SECTION 8.24.(b) Matters to be Considered. – To evaluate whether and under what conditions the expansion of sales of consumer fireworks and other categories of pyrotechnic devices to the public is protective of public health and safety, the Collaboratory study shall include the following:

(1) Public safety and emergency services. – The projected impact on fire agencies and fire departments due to anticipated increase in structural and brush fires and on emergency medical services, including hospital emergency room and specialized burn centers from personal injuries, and other economic and human resource impacts on emergency infrastructure.

(2) Regulatory framework and retail licensing. – The feasibility and potential structure of a licensing and permitting system for permanent, season, and temporary retailers of fireworks, including requirements for mandatory training, appropriate signage, criminal background checks for licensees, and liability insurance requirements. The study should also include an evaluation of the recurring costs to the Office of the State Fire Marshal or other State agency for the fulfillment of these expanded regulatory duties.

(3) Consumer safety. – The feasibility and potential structure of an online training, registration fee, and authorization system for eligible consumers, including training, age limitations, any variables necessary to determine consumer eligibility, and registration fees, as a requirement for purchase, transport, or use of categories of consumer fireworks and other categories of pyrotechnic devices offered for sale to the public.

(4) Local government authority. – Consideration of frameworks for the opportunity for local preemption, including providing counties and municipalities the authority to proactively opt-out of expanded sales; the restriction of days, times, and geographic zones where aerial fireworks may be discharged; and recommendations regarding the use of zoning, minimum buffers, or sales and use restrictions to control or limit sales and use of both commercial fireworks and consumer fireworks and other categories of pyrotechnic devices offered for sale to the public.

(5) Economic and fiscal impact. – The potential increase in State and local sales tax revenue, the feasibility of establishing a dedicated consumer fireworks fee or excise tax and the estimated economic gain of the fee or excise tax and where those funds could be directed, and the economic loss ("sales leakage")

resulting from North Carolina residents purchasing consumer fireworks in adjacent states, and the analysis of whether there could be an increase in homeowner insurance premiums potentially correlated with increased fire risk.

(6) Funding mechanisms for public safety and education. – Recommendations for allocation of funding from taxes and fees on new categories of consumer fireworks and other categories of pyrotechnic devices offered for sale to the public, such as support for the creation and support of an online training and registration portal, educational and safety resources for consumers, or local first responder equipment grants.

(7) Comparison to other states. – The Collaboratory shall review and summarize the regulatory frameworks for consumer fireworks and other categories of pyrotechnic devices offered for sale to the public in other states, including South Carolina, Georgia, Tennessee, and Virginia.

SECTION 8.27.(d) Report. – The Collaboratory shall include in the report required by G.S. 116-256 documentation of its use of the funds allocated by this section and updates regarding the research funded by this section.

SECTION 8.27.(e) Industrial Discharger and SIU Finding. – The General Assembly finds that there is a need for accurate and complete data concerning discharges of per- and polyfluoroalkyl substances (PFAS) by entities directly discharging to surface waters of the State under a National Pollution Discharge Elimination System (NPDES) wastewater discharge permit and by significant industrial users (SIUs) discharging to publicly owned treatment works (POTWs) administering a POTW pretreatment program. There is also a need to better understand domestic and passive loading of PFAS when calculating a PFAS budget for the State. All of these data are needed in order to set evidence-based reduction targets and standards for PFAS dischargers as well as mitigation strategies for POTWs within the State.

SECTION 8.27.(f) Industrial Discharger and SIU Study Phases. – The North Carolina Collaboratory (Collaboratory), in cooperation with the Department of Environmental Quality (DEQ), shall conduct a two-phased study to identify and quantify measurable PFAS discharges in the State by collecting samples from POTW permit holders and certain NPDES permit holders following sampling protocols defined by the Collaboratory, as set forth in the following schedule:

(1) Phase 1 shall include collection by DEQ or the POTW and analysis by the Collaboratory of influent, effluent, and sludge samples from (i) every permitted POTW in the State receiving effluent from one or more significant industrial users (SIUs) and (ii) every facility holding an NPDES permit for direct discharge of process wastewater from an industrial or commercial operation. The Collaboratory and DEQ shall complete sampling and analysis of samples collected during this phase no later than December 31, 2027.
(2) Phase 2 shall include collection by DEQ and analysis by the Collaboratory of influent and effluent samples collected from every SIU discharging to a POTW, whether the pretreatment program applicable to that SIU is administered by the POTW and certified by the Environmental Management Commission (EMC) under G.S. 143-215.3(a)(14) or administered by DEQ. DEQ may retain secondary samples from samples collected in this Phase for analysis in compliance with subdivision (3) of this subsection. The Collaboratory and DEQ shall begin Phase 2 for SIUs of a POTW upon completion of Phase 1 sampling for that POTW and complete sampling and analysis for all SIUs no later than December 31, 2028.
(3) Research data generated by the Collaboratory or its researchers as set forth in this section may be used for regulatory recommendations but may not be used

for regulatory actions by the State of North Carolina. DEQ shall take regulatory actions only in compliance with the sampling and analytic protocols required under DEQ's delegation of NPDES and pretreatment program authority from the Environmental Protection Agency.

SECTION 8.27.(g) Industrial Discharger and SIU Study Analysis and Report. – The Collaboratory or its research teams shall conduct targeted PFAS analysis, adsorbable organic fluorine (AOF) analysis, and total oxidizable precursor (TOP) analysis on samples collected in both Phase 1 and Phase 2.

(1) Phase 1 report. – No later than March 31, 2028, the Collaboratory shall submit to DEQ, the EMC, and the Environmental Review Commission (ERC) a final report of a summary of the Phase 1 results, which shall be anonymized or aggregated based on county or river basin and shall also include regulatory recommendations for numerical mass-loading reduction thresholds. All research data gathered and analyzed by the Collaboratory as part of Phase 1, with the exception of the actual contents contained within the report released publicly, shall be exempt from disclosure as a public record as set forth in G.S. 116-43.17.

(2) Phase 2 report. – No later than March 31, 2029, the Collaboratory shall submit to DEQ, the EMC, and the ERC a final report of a summary of the results, which shall also include regulatory recommendations for numerical mass-loading reduction thresholds. Upon publication of the report, the supporting data from Phase 2 will be a public record as defined by G.S. 132-1, unless exempted under G.S. 116-43.17 or another applicable provision of law.

SECTION 8.27.(h) Biosolids Finding and Study. – The General Assembly finds that contamination of biosolids by per- and polyfluoroalkyl substances (PFAS) produced by wastewater facilities, as well as the origin of the PFAS themselves, present significant environmental, economic, and public health concerns. To address PFAS influent and effluent related to publicly owned or operated wastewater treatment works facilities in the State, the North Carolina Collaboratory at the University of North Carolina at Chapel Hill (Collaboratory) will carry out a collaborative research effort in partnership with utilities and State regulators for the purposes of providing utilities, State regulators, and other relevant entities with the knowledge, data, and strategies they need for utility management and decision making. As part of this collaborative research effort, the Collaboratory shall study all of the following:

(1) The impact of land application of biosolids generated at publicly owned or operated wastewater treatment works facilities across the State, including the amount of biosolids generated; types and concentrations of per- and polyfluoroalkyl substances (PFAS) found in the biosolids; the locations of the final disposition of biosolids generated at, and removed by, the wastewater facilities; the amount of PFAS contributed by the biosolids to surface and groundwater sources; current and alternative biosolids management options; the development of new management practices and technologies to minimize or remove PFAS; and any other variables related to biosolids management deemed relevant by the Collaboratory and its research partners.

(2) The concentrations and types of PFAS influent and effluent at wastewater treatment works facilities across the State, including identification of sources contributing to PFAS in facility influents; the fate and transport of PFAS effluent from the facilities; best management practices for identifying, managing, reducing, mitigating, and removing PFAS from both the influent and effluent at these wastewater facilities; development or deployment of PFAS reduction, mitigation, or destruction technologies to mitigate influent

or effluent; and any other variables related to PFAS deemed relevant by the Collaboratory and its research partners.

(3) The feasibility of developing PFAS reduction strategies for industrial discharges into either surface or groundwater in the State that may include analytical methods, targeted compounds, concentration thresholds, best available control technologies, development of new detection and reduction technologies, benefit-cost calculations, a proposed regulatory framework, and any other components deemed relevant by the Collaboratory and its research partners necessary to achieve PFAS reduction goals and standards.

