Proposed improvements are anticipated at various District buildings, facilities, and sites including the Middle School/High School ("MSHS"), Elementary School ("ES"), and Bus Garage. Work is anticipated to include asbestos abatement at both educational buildings. Proposed building systems improvements are anticipated to include mechanical upgrades such as roof-top, ventilation, and condensing units at both the MSHS and ES, cooling for data rooms, and various plumbing and electrical improvements such as MSHS water softener replacement, emergency power connections for equipment at both the ES and MSHS, electrical and fiber upgrades on campus, and plumbing upgrades to the existing Bus Garage bus wash system. Security improvements are anticipated to include replacing fiber data lines and camera upgrades at the ES, MSHS, and Bus Garage. Proposed building exterior upgrades are anticipated to include replacement of windows and masonry work in select locations at both ES and MSHS buildings. Proposed site work is anticipated to include pavement reconstruction in select areas of the Bus Garage driveway and parking lot; additional sidewalks and concrete pads near the athletic facilities; and softball field scoreboard and related utility work. Alternate work is anticipated to include items such as canopies at the MSHS, security upgrades such as additional cameras at schools and other facilities, fire alarm upgrades, classroom flooring, additional windows and masonry work, cooling gymnasiums, and hallway finish upgrades at both educational buildings and other pavement and/or sidewalk reconstruction/upgrades possibly including at the MSHS or other areas. If the budget allows after receiving construction bids, or if other items are identified, additional similar renovations, upgrades, and site work improvements could be undertaken. All of such work (or so much thereof as can be accomplished within the overall budget for the Project, once the construction bids are received) is to be undertaken at an estimated maximum cost of \$22,900,000, and will include the purchase of original furnishings, equipment, machinery and apparatus required in connection with the purposes for which such buildings, facilities and sites are used, and all ancillary or related work required in connection therewith, and the Board is authorized to expend therefor, including for preliminary costs and costs incidental thereto and to the financing thereof, an amount not to exceed the estimated maximum cost of \$22,900,000, provided that the detailed costs of the components of the Project (as generally described in the Project Plan) may be reallocated among such components, or such components may be deleted, revised or supplemented if (1) the Board shall determine that such reallocation, deletion, revision or supplementation is in the best interests of the District and (2) the aggregate amount to be expended for the Project shall not exceed \$22,900,000 and (3) no material change shall be made in the overall scope and nature of the Project; and be it further

RESOLVED, that the Board is hereby authorized to expend or apply toward the Project, during the current fiscal year of the District (A) the entire remaining balance (which stood at approximately \$2,140,902 as of June 30, 2025), plus any additional interest earned, from the District's Capital Improvements Reserve Fund, 2022, and then to terminate such fund and (B) \$1,859,098 of other available District funds; and be it further

RESOLVED, that a tax is hereby voted to finance the balance of the estimated maximum cost of the Project in an amount not to exceed \$18,900,000, such tax to be levied and collected in installments in such years and in such amounts as shall be determined by the Board; and be it further

RESOLVED, that in anticipation of such tax, obligations of the District including, without limitation, serial bonds, statutory installment bonds, bond anticipation notes and/or lease/purchase obligations, or any combination thereof, are hereby authorized to be issued in the aggregate principal amount of not to exceed \$18,900,000, and a tax is hereby voted to pay the interest on such obligations as the same shall become due and payable; and be it further

RESOLVED, that New York State Building Aid funds expected to be received by the District are anticipated to offset a substantial part of such costs, and such funds shall, to the extent received, be applied to offset and reduce the amount of taxes herein authorized to be levied.
