I hereby apply to inspect and/or copy the following record(s): Please be specific.

I'd like to know how many EMS calls in the Lima district were covered by LCEMS without Lima EMS response in the calendar year 2025 (I understand it was only a handful). Of those calls responded by LCEMS and not Lima EMS, how many calls was there a delay in dispatch to LCEMS due to uncertainty of Lima EMS status. If there are any calls where there was a delay in dispatch to LCEMS due to uncertainty of Lima EMS status, what was the delay time in each call in dispatching to LCEMS and what were the dates. I am not interested in calls where both Lima EMS and LCEMS are dispatched together and both respond to the scene for the call. All data should be 2025 calendar year to date.

Thank you so much. There is a lot of confusion in my community on this issue and I'd love to be able to help people make informed decisions.

Responses will be made in compliance with the provisions of § 89 of the Public Officers' Law