SECTION 8.27.(i) Biosolids Study Collaboration. – Publicly owned or operated wastewater treatment works and the Department of Environmental Quality shall partner with the Collaboratory to carry out the study authorized by subsection (h) of this section to the extent permitted under public records laws, the requirements for protection of confidential information under G.S. 143-215.3C, or the terms of any delegation of enforcement authority under federal or State law or memoranda of agreement or understanding setting forth the delegation.

SECTION 8.27.(j) Biosolids Study Funding Authorization. – The Collaboratory is authorized to use any prior or future funds appropriated by the General Assembly for PFAS-specific research, or other discretionary funds, to carry out this study and shall present the final results of this study to the Department of Environmental Quality, the Environmental Review Commission, and the Environmental Management Commission no later than January 31, 2029.

SECTION 8.27.(k) Emerging Contaminant Mitigation Funding. – Funds appropriated in this act to the Department of Environmental Quality for PFAS mitigation grants are allocated to the Emerging Contaminant Mitigation Fund, as enacted by subsection (*l*) of this section, for purposes consistent with that Article.

SECTION 9D.4.(b) Beginning July 1, 2026, provisions of payment rates for child care providers in counties that have a county rate below the State rate for center-based and home-based care shall be set at the seventy-fifth percentile statewide market rate as recommended by the 2021 Child Care Market Rate Study for children in three-, four-, and five-star-rated child care centers and homes.

SECTION 9D.4.(c) The Division of Child Development and Early Education shall include in its next market rate study reporting of statewide rates at the fiftieth percentile in addition to reporting at the seventy-fifth percentile.

CHILD CARE ALLOCATION FORMULA

SECTION 9D.5.(a) The Department of Health and Human Services, Division of Child Development and Early Education (Division), shall allocate child care subsidy voucher funds to pay the costs of necessary child care for minor children of needy families. The mandatory thirty percent (30%) North Carolina Partnership for Children, Inc., subsidy allocation under G.S. 143B-168.15(g) shall constitute the base amount for each county's child care subsidy allocation. The Department of Health and Human Services shall use the following method when allocating federal and State child care funds, not including the aggregate mandatory thirty percent (30%) North Carolina Partnership for Children, Inc., subsidy allocation:

(1) Funds shall be allocated to a county based upon the projected cost of serving children under age 11 in families with all parents working who earn less than the applicable federal poverty level percentage set forth in Section 9D.3(a) of this act.

(2) The Division may withhold up to two percent (2%) of available funds from the allocation formula for (i) preventing termination of services throughout the fiscal year and (ii) repayment of any federal funds identified by counties as overpayments, including overpayments due to fraud. The Division shall allocate to counties any funds withheld before the end of the fiscal year when the Division determines the funds are not needed for the purposes described in this subdivision. The Division shall submit a report to the Joint Legislative Oversight Committee on Health and Human Services and the Fiscal Research Division, which report shall include each of the following:
   a. The amount of funds used for preventing termination of services and the repayment of any federal funds.
   b. The date the remaining funds were distributed to counties.
   c. As a result of funds withheld under this subdivision and after funds have been distributed, any counties that did not receive at least the amount the counties received the previous year and the amount by which funds were decreased.

The Division shall submit a report 30 days after the funds withheld pursuant to this subdivision are distributed but no later than April 1, 2027.

(3) The Division shall set aside four percent (4%) of child care subsidy allocations for vulnerable populations, which include a child identified as having special needs and a child whose application for assistance indicates that the child and the child's family are experiencing homelessness or are in a temporary living situation. A child identified by this subdivision shall be given priority for receiving services until such time as set-aside allocations for vulnerable populations are exhausted.

SECTION 9D.5.(b) The Division may reallocate unused child care subsidy voucher funds in order to meet the child care needs of low-income families. Any reallocation of funds shall be based upon the expenditures of all child care subsidy voucher funding, including North Carolina Partnership for Children, Inc., funds within a county. Counties shall manage service levels within the funds allocated to the counties. A county with a spending coefficient over one hundred percent (100%) shall submit a plan to the Division for managing the county's allocation before receiving any reallocated funds.

SECTION 9D.5.(c) When implementing the formula under subsection (a) of this section, the Division shall include the market rate increase in the formula process rather than calculate the increases outside of the formula process. Additionally, the Department shall do the following:

(1) Deem a county's initial allocation as the county's expenditure in the previous fiscal year or a prorated share of the county's previous fiscal year expenditures if sufficient funds are not available.

(2) Effective immediately following the next new decennial census data release, implement (i) one-third of the change in a county's allocation in the year following the data release, (ii) an additional one-third of the change in a county's allocation beginning two years after the initial change under this subdivision, and (iii) the final one-third change in a county's allocation beginning the following two years thereafter.

SECTION 9D.6.(d) Match Requirements. – The North Carolina Partnership for Children, Inc., and all local partnerships shall, in the aggregate, be required to apply the match percentages specified in this section to the total amount budgeted for the program in the 2026-2027 fiscal year. The North Carolina Partnership for Children, Inc., shall be responsible for compiling information on the private cash and in-kind contributions into a report, to be included in its annual report as required under G.S. 143B-168.12(d), in a format that allows verification by the Department of Revenue. The pilot program shall operate for five years, beginning with dates of service on or after January 1, 2028, and ending with dates of service on or before December 31, 2032. The purpose of this pilot program is to provide cost certainty to the State while providing predictability to SNFs and maintaining access for North Carolinians who need SNF services. DHB shall work with relevant stakeholders to implement this pilot program in a manner that best achieves the goals of cost certainty to the State and predictability to SNFs.

SECTION 9E.16.(c) Limitations. – Effective when this section becomes law, DHB shall not submit any new requests to amend the SNF reimbursement rate methodology prior to the conclusion of the pilot program, except as provided in this section or as required under federal law. DHB shall not make any program adjustments that affect the amount of SNF State expenditures before or during the cost containment pilot program that are not provided for in the SNF reimbursement rate methodology, except as provided in this section. Nothing in this subsection shall be construed to prohibit implementation of any State Plan amendments submitted prior to the effective date of this section.

SECTION 9E.16.(d) Cost Containment Factor. – DHB shall submit a State Plan amendment to CMS to add a new cost containment factor to the traditional methodology that will require DHB to adjust the facility-specific daily reimbursement rates produced by the traditional methodology as provided in this subsection. All of the following shall apply to the new cost containment factor:

(1) Base year spending. – The base year shall consist of dates of service beginning October 1, 2026, through and including September 30, 2027. DHB shall certify by January 1, 2028, the amount of total SNF State expenditures during the base year.

(2) Pilot year spending target. – The spending target for each pilot year shall be calculated at the beginning of the pilot year and is the spending target for the previous pilot year trended forward by applying the annual growth factor for the applicable pilot year. For the first pilot year, the spending target shall be the total SNF State expenditures during the base year trended forward by applying the annual growth factor for the first pilot year.

(3) Mid-year trend analysis. – On July 1, 2028, and on July 1 of each pilot year thereafter, DHB shall calculate the trend in SNF State expenditures during the first six months of the pilot year and project the annual aggregate SNF State expenditures for the pilot year. DHB shall compare the pilot year projected expenditures to the pilot year spending target to determine whether the pilot year projected expenditures exceed the pilot year spending target.

(4) Rate adjustment. – If, after completion of the mid-year trend analysis required under subdivision (3) of this subsection, DHB determines that the pilot year projected expenditures exceed the pilot year spending target, then DHB shall

adjust, for the remainder of the pilot year, the daily reimbursement rate paid to each nursing facility, on a pro rata basis, that would be calculated under the traditional methodology to a rate that is projected to produce SNF State expenditures equal to the pilot year spending target. If, after completion of the mid-year trend analysis required under subdivision (3) of this subsection, DHB determines that the pilot year projected expenditures do not exceed the pilot year spending target, then no rate adjustment shall be made.

(5) Reconciliation. – At the end of each pilot year, DHB shall compare the actual SNF State expenditures for the pilot year to that pilot year's spending target and calculate any difference in order to determine the reconciliation amount to be accounted for in the next pilot year. DHB shall adjust, for the subsequent pilot year, the daily reimbursement rate paid to each nursing facility, on a pro rata basis, that would be calculated under the traditional methodology to a rate that is projected to produce the pilot year spending target plus or minus any reconciliation amount from the previous pilot year.

SECTION 9E.16.(e) Other Receipts. – Nothing in this section, including the limitation on State Plan amendments, shall be construed to (i) prohibit adjustments to the skilled nursing facility provider assessment authorized under Section 10.28 of S.L. 2003-284 in order to maximize assessment receipts invested in SNF daily reimbursement rates as allowed under federal law or (ii) limit the amount of federal receipts matching those assessment receipts.

