Single Audit Report

For the Year Ended June 30, 2025

State Auditor

*A Constitutional Office of the
State of North Carolina*

North Carolina Office of the State Auditor

Dave Boliek, State Auditor

Auditor's Transmittal

The Honorable Josh Stein, Governor
The Honorable Phil Berger, President Pro Tempore
The Honorable Destin Hall, Speaker of the House
Honorable Members of the North Carolina General Assembly

Ladies and Gentlemen:

One of the largest projects the North Carolina Office of the State Auditor is required to complete is the Statewide Single Audit. Conducted every year, this audit examines a portion of the federal grants that North Carolina spends. For Fiscal Year 2025, OSA audited 14 programs managed by 13 entities that spent \$28 billion in federal awards. Upon completion of our 2025 Statewide Single Audit, we made 18 federal award findings, one financial statement finding, and found \$342,093 in questioned costs.

The 18 federal award findings include reporting deficiencies, eligibility deficiencies, incorrect use of grant funds, improper payments, and a lack of internal controls. The North Carolina Department of Health and Human Services (DHHS) accounted for eight of the federal award findings. In two instances, auditors found that DHHS subawards to counties totaling \$138.8 million were not reported as required. Other entities with federal award findings include: East Carolina University, UNC Asheville, UNC Greensboro, Caldwell Community College & Technical Institute, Cape Fear Community College, Craven Community College, and Durham Technical Community College.

Of the \$342,093 in questioned costs, an improper payment of \$113,115 made by DHHS has since been recouped by the agency as a result of our audit. Other questioned costs were referred to the accompanying federal oversight agencies for assessment of whether to pursue the recovery of dollars.

Also reported in the Statewide Single Audit is the financial statement finding identified during the audit of the State's financial statements at the North Carolina Department of Commerce. Auditors found the Department of Commerce did not have adequate internal controls, including review procedures, to ensure accurate financial reporting. The following misstatements were made because year-end journal entries were incorrectly recorded: intergovernmental payables were overstated by \$500 million, unemployment benefits expenses were overstated by \$372.8 million, noncapital grants were understated by \$195.2 million, and net accounts

receivable was understated by \$67.3 million. Additional audit adjustments were required to correct misstatements in the statement of cash flows and net position balances.

While there were significant findings, this report represents the first Statewide Single Audit in more than 24 years where OSA did not find any material noncompliance, meaning none of the findings in this audit were material in nature.

The Statewide Single Audit provides independent assurance on whether federal awards are spent in accordance with applicable laws and regulations. It is a safeguard of public resources, promotes good governance, and supports the effective delivery of federal tax dollars to North Carolina entities.

Respectfully submitted,

REPORT SUMMARY

Statewide Single Audit Report

The North Carolina Office of the State Auditor (OSA) is required to conduct the Statewide Single Audit which examines the State's federal expenditures. During the 2025 fiscal year, the State of North Carolina spent \$43.9 billion in federal awards from 648 programs, managed by 102 different state entities, including the university and community college systems. Select highlights can be found in OSA's Report Summary.

Audit Purpose & Importance

The Single Audit provides independent assurance on whether the State has spent federal awards in accordance with applicable laws, regulations, and program requirements. It also identifies internal control weaknesses or instances of noncompliance that could affect the management of federal programs.

The Single Audit serves a vital role in promoting transparency, accountability, and trust in how the State administers federal funding. The audit's impact extends to many members of the public, including:

- Federal agencies, which rely on the audit to ensure the State is complying with federal requirements and addressing any issues that impact program effectiveness.
- Citizens, who depend on federally supported services such as healthcare, education, and transportation, want assurance that federal dollars are managed responsibly and used as intended.
- Public officials, who use audit results to strengthen oversight of federal programs and guide policy decisions.
- State management and governing boards, who rely on the audit to identify risks, evaluate internal controls, and improve program operations.

Ultimately, the Single Audit helps safeguard public resources, promote good governance, and support the effective delivery of federally funded services across the State.

REPORT SUMMARY

Audit Findings

A total of 19 individual findings were reported as part of the Single Audit. This total includes one financial statement finding at the North Carolina Department of Commerce and 18 federal award findings across various state entities.

The federal award findings include a total of \$342,093 in known questioned costs. Questioned costs represent expenditures identified during the audit that may be unallowable, lack proper documentation, or appear unreasonable.

