BASIC GUIDELINES FOR ART SUBMISSIONS

We prefer PDF files.

Fonts must be properly embedded and please DO NOT include crop marks.

If submitting your ad in jpg format, it MUST be actual size and at least 300dpi.

- We also accept InDesign, Photoshop PSD, or Illustrator (These are called native files). Set document size to the exact size of your ad, use CMYK colors and make sure black text is created in 100% Black (C=0, M=0, Y=0, K=100). Pantone, RGB and indexed color files/ads will be converted automatically in our workflow system and may print with undesirable results for the advertiser.
- When native files are submitted you must also package all live elements used to create the ad, including fonts and artwork files.
- We do not accept ads in Microsoft Word®, Excel®, PowerPoint®, Publisher® or clip art-based applications such as Print Artist® or Printshop Pro®. If you have used one of these programs to create your ad, you must export/save it at actual size as a high resolution PDF and submit the PDF.
- Send original art and materials in digital format at a minimum 300 dpi resolution. Please note that photos and artwork taken from web pages via Google search is illegal and images pulled from your own website or Facebook may not reproduce well because of their low resolution and/or poor quality.