SECTION 9E.16.(f) Emergency State Plan Amendments. – Nothing in this section, including the limitation on State Plan amendments, shall be construed to prohibit emergency State Plan amendments that are intended to provide additional resources to SNFs during a federal or State declared emergency. Any funding provided under this subsection shall be excluded from any calculations under subsection (d) of this section.

SECTION 9E.16.(g) Long-Stay SNF Services. – Notwithstanding the requirement under G.S. 108D-40(a)(13)a. for PHPs to cover recipients who reside in a nursing facility and have so resided, or are likely to reside, for a period of 90 days or longer, those recipients shall not be covered by PHPs for the duration of the pilot program.

The enhanced rate of payment for inpatient psychiatric beds or bed days for individuals with higher acuity levels shall not exceed the lowest average cost per patient bed day among the State psychiatric hospitals. In addition, at the discretion of the Secretary of Health and Human Services, existing funds allocated to LME/MCOs for community-based mental health, developmental disabilities, and substance use disorder services may be used to purchase additional local inpatient psychiatric beds or bed days. SECTION 9G.2.(b) Distribution and Management of Beds or Bed Days. – DHHS shall work to ensure that any local inpatient psychiatric beds or bed days purchased in accordance with this section are utilized solely for individuals who are medically indigent, except that DHHS may use up to forty percent (40%) of the funds appropriated in this act to the Department of Health and Human Services, Division of Mental Health, Developmental Disabilities, and Substance Use Services, for the purchase of local inpatient psychiatric beds or bed days to pay for facility-based crisis services, nonhospital detoxification services, and peer respite services for individuals in need of these services, regardless of whether the individuals are medically indigent. For the purposes of this subsection, "medically indigent" shall mean uninsured persons who (i) are financially unable to obtain private insurance coverage, as determined by DHHS, and (ii) are not eligible for government-funded health coverage such as Medicare or Medicaid.

In addition, DHHS shall work to ensure that any local inpatient psychiatric beds or bed days purchased in accordance with this section are distributed across the State and according to need, as determined by DHHS. DHHS shall ensure that beds or bed days for individuals with higher acuity levels are distributed across the State and according to greatest need based on hospital bed utilization data. DHHS shall enter into contracts with LME/MCOs and local hospitals for the purchase and management of the local inpatient psychiatric beds or bed days and allocate up to forty percent (40%) of the total funding to the LME/MCOs for the purpose of facility-based crisis services, nonhospital detoxification services, and peer respite services. SECTION 9G.2.(c) Funds to be Held in Statewide Reserve. – Funds appropriated in this act to DHHS for the purchase of local inpatient psychiatric beds or bed days shall not be allocated to LME/MCOs but shall be held in a statewide reserve at the Division of Mental Health, Developmental Disabilities, and Substance Use Services to pay for services authorized by the LME/MCOs and billed by the hospitals through the LME/MCOs. LME/MCOs shall remit claims for payment to DHHS within 15 working days after receipt of a clean claim from the hospital and shall pay the hospital within 30 working days after receipt of payment from DHHS.

SECTION 9G.2.(d) Ineffective LME/MCO Management of Beds or Bed Days. – If DHHS determines that (i) an LME/MCO is not effectively managing the beds or bed days for which it has responsibility, as evidenced by beds or bed days in the local hospital not being utilized while demand for services at the State psychiatric hospitals has not decreased, or (ii) the LME/MCO has failed to comply with the prompt payment provisions of this section, DHHS may contract with another LME/MCO to manage the beds or bed days or, notwithstanding any other provision of law to the contrary, may pay the hospital directly.

SECTION 9G.2.(e) Reporting by LME/MCOs. – LME/MCOs shall be required to report to DHHS regarding the utilization of these beds or bed days.

SECTION 9G.2.(f) Reporting by DHHS. – By no later than December 1, 2026, DHHS shall report to the Joint Legislative Oversight Committee on Health and Human Services and the Fiscal Research Division on all of the following:

(3) The amount of funds used to pay for facility-based crisis services, along with the number of individuals who received these services and the outcomes for each individual.

SECTION 11.7. Section 2C.2 of S.L. 2025-89, as amended by Section 4.1 of S.L. 2026-1, reads as rewritten:

"**SECTION 2C.2.(a)** Provided the Economic Investment Committee (EIC) awards a Job Development Investment Grant for a qualifying transformative project for an airplane manufacturer in Guilford County, there is appropriated to the Department of Commerce (Department) from the Stabilization and Inflation Reserve established in Section 2.2(q) of S.L. 2022-74 ~~to the Department of Commerce (Department)~~ the sum of one hundred eighteen million one hundred thousand dollars ($118,100,000) in nonrecurring funds for the 2025-2026 fiscal year and from the Economic Development Project Reserve established in Section 2.2(m) of S.L. 2021-180 the sum of one hundred thirty-three million nine hundred thousand dollars ($133,900,000) in nonrecurring funds for the 2026-2027 fiscal year to be allocated for acquisitions and improvements at the project site as provided in this section. For a term of years the Department, in its discretion, deems appropriate, a recipient to whom funds are allocated under this section that uses the funds, in whole or in part, to acquire or improve land (other than water and sewer improvements) may not (i) sell or otherwise encumber the land or improvement (other than utility and access easements and road rights-of-way) or (ii), absent the consent of the EIC, lease the land or improvement; any such lease must require the land or improvement to be used by the business for the purposes set out in the agreement; provided, however, that, with the approval of the EIC, the business benefitted by the funds allocated under this section may encumber its interest, or grant security interests in its interest, in the land or improvements acquired or improved with such funds as collateral for financing obtained by the business to finance the project so long as such collateral does not include any interest of the business in the land or improvements for which funds are allocated under subdivision (5) or subdivision (6) of this subsection.

For purposes of this section, the definitions of G.S. 143B-437.51 apply and a "qualifying transformative project" is a transformative project for which the Department enters into a binding contract with the business that requires, over a period of time not to exceed the base period, that the business invests at least four billion five hundred million dollars ($4,500,000,000) in private funds or funds provided by federal or foreign governments or their respective departments, agencies, divisions, or units or both and creates at least 14,000 eligible positions with an average annual wage of at least eighty-nine thousand three hundred forty dollars ($89,340). The contract constitutes a continuing obligation of the State and the business benefitted by the funds allocated for improving the project site. The contract must (i) include all of the performance criteria, remedies, and other safeguards required by the Department to secure the State's benefit derived from improvements to the airport funded by this section and (ii) require the business to repay an appropriate, proportionate amount of costs incurred by the State, or reimbursement paid to the business, for improvement of the airport for any failure by the business to meet and maintain the applicable performance criteria on which the cost incurred or reimbursement paid was based. Provided the requirements of the contract continue to be met, it is the intent of the General Assembly to appropriate ~~the sum of one hundred thirty-three million nine hundred thousand dollars ($133,900,000) in nonrecurring funds for the 2026-2027 fiscal year and~~ additional funds in future acts in the aggregate amount of one hundred ninety-eight million dollars ($198,000,000) over the following four succeeding fiscal years to support the qualifying transformative project. With respect to funds allocated to the Piedmont Triad Airport Authority (Authority), the Authority may contract for the design and construction using any delivery method it deems appropriate, and the Department shall pay the costs of the design and construction to the Authority or shall reimburse the Authority for the costs of the design and construction from the funds allocated under this subsection. If it deems it appropriate, the Authority may authorize, in writing, the business who operates the improvements to contract for the design and construction of the improvements, and the Department or the Authority, if delegated by the Department, shall pay the costs of the design and construction to the business or shall reimburse the business for the costs of the design and construction from the funds allocated under this subsection. For purposes of this subsection, neither the Authority nor the business shall be subject to the

If funds allocated pursuant to this subdivision exceed the anticipated amount necessary for the purpose of this subdivision, the Department may reallocate the surplus for purposes authorized in subdivision (2) of this subsection.

(2) Forty-five million dollars ($45,000,000) for the 2025-2026 fiscal year and fifty million dollars ($50,000,000) for the 2026-2027 fiscal year to the Authority for site analysis, engineering, grading, site preparation, site work, and access road and taxiway construction not otherwise provided for in this section that is needed at the Airport for the project. If funds allocated pursuant to this subdivision exceed the anticipated amount necessary for the purposes of this subdivision, the Department may reallocate the surplus for the purpose authorized in subdivision (1) of this subsection.