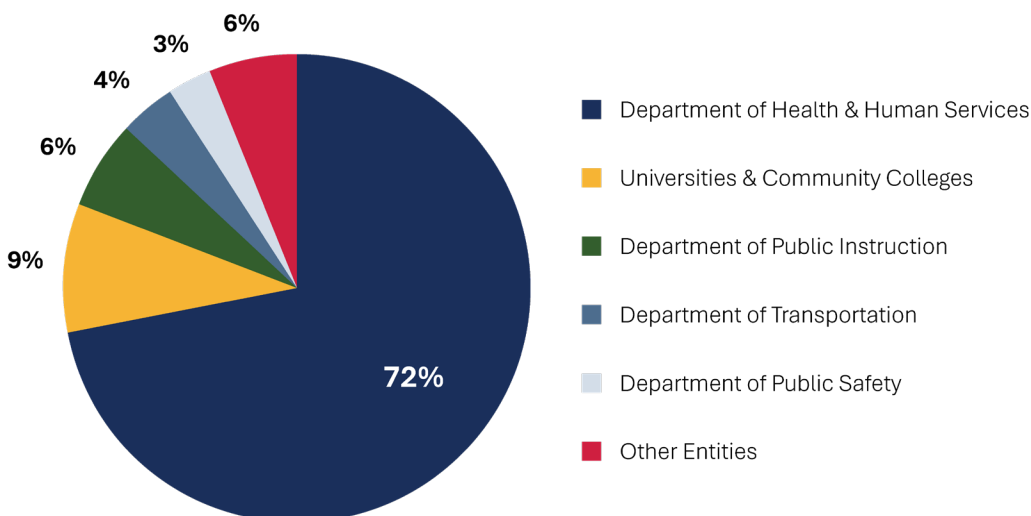

Federal Expenditures

The State of North Carolina spent \$43.9 billion in federal awards with Medicaid accounting for more than half at \$24.7 billion.

For the fiscal year ended June 30, 2025, OSA audited \$28 billion, representing 64% of total federal expenditures. The federal programs selected for audit are identified using risk-based criteria in accordance with Uniform Guidance and the Single Audit Act.

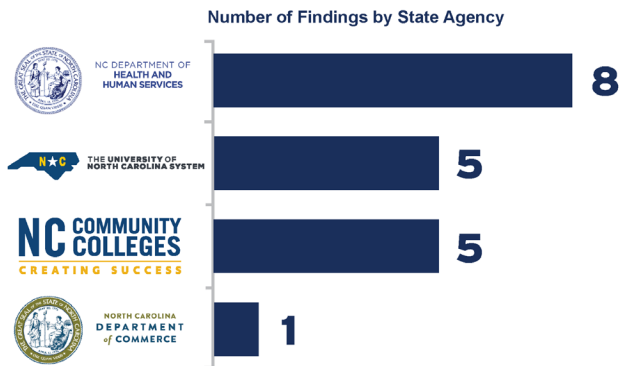

The following graph illustrates the percentage of total expenditures of federal awards by state entity.

Financial Statement

Financial Reporting | Material Weakness

Inadequate Internal Controls Resulted in Significant Misstatements

The Department did not have adequate internal controls, including review procedures, to ensure accurate financial reporting. Auditors found that the Department's review of the year-end financial information failed to identify several significant misstatements in the Unemployment Compensation Fund.

The following misstatements occurred because year-end journal entries were incorrectly recorded:

- Intergovernmental payables were overstated by \$500 million.
- Unemployment benefits expenses were overstated by \$372.8 million.
- Noncapital grants were understated by \$195.2 million.
- Net accounts receivable was understated by \$67.3 million.

Additional audit adjustments were required to correct misstatements in the statement of cash flows and net position balances.

Federal Program: Aging Cluster

Reporting | Significant Deficiency

Maintenance of Effort Report Certification Not Completed

The Department did not certify and submit the annual Maintenance of Effort report for the Aging Cluster.

When required reports are not certified and submitted, the federal oversight agency cannot determine whether the Department met state funding requirements for programs that support older adults. This increases the risk that federal funding could be suspended, reduced, or withdrawn and may jeopardize the Department's eligibility to participate in federal assistance programs.

FFATA Reporting Not Completed

The Department did not complete the Federal Funding Accountability and Transparency Act (FFATA) reporting.

Auditors reviewed all six subawards to Area Agencies on Aging, totaling \$8 million, that were required to be reported to the FFATA Subaward Reporting System (FSRS) during the audit period and found that none were reported as required.

FFATA Reporting Not Completed

The Department did not complete the Federal Funding Accountability and Transparency Act (FFATA) reporting.

Auditors reviewed all subawards that were required to be reported to the FFATA Subaward Reporting System (FSRS) during the audit period and found that none were reported as required. Specifically,

- For SSBG, all 228 subawards to counties totaling \$39.4 million were not reported.
- For TANF, all 171 subawards to counties totaling \$99.4 million were not reported.

