the feed belt.