(3) Seven million nine hundred thousand dollars ($7,900,000) for the 2025-2026 fiscal year and thirteen million seven hundred thousand dollars ($13,700,000) for the 2026-2027 fiscal year to the Department of Transportation for roadwork needed at the airport for the project. Notwithstanding any other provision of law, the Department of Transportation is authorized to utilize Progressive Design Build, Construction Management General Contractor, or any other procurement methodology to contract for the delivery of improvements for which funds are provided in this subdivision.

(4) Five million dollars ($5,000,000) to the City of Greensboro for water and sewer infrastructure improvements needed to support the project.

b. Offsets for costs required by the Federal Aviation Administration.

(6) Thirty-five million dollars ($35,000,000) for the 2025-2026 fiscal year and fifty-five million dollars ($55,000,000) for the 2026-2027 fiscal year to the Department, to be allocated to and administered by the Authority on behalf of the Department, for the following costs related to construction of a facility for manufacturing, research, and development to be owned by the Authority for the project: (i) costs for general conditions, construction administration, demolition, construction of the substructure and shell of the facility, infrastructure enhancements and upgrades, building services, and mechanical systems, (ii) contractor fees, (iii) fees for permitting, inspections, insurance, and related administrative costs, and (iv) sidewalks and a pedestrian bridge

connecting the facility to the airport hub. If funds allocated pursuant to this subdivision exceed the anticipated amount necessary for the purpose of this subdivision, the Department may reallocate the surplus for purposes authorized in sub-subdivision (5)a. of this subsection.

"**SECTION 2C.2.(b)** On September 1 of each year funds appropriated for the airport remain unexpended until all funds have been expended, the Department shall report on the use of such funds to the House of Representatives and the Senate committee or subcommittee responsible for base budget and appropriations, to the Joint Legislative Economic Development and Global Engagement Oversight Committee, to the Joint Legislative Commission on Governmental Operations, and to the Fiscal Research Division. (2) Is an owner, officer, employee, or agent of a contractor or subcontractor engaged in the construction of the project for which the loan or grant was made."

SECTION 12.4.(o) This section becomes effective July 1, 2026, and applies to loans made on or after that date.

EXTENSION OF INTERBASIN TRANSFER STUDY AND MORATORIUM

SECTION 12.5.(a) Section 2 of S.L. 2025-74 reads as rewritten:

"**SECTION 2.(a)** Study. – The North Carolina Collaboratory at the University of North Carolina at Chapel Hill (Collaboratory) shall study the current statutory process for approval of surface water transfers and provide any recommendations for legislation revising that process that the Collaboratory finds is needed. As part of its study, the Collaboratory shall review all of the following:

…

"**SECTION 2.(c)** Report. – ~~The~~ No later than January 15, 2028, the Collaboratory shall report its findings, together with any proposed legislation, to the ~~2027 General Assembly upon its convening.~~chairs of the House Agriculture and Environment Committee; the chairs of the Senate Agriculture, Energy, and Environment Committee; the chairs of the House and Senate Regulatory Reform Committees; and the Joint Legislative Commission on Governmental Operations."

SECTION 12.5.(b) Section 3 of S.L. 2025-74 reads as rewritten:

"**SECTION 3.** Moratorium on Certain Surface Water Transfer Certificates. – In order to permit sufficient time for the General Assembly to complete the study described in Section 2 of this act, the EMC shall not issue a certificate authorizing a significant new surface water transfer or a significant increase in an existing surface water transfer until the end of the moratorium provided in this section. The moratorium in this section shall end ~~March 1, 2027.~~ August 1, 2028. For purposes of this section, a proposed new or increased surface water transfer is significant if

it would result in a total increase in transfer between river basins, as defined in G.S. 143-215.22G, in excess of 15,000,000 gallons per day."

CAPE FEAR/EMERGENCY IBT MORATORIUMS AND STUDY

SECTION 12.6.(a) Moratorium on New or Increased Interbasin Transfers and Restriction on Emergency Transfers from the Cape Fear River Basin.

SECTION 12.6.(a1) G.S. 143-215.22L is amended by adding three new subsections to read:

"(x) Moratorium on New or Increased Interbasin Transfers from the Cape Fear River Basin. – Notwithstanding any other provision of this section, the Environmental Management Commission shall not issue a certificate authorizing a new surface water transfer or an increase in an existing surface water transfer from the Cape Fear River Basin.

(y) Exceptions to Cape Fear IBT Moratorium. – The moratorium established by subsection (x) of this section shall not prohibit any of the following:

(1) Any existing transfers from the Cape Fear River Basin authorized by the Environmental Management Commission or otherwise lawfully initiated prior to July 1, 2026.

(2) Certificates authorizing a new surface water transfer from the Cape Fear River Basin to the Neuse River Basin where a notice of intent to file the petition for that transfer was filed on or before July 1, 2026. Consideration of the proposed surface water transfer by the Commission shall be based on the information required to be submitted by the petitioner as set forth in subsections (c), (d), and (g) of this section. Neither the existence of the moratorium established by subsection (x) of this section nor any other study of the Cape Fear River Basin authorized by an act of the General Assembly shall (i) be deemed necessary by the Commission for review of the proposed transfer, including the notice of intent to file a petition for a certificate, the environmental document, and the petition, (ii) constitute grounds for the Commission to delay the consideration of such a petition, or (iii) constitute grounds for the denial of such a petition.

(z) Limitation on Emergency Transfers from the Cape Fear River Basin. – The Secretary shall not approve any emergency transfer of surface water from the Cape Fear River Basin under the authority set forth in subsection (q) of this section except as set forth in this subsection. The limitations set forth in this subsection shall not apply to any emergency transfer authorized by an existing interlocal agreement, mutual aid agreement, or emergency water supply agreement between water systems that was in effect prior to July 1, 2026, up to the volume contemplated or authorized under the existing agreement.

(1) The Secretary may approve an emergency transfer to address a water supply problem caused by drought only (i) during a water shortage emergency declared under G.S. 143-355.3 and (ii) upon a written finding by the Secretary that the transfer is necessary to protect human health and safety and that there is no alternative source of water within the receiving basin to meet essential water supply requirements during the water shortage emergency period.

(2) The Secretary may approve an emergency transfer to address a water supply problem caused by a pollution incident upon written findings that (i) the pollution incident has rendered the regular water supply source for the emergency transfer recipient unusable consistent with public health and safety and (ii) the transfer is the only reasonably available alternative source to maintain essential water supply service for the duration of the pollution incident. For purposes of this subdivision, an alternative source is "reasonably available" if the cost of providing the alternative source would result in a

monthly increase or surcharge of no more than ten percent (10%) in the average monthly water bill for customers of the emergency transfer recipient.

(3) An emergency transfer approved by the Secretary under this subsection shall be (i) limited in duration to no more than 90 days, extendable for two additional 90-day extensions upon written findings by the Secretary that the emergency condition has not abated and no alternative source of water has become reasonably available; and (ii) limited in quantity to the volume of water necessary to supply essential water uses of the emergency transfer recipient.

(4) Within 30 days of authorizing an emergency transfer from the Cape Fear River Basin under this subsection, the Secretary shall report the authorization and the Secretary's written findings in support of the authorization to the Environmental Review Commission."

SECTION 12.6.(b) Long-Term Water Supply Study for High Growth Basins.

SECTION 12.6.(b1) Funds appropriated in this act to the North Carolina Collaboratory at the University of North Carolina at Chapel Hill (Collaboratory) for river basin studies shall be used by the Collaboratory to study the State's water resources and supply, projected water needs, and the statutory framework surrounding water allocation to determine the long-term water needs of the State and make recommendations for any legislative changes necessary to ensure the sustainability of North Carolina's water supply for future generations. The study shall focus on the Cape Fear, Neuse, and Catawba river basins (collectively, the High Growth Basins), which the General Assembly finds are experiencing high population growth and the potential for acute long-term water supply issues without informed water resource allocation policies. The Collaboratory shall include all the following in its study:

(1) An assessment of current and projected water supply and demand in the High Growth Basins through the year 2055, accounting for population growth, economic and industrial development, agricultural use, and projected drought frequency and severity.

(2) An assessment of the reliable yield of water supply of the High Growth Basins, including an assessment for each subbasin and major tributary. This assessment shall include a scientific evaluation of the quantity of water that can be dependably withdrawn or transferred under current and projected future hydrologic conditions without causing unacceptable environmental or economic impacts to in-basin uses.