Deficiencies in the TANF Eligibility Determination Process

The Department paid \$778 in Temporary Assistance for Needy Families (TANF) benefits on behalf of an ineligible family based on inaccurate eligibility determinations.

Auditors redetermined eligibility for a sample of 40 families that received a total of \$111,000 in TANF benefits paid to or on their behalf during the audit period. Auditors found one (2.5%) family that was ineligible for \$778 in childcare assistance paid to a childcare provider on their behalf.

Questioned Costs **\$113,115**

HIV Funds Used for Improper Payment

The Department made an improper payment of \$113,115 using Human Immunodeficiency Virus (HIV) Formula Care grant funds.

Auditors identified a duplicate vendor payment for a July 2024 invoice that was paid once in September 2024 and again in December 2024. According to Department management, the improper payment occurred because the same vendor invoice was submitted twice and did not include an invoice number. The Department did not update its procedures after implementing the new statewide accounting system in the prior year, which relied on unique invoice numbers to prevent duplicate payments. As a result, the same invoice was recorded using different invoice numbers, allowing the duplicate payment to bypass automated controls.

Chapter 147, Article 5A of the North Carolina General Statutes gives the Auditor broad powers to examine all books, records, files, papers, documents, and financial affairs of every state agency and any organization that receives public funding. The Auditor also has the power to summon people to produce records and to answer questions under oath.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

The Honorable Josh Stein, Governor
Honorable Members of the North Carolina General Assembly
Raleigh, North Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of North Carolina, for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the State of North Carolina's basic financial statements, and have issued our report thereon dated December 8, 2025.

Our report includes a reference to other auditors who audited the financial statements of the North Carolina Education Lottery, North Carolina Turnpike Authority, North Carolina Housing Finance Agency, North Carolina State Education Assistance Authority, Golden L.E.A.F (Long-term Economic Advancement Foundation), Inc., University of North Carolina System - University of North Carolina Health Care System - Rex Healthcare, Inc., University of North Carolina System - University of North Carolina Health Care System - University of North Carolina Hospitals at Chapel Hill, Supplemental Retirement Income Plan of North Carolina, North Carolina Public Employee Deferred Compensation Plan, and North Carolina Department of State Treasurer Investment Programs, as described in our report on the State of North Carolina's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the State of North Carolina's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State of North Carolina's internal control. Accordingly, we do not express an opinion on the effectiveness of the State of North Carolina's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to

prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the State of North Carolina's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses and therefore, material weaknesses may exist that were not identified. We did identify a deficiency in internal control, described in the accompanying Schedule of Findings and Questioned Costs, Section II – Financial Statement Findings, that we consider to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the State of North Carolina's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

State of North Carolina's Response to Findings

Government Auditing Standards require us to perform limited procedures on the State of North Carolina's response to the finding identified in our audit and described in the accompanying Schedule of Findings and Questioned Costs, Section II – Financial Statement Findings. The State of North Carolina's response was not subjected to the other auditing procedures applied in the audit of the financial statements, and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State of North Carolina's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State of North Carolina's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

The Honorable Josh Stein, Governor
Honorable Members of the North Carolina General Assembly
Raleigh, North Carolina

Report on Compliance for Each Major Federal Program

We have audited the State of North Carolina's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of the State of North Carolina's major federal programs for the year ended June 30, 2025. The State of North Carolina's major federal programs are identified in Section I, Summary of Auditor's Results, of the accompanying Schedule of Findings and Questioned Costs.

The State of North Carolina's basic financial statements include the operations of certain agencies and component units that are not included in the Schedule of Expenditures of Federal Awards for the year ended June 30, 2025. Our audit, described below, did not include the operations of these agencies and component units because they were audited by other auditors as discussed in Note 1B to the Schedule of Expenditures of Federal Awards.

Opinion on Each Major Federal Program

In our opinion, the State of North Carolina complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs identified in Section I, Summary of Auditor's Results, in the accompanying Schedule of Findings and Questioned Costs for the year ended June 30, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* (GAGAS), issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the State of North Carolina and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the State of North Carolina's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the State of North Carolina's federal programs.

