How to read the brackets

Gold bold type identifies the projected winner. The strip beneath each game shows the favored team and projected margin. All contests use neutral sites. NL means the raw projected margin exceeds 50 points.

This is a TOTR forecast, not a record of played results. Picks use the fixed November 8 internal power ratings. Published ranking numbers and records remain the approved final regular-season figures.

HOW THE MOCK WAS RUN

The higher current TOTR internal power rating advances in every game. Powers stay fixed throughout this simulation. Published rankings identify teams but do not determine the picks. No home-field advantage is applied. Future-round lines describe the projected matchups, not confirmed fixtures.

Bracket order: UIL / MaxPreps 2026 Conference 3A Division II. Regions I-II and III-IV meet in the state semifinals. Opening field, approved ranks and records: TOTR Week 12 audit.