(3) An evaluation of the adequacy, condition, and resilience of existing major water supply infrastructure in the High Growth Basins relevant to long-term water supply planning, including raw water intakes, storage, treatment capacity, and system interconnections.

(4) An evaluation of options for efficient use of existing water supply or expanding existing water supply, including regional interconnection, conjunctive use of surface and groundwater, water reuse, conservation and demand management, and new or expanded storage. To the extent possible, the Collaboratory shall also develop estimates of the capital and operating costs associated with the identified options and an assessment of potential State, federal, local, and other funding mechanisms.

(5) An assessment of water quantity, supply, utilization, and conservation data collected from consumers of water resources under existing water resource regulatory and planning programs, identification of gaps in those data, and recommendations for new reporting requirements to support informed data-centered decision making on water resource allocation issues.

(6) In the portion of the study focusing on the Neuse and Cape Fear Rivers, the Collaboratory will include an assessment of the current and anticipated water supply needs of the Triangle region of the State, and an evaluation of potential water supply resources to meet the Triangle's growing need that are alternatives to an interbasin transfer certificate authorizing a withdrawal from the Cape Fear River Basin, including an analysis of water reduction and conservation options and the feasibility of obtaining interbasin transfer certificates for withdrawal from another water source, like Kerr Lake.

(7) Any other matters pertaining to water quality, quantity, utilization, conservation, or governance issues the Collaboratory deems relevant.

SECTION 12.6.(b2) Consultation. – In collecting and analyzing data relevant to this study, the Collaboratory shall consult with the United States Army Corps of Engineers, the Department of Environmental Quality, the Environmental Management Commission, the State Water Infrastructure Authority, the North Carolina League of Municipalities, and other relevant public and private entities, as determined by the Collaboratory.

SECTION 12.6.(b3) Report. – The Collaboratory shall provide an interim report on the study set forth in this section by December 31, 2028, and a final report of its findings, together with any proposed legislation, no later than July 1, 2029, to the Environmental Review Commission, the Joint Legislative Oversight Committee on Agriculture and Natural and Economic Resources, and the Fiscal Research Division.

(5) The proposed modifications will improve current stormwater management performance to the maximum extent practicable compared with the current site conditions.

(6) Water quality standards and best usages will not be threatened.

(7) The project is designed such that impacts to surface waters from pollutants present in stormwater from the site will be mitigated to the maximum extent practicable.

SECTION 12.9.(d) Compliance with Federal Law Not Affected. – Nothing in subsection (b) or (c) of this section shall be construed to abrogate the Department's authority to impose and enforce federal stormwater control requirements or obviate the need for a permit holder to comply with such requirements.

SECTION 12.10.(b) The positions authorized in subsection (a) of this section are exempt from the State Human Resources Act, Chapter 126 of the General Statutes, except for Articles 6 and 7 of that Chapter. The positions shall remain time-limited positions. Neither the positions nor the appointments to them shall be converted to permanent, and no employee, while holding these positions, shall be designated as having a permanent appointment or accrue career State employee status by reason of holding the position without further legislative authorization. These positions exist only as long as the funds provided in subsection (a) of this section remain available, and the Department may terminate the positions and separate the employees when those funds are exhausted, reduced, or otherwise unavailable.

a. For facilities seeking federally enforceable limits to avoid Title V permitting, application fees of eight hundred dollars ($800.00) and annual fees of three thousand seventy dollars ($3,070).

b. For facilities with a potential to emit below Title V thresholds, except for general permits, application fees of one hundred dollars ($100.00) and annual fees of four hundred dollars ($400.00).

c. The fee for an ownership change shall be fifty dollars ($50.00).

A single facility is defined to be any contiguous area under one ownership and in which permitted activities occur. For all permits issued under these Articles where a fee schedule is not specified in the statutes, the Commission, or other commission specified by statute shall adopt a fee schedule in a rule following the procedures established by the Administrative Procedure Act. Fee schedules shall be established to reflect the size of the emission or discharge, the potential impact on the environment, the staff costs involved, relative costs of the issuance of new permits and the reissuance of existing permits, and shall include adequate safeguards to prevent unusual fee assessments which would result in serious economic burden on an individual applicant. A system shall be considered to allow consolidated annual payments for persons with multiple permits. In its rulemaking to establish fee schedules, the Commission is also directed to consider a method of rewarding facilities which achieve full compliance with administrative and self-monitoring reporting requirements, and to consider, in those cases where the cost of renewal or amendment of a permit is less than for the original permit, a lower fee for the renewal or amendment."

(1) Section 13.9(a) is codified as G.S. 143-215.73N, to be entitled "Findings."

(2) Sections 13.9(b), 13.9(c), and 13.9(d) are codified as subsections (a), (b), and (c) of G.S. 143-215.73O, to be entitled "Beach and inlet management plan."

(3) Section 13.9(e) is repealed.

(4) Section 13.9(f) is codified as G.S. 143-215.73P, to be entitled "Federal funds; matching."

SECTION 12.19.(b) Part 8E of Article 21 of Chapter 143 of the General Statutes, as enacted by subsection (a) of this section, reads as rewritten:

"Part 8E. Beach and Inlet Management Planning.

"**§ 143-215.73N. Findings.**

The General Assembly makes the following findings:

(1) North Carolina has 320 miles of ocean beach, including some of the most pristine and attractive beaches in the country.

(2) The balance between economic development and quality of life in North Carolina has made our coast one of the most desirable along the Atlantic Seaboard.

(3) North Carolina's beaches are vital to the State's tourism industry.

(4) North Carolina's beaches belong to all the State's citizens and provide recreational and economic benefits to our residents statewide.

(5) Beach erosion can threaten the economic viability of coastal communities and can significantly affect State tax revenues.

(6) The Atlantic Seaboard is vulnerable to hurricanes and other coastal storms, and it is prudent to take precautions such as beach nourishment that protect and conserve the State's beaches and reduce property damage and flooding.

(7) Beach renourishment as an erosion control method provides hurricane flood protection, enhances the attractiveness of beaches to tourists, restores habitat for turtles, shorebirds, and plants, and provides additional public access to beaches.

(8) Federal policy previously favored and assisted voluntary movement of structures threatened by erosion, but this assistance is no longer available.

(9) Relocation of structures threatened by erosion is sometimes the best available remedy for the property owner and is in the public interest.

(10) Public parking and public access areas are needed for use by the general public to enable their enjoyment of North Carolina's beaches.

(11) Acquisition of high erosion hazard property by local or State agencies can reduce risk to citizens and property, reduce costs to insurance policyholders, improve public access to beaches and waterways, and protect the environment.

(12) Beach nourishment projects such as those at Wrightsville Beach and Carolina Beach have been very successful and greatly reduced property damage during ~~Hurricane Fran.~~hurricanes and other coastal storms that have impacted the State's coast.

(13) Because local beach communities derive the primary benefits from the presence of adequate beaches, a program of beach management and restoration should not be accomplished without a commitment of local funds to combat the problem of beach erosion.

(14) ~~The~~ With limited exceptions, the State of North Carolina prohibits seawalls and hardening the shoreline to prevent destroying the public's beaches.

(15) Beach nourishment is encouraged by both the Coastal Resources Commission and the U.S. Army Corps of Engineers as a method to control beach erosion.

(16) The Department of ~~Environment and Natural Resources~~ Environmental Quality has statutory authority to assist local governments in financing beach nourishment projects and is the sponsor of several federal navigation projects that result in dredging beach-quality sand.

(17) It is declared to be a necessary governmental responsibility to properly manage and protect North Carolina's beaches from erosion and that good planning is needed to assure a cost-effective and equitable approach to beach management and restoration, and that as part of a comprehensive response to beach erosion, sound policies are needed to facilitate the ability of landowners to move threatened structures and to allow public acquisition of appropriate parcels of land for public beach access.

"**§ 143-215.73O. Beach and inlet management plan.**

(a) The Department of ~~Environment and Natural Resources~~ Environmental Quality shall compile and evaluate information on the current conditions and erosion rates of beaches, on coastal geology, and on storm and erosion hazards for use in developing a State plan and strategy for beach management and restoration. The Department of ~~Environment and Natural Resources~~ Environmental Quality shall make this information available to local governments for use in land-use planning.

(b) The Department of ~~Environment and Natural Resources~~ Environmental Quality shall develop a multiyear beach management and restoration strategy and plan that does all of the following:

(1) Utilizes the data and expertise available in the Divisions of Water Resources, Coastal Management, and Energy, Mineral, and Land Resources.