Auditor's Responsibility for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the State of North Carolina's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, GAGAS, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the State of North Carolina's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, GAGAS, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the State of North Carolina's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the State of North Carolina's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the State of North Carolina's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in Section III, Federal Award Findings and Questions Costs, of the accompanying Schedule of Findings and Questioned Costs as items:

Finding Number	ALN	Major Federal Program	Type of Compliance Requirement
2025-005	84.063	Federal Pell Grant Program	Eligibility
2025-013	84.268	Federal Direct Student Loans	Eligibility
2025-016	84.268	Federal Direct Student Loans	Eligibility
2025-022	93.558	Temporary Assistance for Needy Families	Eligibility
2025-025	93.778	Grants to States for Medicaid	Allowable Costs/Cost Principles
2025-026	93.917	HIV Care Formula Grants	Allowable Costs/Cost Principles
2025-027	93.958	Block Grants for Community Mental Health Services	Allowable Costs/Cost Principles
2025-028	93.958	Block Grants for Community Mental Health Services	Period of Performance

Our opinion on each major federal program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on the State of North Carolina's responses to the noncompliance findings identified in our compliance audit described in the accompanying Schedule of Findings and Questioned Costs. The State of North Carolina's responses were not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control Over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control that we consider to be material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of

compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in Section III, Federal Award Findings and Questioned Costs as the items below to be significant deficiencies:

Finding Number	ALN	Major Federal Program	Type of Compliance Requirement
2025-002	84.063	Federal Pell Grant Program	Special Tests and Provisions
2025-003	84.063	Federal Pell Grant Program	Special Tests and Provisions

2025-006	84.063	Federal Pell Grant Program	Special Tests and Provisions
2025-007	84.063	Federal Pell Grant Program	Special Tests and Provisions
2025-008	84.063	Federal Pell Grant Program	Special Tests and Provisions

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on the State of North Carolina's responses to the internal control over compliance findings identified in our audit described in the accompanying Schedule of Findings and Questioned Costs. The State of North Carolina's responses were not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the

requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of North Carolina, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the State of North Carolina's basic financial statements (not presented herein). We issued our report thereon dated December 8, 2025, which contained unmodified opinions on those financial statements.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of North Carolina's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

II. Financial Statement Findings

For the Fiscal Year Ended June 30, 2025

The following finding and recommendations resulted from our audit of the basic financial statements of the State of North Carolina. The finding is referenced with a four-digit number representing the fiscal year and a sequential number. The finding is categorized by type as described below.

Category of Internal Control Weakness

If the finding represents a weakness in internal control over compliance, one of the following designations will appear:

- **Significant Deficiency** – A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness in internal control, yet important enough to merit attention by those charged with governance.
- **Material Weakness** – A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s basic financial statements will not be prevented, or detected and corrected, on a timely basis.

III. Federal Award Findings and Questioned Costs

For the Fiscal Year Ended June 30, 2025

The following findings, recommendations, and questioned costs are the results of the single audit of the State of North Carolina for the fiscal year ended June 30, 2025. Each finding is referenced with a four-digit number representing the fiscal year audited and a sequential number. The findings are presented by federal program and are classified according to federal and state department, type of compliance requirement, category of internal control weakness, and category of noncompliance. Findings included in this section are related to major programs.

Category of Internal Control Weakness

If the finding represents a weakness in internal control over compliance, one of the following designations will appear:

- **Significant Deficiency** – A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.
- **Material Weakness** – A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Category of Noncompliance Findings

If the finding represents an instance of noncompliance, one of the following designations will appear:

- **Material Noncompliance** – A finding related to a major federal program which discusses conditions representing noncompliance with federal laws, regulations, contracts, or grants, the effects of which have a material effect in relation to a type of compliance requirement or an audit objective identified in the Uniform Guidance.
- **Questioned Cost Finding** – A finding which discusses known or likely questioned costs that are greater than \$25,000 for a type of compliance requirement, unless the conditions giving rise to the questioned costs are otherwise reported as a material noncompliance finding.

Recommendation: College management should develop and implement formal internal controls to ensure accurate reporting of enrollment status changes to the NSLDS, such as:

- Assigning clear responsibility to designated personnel for overseeing the reporting process.
- Establishing a process for monitoring and verifying the accuracy of data reported by third-party service providers.
- Developing written procedures that explain how enrollment status changes are identified and submitted.

Views of Responsible Officials of the Auditee: Caldwell Community College and Technical Institute agrees with the auditor's findings for the award period July 1, 2024 through June 30, 2025 and recommendations to strengthen internal controls over the accuracy of reporting student enrollment status changes to the National Student Loan Data System.

2025-005	<p><u>Eligibility:</u> Significant Deficiency</p> <p>Questioned Cost Finding: P063P242680 - \$5,259</p>	<p><u>Financial Assistance Disbursed Without Evaluating Satisfactory Academic Performance</u></p> <p>The College did not evaluate satisfactory academic progress (SAP)⁷ for all students before disbursing federal financial assistance. During the audit period, the College disbursed approximately \$13.7 million in federal financial assistance to 2,729 students.</p> <p>Auditors tested a sample of 60 students who received \$273 thousand in federal financial assistance during the audit period and found 11 students (18%) did not have a required SAP evaluation documented at the time the funds were disbursed. After reviewing the students' SAP, auditors found that three of the 11 students did not meet the College's SAP standards and were therefore ineligible to receive their federal financial assistance totaling \$5,259.</p> <p>As a result, the \$5,259 is considered questioned costs⁸ and the College may be required to pay back the federal government. By not evaluating SAP before disbursing funds, the College increases the risk of awarding federal funds to more ineligible students in the future. This exposes the College to continued noncompliance findings and repayment of federal funds, while also jeopardizing the College's eligibility to participate in federal financial assistance programs.</p> <p>According to College management, the SAP evaluation process is automated through the accounting system based on certain rules and parameters. However, the College did not have policies in place to ensure this automated process was properly configured, which resulted in the exclusion of certain students from the SAP evaluation process (e.g., students with gap semesters).</p>

⁷ SAP is a set of standards set by the institution, such as grade point average and course completion, to ensure students are making sufficient progress toward a degree to remain eligible for federal financial assistance.

⁸ Even though the test identified only \$5,259 in questioned costs, if extended to the entire population, questioned costs could exceed \$25,000. 2 CFR 200.516(a)(3) requires auditors to report known questioned costs when likely questioned costs are greater than \$25,000.

Once the new Financial Aid Director became aware of this Satisfactory Academic Progress (SAP) issue, he reached out to the System Office for assistance. In July 2025, Financial Aid Staff met with System Office Staff to review the SAP deficiency. System Office Staff recommended that DTCC strengthen the SAP rules in Colleague by adding additional criteria to capture all financial aid students for SAP evaluation. In August 2025, the College corrected/updated the SAP rules in Colleague to evaluate SAP on all financial aid students. In addition, the College developed an SAP report to identify the SAP status of all financial aid students with an award including any students not evaluated. When the College tested the new SAP report for accuracy, the report identified 22 students with no SAP status. However, when we reviewed the 22 students, those students either didn't complete a FAFSA and/or only received private scholarships.</p>

The Registrar and Assistant Registrar have reviewed the 30 impacted student records to identify the specific cause for the errors. DTCC’s Office of Admissions, Registration and Records began to report National Student Clearinghouse (NSCH) enrollment data in 2022. At the time, neither the training received, nor the system office documentation</p>

¹² The College is required to notify the NSLDS when it discovers that a student who received loans is no longer enrolled at least half-time. Unless the College expects to complete its enrollment roster with the NSLDS within 60 days of the student's change in enrollment, the College must notify the lender or guarantee agency, via the NSLDS within 30 days. Per the NSLDS Enrollment Reporting Guide, the College has 15 days to turn around the roster file. Therefore, auditors determined timeliness to be established as within 75 days.

	<p>referenced the NSLDS. The Registrar received initial access to NSLDS during the time of this audit to support data request efforts. Prior to this time, enrollment changes were verified in NSCH, which transmit enrollment data to NSLDS.</p> <p>In reviewing the 30 impacted student records, we identified that the enrollment status changes are reported by and verified within NSCH and not NSLDS. Further, we identified that a setting needs to be updated within Colleague that will report active courses at the time of census, and not all registered courses.</p> <p>This setting impacts reporting of Term B courses. Currently as set, Term B courses are reported with all subsequent enrollment submissions, rather than reporting a status change when Term B courses begin. For example, if a student is enrolled in six credit hours in Term A (half-time) and six credit hours in Term B, a status change from half time to full time should be reported. Based on the current setting to report all courses regardless of start date, the Colleague setting led to the error of enrollment changes not being reported to NSCH, and consequently not reported to NSLDS.</p> <p>In April 2025, the Registrar requested NSCH to purge the subsequent semester transmissions due to an error in the reporting of the census dates. Census dates refer to the time in which the NSCH data is reported, not the census date of the semester. The subsequent census dates were not updated to reflect the accurate time in the semester, resulting in enrollment changes potentially not reported. Once the records were purged in May of 2025, the subsequent reports were re-transmitted, resulting in late reporting of the second and third scheduled transmission.</p>

Recommendation: University management should strengthen internal control procedures to ensure staff verify student dependency statuses before disbursing Direct Loan funds, such as:

- Establishing a standardized process for the review and correction of dependency statuses.
- Implementing a monitoring process to confirm that dependency statuses are reviewed and corrected as necessary.
- Developing a contingency plan to ensure reviews are completed during periods of staff turnover.