(2) Identifies the erosion rate at each beach community and estimates the degree of vulnerability to storm and hurricane damage.

(3) Uses the best available geological and geographical information to determine the need for and probable effectiveness of beach nourishment.

(4) Provides for coordination with the U.S. Army Corps of Engineers, the North Carolina Department of Transportation, the North Carolina Division of Emergency Management, and other State and federal agencies concerned with beach management issues.

(5) Provides a status report on all U.S. Army Corps of Engineers' beach protection projects in the planning, construction, or operational stages.

(6) Makes maximum feasible use of suitable sand dredged from navigation channels for beach nourishment to avoid the loss of this resource and to reduce equipment mobilization costs.

(7) Promotes inlet sand bypassing where needed to replicate the natural flow of sand interrupted by inlets.

(8) Provides for geological and environmental assessments to locate suitable materials for beach nourishment.

(9) Considers the regional context of beach communities to determine the most cost-effective approach to beach nourishment.

(10) Provides for and requires adequate public beach access, including handicapped access.

(11) Recommends priorities for State funding for beach nourishment projects, based on the amount of erosion occurring, the potential damage to property and to the economy, the benefits for recreation and tourism, the adequacy of public access, the availability of local government matching funds, the status of project planning, the adequacy of project engineering, the cost-effectiveness of the project, and the environmental impacts.

(11a) Includes a four-year cycle of planned maintenance and resiliency projects for the State's beaches and inlets.

(12) Includes recommendations on obtaining the maximum available federal financial assistance for beach nourishment.

(13) Is subject to a public hearing to receive citizen input.

(c) Each plan shall be as complete as resources and available information allow. The Department of ~~Environment and Natural Resources~~ Environmental Quality shall revise the plan every two years and shall submit the revised plan to the General Assembly no later than March 1 of each odd-numbered year. The Department may issue a supplement to the plan in even-numbered years if significant new information becomes available.

"**§ 143-215.73P. Federal funds; matching.**

In the event that federal funds become available for planning and developing shore protection projects, the State shall match those funds in accordance with the funding guidelines set out in G.S. 143-215.71."

SECTION 12.19.(c) Notwithstanding G.S. 143-215.73O(c), the Department of Environmental Quality shall submit the revised beach and inlet management plan to the General Assembly no later than July 1, 2027. In subsequent odd-numbered years, the Department shall submit the revised plan by March 1 of that year, as provided in G.S. 143-215.73O(c).

SECTION 12.19.(d) The Department of Environmental Quality shall provide an interim report no later than December 1, 2026, on its progress toward updating the beach and inlet management plan and meeting the July 1, 2027, deadline set forth in subsection (c) of this section. The report shall be provided to the Environmental Review Commission, the Joint Legislative Oversight Committee on Agriculture and Natural and Economic Resources, and the Fiscal Research Division.

Provided, however, that if the Director of

the Budget approves the method of financing a project, the Director shall report that action to the Joint Legislative Commission on Governmental Operations within 30 days.

The contracting entity shall obtain written attestation at the design development phase from the engineer or architect of record for the project that the building system or environmental or sustainability systems being employed by the project meet the requirements of this subsection. When construction drawings or plans have been completed, the contracting entity shall provide a report to the Fiscal Research Division confirming that any building system or environmental or sustainability systems included in the project meet the requirements of this subsection. This subsection does not limit the Department's authority to address immediate threats to public safety or fraud in the application process."

SECTION 43.20.(c) G.S. 136-138 reads as rewritten:

"**§ 136-138. Agreements with United States ~~authorized.~~authorized; limitations on delegation.**

The Department of Transportation is authorized to enter into agreements with other governmental authorities relating to the control of outdoor advertising in areas adjacent to the interstate and primary highway systems, including the establishment of information centers and safety rest areas, and to take action in the name of the State to comply with the terms of the agreements. Any amendment to or modification of the agreement dated January 7, 1972, between the State and the United States Department of Transportation implementing the federal Highway Beautification Act of 1965 shall require prior approval of the General Assembly by joint resolution to be effective. Notwithstanding any provision of law to the contrary, the Department shall not delegate or transfer permitting, enforcement, or other core regulatory authority under this Article to any county, municipality, or other political subdivision of the State. This section shall not prohibit the Department from cooperating with local governments or enforcing local ordinances that are consistent with this Article."

SECTION 43.20.(d) G.S. 136-133.1 reads as rewritten:

"**§ 136-133.1. Outdoor advertising vegetation cutting or removal.**

(a) The owner of an outdoor advertising sign permitted under G.S. 136-129(4) or G.S. 136-129(5) who obtains ~~a selective vegetation removal~~ an annual vegetation maintenance permit, and the owner's designees, may cut, thin, prune, or remove vegetation in accordance with this section, G.S. 136-93(b), 136-133.2, and 136-133.4. The maximum cut or removal zone for vegetation for each sign face shall be determined as follows:

(1) The point located on the edge of the right-of-way that is the closest point to the centerline of the sign face shall be point A. The point on the edge of the pavement of the travel way, including acceleration and deceleration ramps, that is the closest to the centerline of the sign face shall be point B. The point located on the edge of the pavement of the main traveled way, corresponding to the applicable distance under sub-subdivision a. or b. of this subdivision moving in the direction of the sign viewing zone from point B, shall be point C. The point perpendicular to point C on the edge of the right-of-way shall be point D. Lines drawn from point A, to point B, to point C, and to point D shall define the maximum cut or removal zone [Point C is distanced as follows:].
   a. For a distance of 500 feet for a view zone that has a posted speed limit of over 35 miles per hour.
   b. For a distance of 350 feet for a view zone that has a posted speed limit of 35 miles per hour or less.

(2) Notwithstanding subdivision (1) of this subsection, the sign owner or designee may also cut vegetation within any area on the State right-of-way located between viewing zones of two sign faces on the same structure, or otherwise within any area measured perpendicular from any point on the sign structure to the edge of the pavement of the main traveled way, by paying a fee of one

hundred fifty dollars ($150.00) per caliper inch to the Department of Transportation.

(3) Repealed by Session Laws 2024-15, s. 17(a), effective July 1, 2024.

(4) Repealed by Session Laws 2024-15, s. 17(a), effective July 1, 2024.

(5) Repealed by Session Laws 2024-15, s. 17(a), effective July 1, 2024.

(6) Repealed by Session Laws 2024-15, s. 17(a), effective July 1, 2024.

(a1) Notwithstanding any law to the contrary, in order to promote the outdoor advertiser's right to be clearly viewed as set forth in G.S. 136-127, the Department of Transportation, at the request of ~~a selective vegetation removal~~ an annual vegetation maintenance permittee, may approve plans for the cutting, thinning, pruning, or removal of vegetation outside of the cut or removal zone defined in subsection (a) of this section along acceleration or deceleration ramps so long as the view to the outdoor advertising sign will be improved and the total aggregate area of cutting or removal does not exceed the maximum allowed in subsection (a) of this section.

(a2) The owner of an outdoor advertising sign permitted under G.S. 136-129(4) or G.S. 136-129(5) may obtain an annual vegetation maintenance permit from the Department of Transportation. The application for an initial permit and the renewal of a permit under this subsection shall include payment of a fee in the amount of four hundred dollars ($400.00). The annual vegetation maintenance permit and any renewal shall be valid for one year from the date of issuance and may be renewed annually upon payment of the required fee.

~~(b) Vegetation permitted to be cut, thinned, pruned, or removed shall be defined as any tree, shrub, or underbrush within the zone created by subsection (a) of this section. Any existing tree that was in existence at the time that an outdoor advertising structure was erected shall only be eligible for removal in accordance with subsections (c), (d), and (e) of this section. Native dogwoods shall be preserved. For the purposes of this section, an existing tree is defined as a tree that had a diameter of four inches or greater as measured six inches from the ground at the time that the outdoor advertising structure was erected. An outdoor advertising sign is considered erected when the sign is completely constructed with a sign face.~~

(b) Upon issuance of the annual vegetation maintenance permit, the owner and the owner's designees may, at any time during the permit year, cut, thin, prune, remove, or maintain any tree, shrub, or underbrush within the maximum cut or removal zone for each sign face as defined in subsection (a) of this section.