Views of Responsible Officials of the Auditee: The University of North Carolina at Greensboro (University) concurs with the finding and recommendation. The sample reviewed identified one student for whom \$3,902 in Federal Direct Unsubsidized Loans was disbursed in error. Based on the student's initial Free Application for Federal Student Aid (FAFSA) submission, Federal Direct Loans were packaged at the independent student level. A subsequent Institutional Student Information Record (ISIR) correction changed the student's status to dependent; however, the loan amounts were not adjusted to reflect the dependent eligibility limits. Previously, a staff member in the functional IT area was solely responsible for reviewing incoming ISIR corrections and identified these discrepancies, but this responsibility was not reassigned to the loan area after the staff member left the University.

Immediately upon identifying the issue during the audit, modifications were made to an existing report to identify students in this situation. The University properly tested the report and approved it for use on

During the audit period, approximately 49,000 families received \$117.7 million in TANF benefits.</p> <p>Eligibility determinations for the TANF program are delegated to county departments of social services (DSS).²⁴ However, the Department retains responsibility for ensuring compliance with the eligibility requirements, establishing eligibility determination policies, maintaining NC FAST²⁵, and facilitating training to county DSS staff.</p> <p>Auditors redetermined eligibility for a sample of 40 families that received a total of \$111,000 in TANF benefits paid to or on their behalf during the audit period. Auditors found one (2.5%) family that was ineligible for \$778 in childcare assistance paid to a childcare provider on their behalf.</p> <p>As a result, the \$778 is considered questioned costs²⁶ and the Department may be required to pay back the federal government. Furthermore, these funds could have been used to provide benefits to eligible families.</p> <p>According to Department management, the error occurred due to inaccurate application of established eligibility policies by county DSS staff.</p>

²³ TANF benefits include cash assistance paid directly to eligible families and childcare assistance paid directly to childcare providers on behalf of eligible families.

During the audit period, the Department processed more than 16 million fee-for-service claims totaling \$7 billion in payments.</p> <p>Auditors reviewed a sample of 40 fee-for-service claims totaling \$1.9 million paid to Medicaid providers during the audit period and found one (3%) payment that should not have been paid because the claim was submitted 29 months after the date of service.</p> <p>As a result, \$170,042 (federal share³⁰ \$119,131) is considered questioned costs³¹ and the Department may be required to pay back the federal government. Furthermore, improper payments increase costs to the Medicaid Program and reduce funds available for eligible Medicaid services and beneficiaries.</p> <p>According to Department management, the claim was paid due to an error in the claims processing system’s automated controls that determine whether the timely filing requirement should be applied. As a result, the requirement was not enforced, and the claim was processed even though it was submitted more than 12 months after the date of service.</p> <p>Federal regulations³² require timely processing of claims, and the Department must ensure providers submit all claims no later than 12 months from the date of service.</p> <p><i>Federal Award Information:</i> Federal Awarding Agency: U.S. Department of Health and Human Services; Assistance Listing Number (title): 93.778 (Grants to States for Medicaid); Federal Award Identification Numbers</p>

Recommendation: Department management should correct and monitor the claims processing system’s automated controls to ensure the timely filing requirement is consistently enforced.

In addition, Department management should evaluate whether other claims were affected by the error and take appropriate action to recover any identified improper payments.

Views of Responsible Officials of the Auditee: The Department agrees with this finding. To support hospitals which process the bulk of Medicaid claims lines, the Department accepts inpatient claims adjustments beyond the 1-year timely filing standard if the original claim was submitted timely. The audit discovered a scenario where a hospital submitted an adjustment claim with an incorrect original identifier, resulting in a subsequent claim being allowed to pay when it should have been denied. The Department has taken action to enhance the system edits to identify this scenario going forward and is reviewing inpatient claims paid during the audit period to confirm no other such errors have occurred. Additionally, the Department has initiated recoupment of the overpayment.

During the audit period, the Department spent \$38.8 million in federal HIV funds to improve the quality, availability, and organization of healthcare and support services for low-income, uninsured, and underinsured people with HIV. The Department contracted with vendors to administer these funds.</p> <p>Auditors identified a duplicate vendor payment for a July 2024 invoice that was paid once in September 2024 and again in December 2024. After identifying the duplicate payment, auditors performed additional procedures to assess whether the issue was isolated by scanning accounting records for indicators of duplicate payments, such as identical invoice dates, amounts, and vendor names. Auditors also tested a random sample of program expenditures. No additional duplicate or improper payments were identified during the audit period.</p> <p>As a result, \$113,115 is considered questioned³⁴ costs and the Department may be required to pay the funds back to the federal government. In addition, the funds could have been used on activities that improved healthcare and support services for vulnerable individuals with HIV. The lack of effective controls increases the risk that duplicate payments could occur in the future, potentially resulting in further questioned costs and noncompliance with federal grant requirements.</p> <p>According to Department management, the improper payment occurred because the same vendor invoice was submitted twice and did not include an invoice number. The Department did not update its procedures after implementing the new statewide accounting system in the prior year, which relied on unique invoice numbers to prevent duplicate payments. As</p>