~~(c) The applicant for a selective vegetation removal permit shall submit to the Department a site plan locating thereon any trees existing at the time that the outdoor advertising sign was erected, as defined in subsection (b) of this section, that are requested to be cut, thinned, pruned, or removed, and noting their species and total caliper inches. The applicant shall also tag, with highly visible material or flagging, any tree that is, at the time of the application for a selective vegetation removal permit, greater than four inches in diameter as measured six inches from the ground and requested to be cut, thinned, pruned, or removed. The selective vegetation removal request may be investigated on-site by Department personnel and a representative of the applicant. In the event that the Department disputes the accuracy of the existing tree information on the site plan noted above, the Department shall notify the applicant in writing and may request the following:~~

~~(1) A tree survey.~~

~~(2) That the applicant amends the site plan.~~

~~(3) That the applicant deletes the trees in dispute from the desired cutting.~~

~~If a notice of disputed tree information is received from the Department, the applicant can either employ the services of a North Carolina licensed landscape architect or certified arborist to perform a tree survey, amend the site plan, or notify the Department in writing that any or all of the disputed trees are deleted from the application. If the applicant selects a tree survey, the landscape architect or certified arborist will submit a report under seal that contains a tree inventory of existing trees in the removal zone for the outdoor advertising structure and include~~

~~the age of any tree that existed at the time that the sign was erected. The report will categorize tree species and include a site map of sufficient detail and dimensions. A tree survey will not be required for subsequent applications to cut, thin, prune, or remove trees at the same site for trees that have been previously permitted. Any dispute relating to whether or not the tree existed at the time the outdoor advertising sign was erected shall be conclusively resolved by information in the report from the licensed landscape architect or certified arborist.~~

(c) Native dogwoods shall be preserved. No person shall cut or remove any native dogwood under this section. All other vegetation within the authorized zone may be cut, thinned, pruned, removed, or maintained without further application, site plan, tree survey, or additional fees.

~~(d) Except as provided in subsection (e) of this section, trees existing at the time the outdoor advertising sign was erected may only be removed within the zone created in subsection (a) of this section if the applicant satisfies one of the following two options selected by the applicant: (i) reimbursement to the Department pursuant to G.S. 136-93.2 or (ii) trees that existed at the time of the erection of the sign may be removed if the applicant agrees to remove two nonconforming outdoor advertising signs for each sign at which removal of existing trees is requested. The surrendered nonconforming signs must be fully disassembled before any removal of existing trees is permitted and shall not be eligible for future outdoor advertising permits in perpetuity.~~

(e) Removal of trees and vegetation of any age, including complete removal, except for native dogwoods, shall be permitted within the cut or removal zone established in subsection (a) of this section if the applicant for the ~~selective vegetation removal~~ annual vegetation maintenance permit, in lieu of compliance with subsection (d) of this section, agrees to submit to the Department a plan for beautification and replanting related to the site for which the vegetation permit request is made. The Department shall develop rules for compensatory replanting, including the criteria for determining which sites qualify for replanting, and shall, in consultation with the applicant and local government representatives, determine which sites must be replanted, and the types of plants and trees to be replanted, in accordance with G.S. 136-18(9). The replanting and maintenance shall be conducted by the applicant or his or her agents in accordance with the rules adopted by the Department. If the conditions detailed in this subsection are agreed to by the applicant and approved by the Department, there shall be no reimbursement to the Department under G.S. 136-93.2 for removal of trees that existed at the time the outdoor sign was erected, nor shall the applicant be required to remove two nonconforming outdoor advertising signs for removal of existing trees at the site.

(e1) This section shall constitute the sole and exclusive authority for vegetation cutting or removal associated with outdoor advertising signs. All prior requirements for selective vegetation removal permits, caliper-inch fees, replanting plans, and related processes are repealed and replaced by the annual permit process established herein.

~~(f) Tree branches within a highway right-of-way that encroach into the zone created by subsection (a) of this section may be cut or pruned. Except as provided in subsection (g) of this section, no person, firm, or entity shall cut, trim, prune, or remove or otherwise cause to be cut, trimmed, pruned, or removed vegetation that is in front of, or adjacent to, outdoor advertising and within the limits of the highway right-of-way for the purpose of enhancing the visibility of outdoor advertising unless permitted to do so by the Department in accordance with this section, G.S. 136-93(b), 136-133.2, and 136-133.4.~~

(f) Notwithstanding any other provision of this section, the owner of an outdoor advertising sign permitted under G.S. 136-129(4) or G.S. 136-129(5), or the owner's designees, working from outside of the fence line may apply herbicides along the fence line for the purpose of controlling vegetation encroachment. For purposes of this subsection, "fence line" means the boundary line for the State highway right-of-way. The owner or designee shall utilize only applicators licensed by the North Carolina Department of Agriculture and Consumer Services

and shall comply with all federal and State pesticide laws and rules. Application shall not exceed 5 feet into the right-of-way and shall not be applied to native dogwoods.

(g) Notwithstanding any law to the contrary, the owner of an outdoor advertising sign defined by subsection (a) of this section or the owner's designees may, working only from the private property side of the fence, without charge and without obtaining ~~a selective vegetation removal~~ an annual vegetation maintenance permit, cut, trim, prune, or remove any tree or other vegetation except for native dogwoods that is (i) less than four inches in diameter at the height of the controlled access fence, (ii) located within 300 feet on either side of the existing sign location, and (iii) a distance of three feet from a controlled access fence within the limits of the highway right-of-way. The activities permitted by this subsection must be performed from the private property owner side of the controlled access fence and with the consent of the owner of the land that is used to access said fence.

(h) No additional funds from the Highway Trust Fund shall be used for the purpose of vegetation replacement under the provisions of this section.

(i) The Department may revoke an outdoor advertising permit for the unlawful destruction or illegal cutting of vegetation within the right-of-way of any State-owned or State-maintained highway only if both of the following conditions are met:

(1) The unlawful destruction or illegal cutting occurred within 500 feet of either side of the corresponding sign location measured along the edge of pavement of the main travel way of the nearest controlled route and was willfully caused by one or more of the following:
   a. The sign owner.
   b. The permit holder.
   c. The lessee or advertiser employing the sign.
   d. Any employees, agents, or assigns of persons listed in sub-subdivisions a. through c. of this subdivision, including, but not limited to, independent contractors hired by any of the above persons, or the owner of the property upon which the sign is located, if expressly authorized by the above persons to use or maintain the sign.

(2) There is substantial, material evidence that the unlawful destruction or illegal cutting of vegetation would create, increase, or improve a view to the outdoor advertising sign for passing motorists from the main travel way of the nearest controlled route."

SECTION 43.20.(e) G.S. 136-133.2 reads as rewritten:

"**§ 136-133.2. Issuance or denial of ~~a selective vegetation removal~~ an annual vegetation maintenance permit.**

~~(a) Except as provided in subsection (b) of this section and G.S. 136-133.1(g), permits to remove vegetation may be granted for outdoor advertising locations that have been permitted for at least two years prior to the date of application. The Department shall approve or deny an application submitted pursuant to this section, including the fee required by G.S. 136-18.7 and all required documentation, within 30 days of the receipt of an application for a selective vegetation removal permit. If written notice of approval or denial is not given to the applicant within the 30-day period, then the application shall be deemed approved. If the application is denied, the Department shall advise the applicant, in writing, by registered or certified mail, return receipt requested, addressed to the party to be noticed, and delivering to the addressee, the reasons for the denial.~~

(a) The Department shall approve or deny an application for an annual vegetation maintenance permit within 30 days of receipt of the application and payment of the permit fee as required by G.S. 136-133.1(a2). If the Department fails to provide written notice of its decision within the 30-day period, the application shall be deemed approved and the permit shall be issued.

~~(b) Notwithstanding the two-year period required in subsection (a) of this section, permits to remove vegetation may be granted for outdoor advertising locations where outdoor advertising has been relocated pursuant to G.S. 136-131.5 and that otherwise comply with the requirements of this section and rules adopted by the Department in accordance with this section.~~

(b) The Department may deny an application only for failure to pay the required fee or for failure to hold a valid outdoor advertising permit under G.S. 136-129(4) or G.S. 136-129(5).

(c) A new site for relocation shall not be denied by the Department of Transportation due to the presence of vegetation obstructing the visibility of the outdoor advertising from the viewing zone. Notwithstanding any law to the contrary, the owner or operator of the outdoor advertising sign shall be permitted to improve the visibility of the sign by removing any vegetation on private property upon receiving written consent of the landowner."

SECTION 43.20.(f) G.S. 136-93(b) reads as rewritten:

Requests for a permit for ~~selective~~ vegetation cutting, thinning, pruning, or removal shall be made by the owner of an outdoor advertising sign or the owner of a business facility to the appropriate person in the Division of Highways office on a form prescribed by the Department. For purposes of this section, G.S. 136-133.1, 136-133.2, and 136-133.4, the phrase "outdoor advertising" shall mean the outdoor advertising expressly permitted under G.S. 136-129(4) or G.S. 136-129(5). These provisions shall not be used to provide visibility to on-premises signs."

SECTION 43.20.(g) G.S. 136-133.3 reads as rewritten:

"**§ 136-133.3. Appeals of ~~selective vegetation removal~~ annual vegetation maintenance permit decisions.**

(a) An applicant for ~~a selective vegetation removal~~ an annual vegetation maintenance permit issued pursuant to G.S. 136-133.2 may appeal a decision of the Department pertaining to the denial or conditioning of ~~a~~ the permit ~~for selective vegetation removal~~ pursuant to the provisions of this section.

(b) Within 30 days of service of the Department's decision to deny or condition ~~a selective vegetation removal~~ an annual vegetation maintenance permit issued pursuant to G.S. 136-133.4, the applicant shall submit a written appeal to the Secretary of Transportation setting forth with particularity the facts and arguments upon which the appeal is based. …

(e) Willful failure to substantially comply with all the requirements specified in the ~~selective vegetation removal~~ annual vegetation maintenance permit, unless otherwise mutually resolved by the Department and the permittee, shall result in a five-year moratorium for vegetation removal at the site, a summary revocation of the outdoor advertising permit if such willful failure meets the standards in G.S. 136-133.1(i), payment of Department investigative costs, and forfeiture of any applicable performance bond as determined by the Secretary. The

moratorium shall begin upon execution of a settlement agreement or entry of a final disposition in the case."

SECTION 43.20.(i) G.S. 136-18.7 is repealed.

PAVEMENT PRESERVATION STUDY

SECTION 43.22.(a) The Department of Transportation shall conduct a study to evaluate each of the pavement preservation treatments authorized under G.S. 136-44.17(b). The study shall address all of the following:

(1) The average application cost per lane-mile for each treatment, disaggregated by pavement functional classification, as described in G.S. 136-44.17(b), including all direct and indirect costs by year over the preceding 15 fiscal years.

(2) The measured or projected longevity of each treatment with separate analysis for different classifications of functional roadway categories and type for each of the preceding 15 fiscal years.

(3) A calculation of the cost-effectiveness of each treatment expressed as cost per lane-mile per year of service life extension, using project performance data from Department records from the preceding 15 fiscal years. These analyses shall also be performed reflecting the aggregate treatment data for pre- and post-2014 statutory changes measuring any changes in cost-effectiveness and service life extension.

(4) A comparative ranking of all authorized treatments by cost-effectiveness and by longevity, presented separately for each functional roadway categories and type.

(5) An analysis of whether the selection and deployment of pavement preservation treatments over the preceding 15 fiscal years have been consistent with cost-effectiveness rankings, and, if not, an identification of the reasons for any deviation from optimal treatment selection.

(6) An identification of any treatment authorized in statute the Department finds to be insufficiently cost-effective or to have a longevity insufficient to justify

continued authorization, together with the Department's recommendation as to whether the General Assembly should repeal or modify such authorization.

(7) An identification of any pavement preservation treatments not currently authorized under State law that the Department finds to be demonstrated by peer-reviewed research or documented experience in other states to offer superior cost-effectiveness or longevity, together with any recommendation to the General Assembly to authorize new treatment types.

(8) The methodology decision matrix employed by the Department to evaluate treatment performance, including the performance metrics, data collection protocols, and analytical tools used to assess pavement condition before and after application of each treatment.

(9) The Department shall provide tabular data for each of the preceding 15 fiscal years of planned and actual pavement preservation activities by treatment type and highway division. The planned and actual activities shall be expressed in lane-miles and budgeted in actual expenditures.

SECTION 43.22.(b) The Department of Transportation shall initiate the study required by this section within 90 days after the date this act becomes law and report to the Joint Legislative Transportation Oversight Committee and the Fiscal Research Division its findings and recommendations resulting from the study, including any proposals for legislative action, on or before the convening of the 2027 Regular Session of the 2027 General Assembly.

SECTION 43.22.(c) For the purposes of this section, the following definitions apply:

(1) Cost-effectiveness. – The relationship between the total expenditure required to apply a pavement preservation treatment, including materials, labor, equipment, and traffic control, and the service life extension attributable to that treatment, expressed as cost per lane-mile per year of extended pavement service life.

(2) Department. – The North Carolina Department of Transportation.

(3) Longevity. – The measured or reasonably projected duration, in years, for which a pavement preservation treatment maintains the treated pavement surface at or above the minimum acceptable condition threshold as established by the Department's asset management standards.

(4) Pavement preservation treatment. – Any treatment authorized under G.S. 136-44.17(b) for the purpose of extending pavement service life, slowing pavement deterioration, or maintaining pavement condition, including, but not limited to, crack sealing, chip sealing, microsurfacing, slurry sealing, thin hot-mix asphalt overlays, ultra-thin bonded wearing courses, cape seals, fog seals, and other preservation treatments.

(5) Service life extension. – The number of additional years of serviceable pavement life attributable to the application of a pavement preservation treatment, as compared to the projected pavement deterioration absent that treatment prior to needing full resurfacing.

SECTION 43.22.(d) This section is effective when it becomes law.

UNIT PRICING COST

SECTION 43.23. G.S. 136-18.05(b)(1a) reads as rewritten:

"(1a) Efficiency. – The Department shall adopt procedures in all stages of the construction process to streamline project delivery, including consolidating environmental review processes, expediting multiagency reviews, accelerating right-of-way acquisitions, and pursuing design build and other processes to collapse project stages. By December 1, 2015, the Department shall establish a baseline unit pricing structure for transportation goods used

in highway maintenance and construction projects and set annual targets for three years based on its unit pricing. In forming the baseline unit prices and future targets, the Department shall collect data from each Highway Division on its expenditures on transportation goods ~~during the 2015-2016 fiscal year.~~ based upon a rolling average of the three previous fiscal years that is adjusted for inflation using the National Highway Construction Cost (NHCC) Index. Beginning January 1, 2016, no Highway Division shall exceed a ten percent (10%) variance over a baseline unit price set for that year in accordance with this subdivision. The Department of Transportation shall institute annual tracking to monitor pricing variances. The ten percent (10%) maximum variance set under this subdivision is intended to account for regional differences requiring varying product mixes. If a Highway Division exceeds the unit pricing threshold, the Department shall submit a report to the Joint Legislative Transportation Oversight Committee, the Fiscal Research Division of the General Assembly, the chairs of the House of Representatives Appropriations Committee on Transportation, and the chairs of the Senate Appropriations Committee on the Department of Transportation no later than the fifteenth day of February following the end of the calendar year on why the variance occurred and what steps are being taken to bring the Highway Division back into compliance. In order to drive savings, unit pricing may be reduced annually as efficiencies are achieved."

WORK ZONE DYNAMIC SPEED DISPLAY SIGNS

SECTION 43.24. Of the funds appropriated in this act to the Department of Transportation, Spot Safety Program, Budget Fund (8011262), for the 2026-2027 fiscal year, one million dollars ($1,000,000) in nonrecurring funds shall be used to purchase dynamic speed display signs and implement their use in highway work zones. For purposes of this section, the following definitions apply:

(1) Dynamic speed display signs. – A system designed to measure the speed of motor vehicles and alert drivers who are driving in excess of the posted speed limit via flashing lights and a digital message display.

(2) Highway work zone. – As defined in G.S. 20-141(j2).

SYNCHRONIZED STREETS STUDY

SECTION 43.25.(a) The Department of Transportation shall study the effectiveness and implementation of synchronized streets. For the purposes of this section, "synchronized streets" means a street where traffic signals are coordinated to allow vehicles to move through multiple intersections with minimal stops. The study shall:

(1) Consider the effectiveness of synchronized streets in areas where they have already been implemented, including the effects implementation has had on (i) motor vehicle safety, (ii) motorist travel time, and (iii) economic and environmental indicators.

(2) Develop criteria for the implementation of synchronized streets, that considers, at a minimum:

a. Areas where the implementation of synchronized streets in lieu of alternative signaling and improved traffic flow measures would be appropriate.

b. The compatibility of synchronized streets with (i) major roads or transportation routes used for commercial or industrial purposes and (ii) vehicles requiring commercial drivers licenses.

SECTION 43.25.(b) No later than July 1, 2027, the Department shall report the findings of the study required by this section to the Joint Legislative Transportation Oversight Committee and the Fiscal Research Division.