Notes to the Schedule of Expenditures of Federal Awards

For the Fiscal year Ended June 30, 2025

Note 1: Summary of Significant Accounting Policies

A. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards is presented in accordance with requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Schedule appears in three formats:

- **Summary** – The summary schedule reports expenditures of federal awards by program or program cluster.
- **Detail** – The detail schedule presents federal programs by federal agency and lists individual programs within program clusters.
- **By State Agency** – The schedule by state agency presents expenditures of federal awards by state agency and by program. In some instances, federal funds have been transferred from one state agency to another to be expended in the same program. When this is the case, the expenditure of federal awards has been reported under the organization which received the funds directly from the Federal Government.

Federal Assistance Listing Numbers (ALN) is a government-wide compendium of individual federal programs where each program is assigned a five-digit program identification number (ALN) and program name. The accompanying schedules reflect the program names and ALN assigned by the <https://sam.gov> website. Programs without an ALN are presented with the federal agency's two-digit prefix followed by U with a two-digit number. If the federal program is part of the Research and Development (R&D) cluster and the extension is not known, RD is placed in the three-digit extension field.

B. Reporting Entity

The State of North Carolina's financial reporting entity is fully described in Note 1 to the financial statements. The financial reporting entity includes (1) the primary government, (2) organizations for which the primary government is financially accountable, and (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the primary government's financial statements to be misleading or incomplete.

The accompanying Schedule of Expenditures of Federal Awards includes all federal programs administered by the state financial reporting entity except the programs of the North Carolina State Education Assistance Authority, North Carolina Housing Finance Agency, Economic Development Partnership of North Carolina, Inc., and the University of North Carolina Health Care System. These agencies issue separate reports for their programs.

Notes to the Schedule of Expenditures of Federal Awards

For the Fiscal year Ended June 30, 2025

C. Basis of Accounting

An award is considered expended when the activity related to the award occurs. The activity generally pertains to events requiring compliance with laws, regulations, and the provisions of contract and grant agreements. Specific transaction types have been recognized as follows:

Direct Costs: Direct costs have been recognized on the cash basis of accounting, that is, when cash is disbursed rather than when the charge is incurred.

Indirect costs: Indirect costs are recovered from the federal government by applying a federally approved indirect cost rate or by allocating these costs among benefiting programs in accordance with a federally approved plan. Each program's share of indirect costs is recognized on the accompanying Schedule of Expenditures of Federal Awards.

The State of North Carolina has elected not to use the 10% de minimus indirect cost rate as allowed under the Uniform Guidance.

Loan and loan guarantee transactions:

- Federal Perkins Loan Program -Federal Capital Contributions (ALN 84.038), Nurse Faculty Loan Program (ALN 93.264), Health Professions Student Loans, Including Primary Care Loans/Loans for Disadvantaged Students (ALN 93.342), Nursing Student Loans (ALN 93.364) – Expenditures of federal awards in the accompanying Schedule of Expenditures of Federal Awards include the value of new loans made during the year, the balance of loans from previous years with federal continuing compliance requirements, federal capital contributions received during the year, interest subsidy, and administrative cost allowances. Loan balances outstanding at year-end are disclosed in Note 2.
- Federal Direct Student Loans (ALN 84.268) – These loans are made by outside lenders to students at institutions of higher education within the State reporting entity. The institutions are responsible for certain administrative requirements for new loans. As a result, the value of loans made during the year and administrative cost allowances are recognized as expenditures of federal awards in the accompanying Schedule of Expenditures of Federal Awards. The balance of loans for previous years is not included because the lender accounts for the prior balances.
- Capitalization Grants for Clean Water State Revolving Funds (ALN 66.458) and Capitalization Grants for Drinking Water State Revolving Funds (ALN 66.468) – The state receives capitalization grants to create and maintain the Clean Water State Revolving Fund (CWSRF) and the Drinking Water State Revolving Fund (DWSRF). Both programs offer long-term low interest rate loans to local cities, towns and municipalities. Capitalization Grants received for the CWSRF for the year ended June 30, 2025 were \$56,315,996 and are included on the Schedule. Capitalization Grants received for the DWSRF for the fiscal year ended June 30, 2025 were \$61,931,785 and are also included on the Schedule. There are no outstanding loan balances at the end of the audit period.

Notes to the Schedule of Expenditures of Federal Awards

For the Fiscal year Ended June 30, 2025

Other non-cash assistance:

The State of North Carolina participated in several federal programs in which non-cash benefits are provided through the state to eligible participants. These include:

- Food Distribution Programs – Food commodities donated to the N.C. Department of Agriculture and Consumer Services are reported at the value assigned by the U.S. Department of Agriculture. The Schedule of Expenditures of Federal Awards includes commodity distributions of:

<u>Program</u>	<u>ALN</u>	<u>Non-Cash Value</u>
National School Lunch Program	10.555	\$ 56,376,248
Commodity Supplemental Food Program	10.565	\$ 6,311,671
Emergency Food Assistance Program (Food Commodities)	10.569	\$ 54,210,480
Emergency Food Assistance Program (TEFAP) Commodity Credit Corporation Eligible Recipient Funds	10.187	\$ 1,268,820

- Immunization Grants (ALN 93.268) – Vaccines donated to the N. C. Department of Health and Human Services are reported at the value assigned by the U.S. Department of Health and Human Services. The amount reported in the Schedule of Expenditures of Federal Awards reflects routine immunizations including seasonal influenza. The value of the vaccines for the fiscal year is \$210,528,971.
- Donation of Federal Surplus Personal Property (ALN 39.003) – Federal surplus property donated to the N.C. Department of Administration is valued at estimated fair market value at the time of receipt. The non-cash value during the fiscal year is reported as expenditures in the Schedule of Expenditures of Federal Awards. The estimated value during the fiscal year was \$1,523,236.

Notes to the Schedule of Expenditures of Federal Awards

For the Fiscal year Ended June 30, 2025

Note 2: Federal Loans Outstanding

The State of North Carolina had the following federal loan balances outstanding at year-end:

Program	ALN	Amount Outstanding
Federal Perkins Loan Program - Federal Capital Contributions	84.038	\$ 4,302,356
Nursing Faculty Loan Program	93.264	\$ 530,677
Health Professionals Student Loans, Including Primary Care Loans/Loans for Disadvantaged Students	93.342	\$ 83,640
Nursing Student Loans	93.364	\$ 297,249

Note 3: Unemployment Insurance

State unemployment tax revenues and payments in lieu of taxes are combined with federal funds and used to pay benefits under the Unemployment Insurance program (ALN 17.225). The state and federal portions of the total expenditures reported on the Schedule were \$341,677,874 and \$189,453,187, respectively.

Note 4: Disaster Grants-Public Assistance (Presidentially Declared Disasters)

After a Presidentially-Declared disaster, the Federal Emergency Management Agency (FEMA) provides public assistance grants to reimburse eligible costs associated with repair, replacement, or restoration of disaster-damaged facilities. The federal government reimburses in the form of cost-shared grants which require state matching funds. For the fiscal year ended June 30, 2025, the amount included in the accompanying schedules for Disaster Grants-Public Assistance (ALN 97.036) includes \$4,163,233 of approved eligible expenditures that were incurred in a prior year.

Note 5: Pass-Through Awards

Uniform Guidance defines a subrecipient as an entity that expends federal awards that are received from a pass-through entity to carry out a federal program. The total amount provided to subrecipients from each federal program is separately identified in the accompanying Summary and Federal Detail Schedule of Expenditures of Federal Awards.

Notes to the Schedule of Expenditures of Federal Awards

For the Fiscal year Ended June 30, 2025

Note: Certain transactions relating to federal financial assistance may appear in the records of more than one state recipient agency. To avoid duplication and the overstatement of the aggregate level of federal financial assistance expended by the State of North Carolina, when federal financial assistance is received by one state recipient agency and redistributed to another state agency (i.e., a pass-through of funds by the primary recipient state agency to a subrecipient state agency), the federal financial assistance will be reflected as expenditures by the primary recipient state agency.

2025-013	<p>East Carolina University Julie Poorman (252) 328-6610</p>	<p><u>Financial Assistance Disbursed in Excess of Student Eligibility</u></p> <p>In September and October 2025, the Director of Student Financial Aid reminded the team members of the mandatory process step which requires them to review each student’s loan history in the NSLDS (National Student Loan Data System) and place a copy of the NSLDS history in the student’s financial aid file as evidence of their review. A review process to confirm compliance was implemented in the fall 2025 semester. An Assistant Director in the Office of Student Financial Aid is responsible for performing audits of our internal files to confirm that the NSLDS reviews are documented. The Assistant Director also provides remediation to any team member whose records are not in compliance. The University has already repaid the over-award amount.</p> <p><i>Corrective action was completed on: October 29, 2025.</i></p>
