

CHATTANOOGA BUTTER CO.

A Better Butter

REAL. NATURAL. EXPERIENCE.

Our mouth-watering artisan butters begin with real cream and take things to the next level by adding top-quality ingredients in the creation of simple, yet unique flavors. We use virgin coconut oil, berries, fresh herbs, and spices. All-natural, fresh, real food...always.

Our sweet spreads — think Pumpkin Spice, Strawberry or Caramel Apple Butter — are perfect on dinner rolls, toast, bagels, muffins, or baked goods. Or elevate any dish with our savory "chef in a jar" butters, like Brandy Soaked Bordeaux Cherry Butter glazed on salmon or Maple Candied Bacon Butter on sweet potatoes.

ON U.

Handcrafted, Vintage, Inspired Jewelry

Unique Artisan Necklaces, Bracelets & Earrings

On U Jewelry creates eco-chic, vintage-inspired necklaces, bracelets, earrings, one-of-a-kind hit singles and anklets. Our pieces feature a mix of semi-precious stones, vintage glass beads, antique and vintage buttons, and collectibles — all hand-crocheted or hand-knotted. It's dramatic in texture, bold in color, and dimensional in design — meant to make you feel as incredible as you look.

ABOUT THE MAKER

I began creating jewelry while commuting on the A Train in upper Manhattan in the late 1980s as a side line to my fashion stylist career in New York's Fashion District. Today, I find inspiration for my designs in everything I do. I love taking a little bit of something and creating a 'look' from it.

ONE-OF-A-KIND

Our jewelry isn't just vintage-inspired — it carries the fingerprints of time. I love to add ancient-to-vintage findings, such as buttons, trinkets, fossilized teeth and claws, mati, amulets, and ancient coins that I travel the world to find. If you love enduring one-of-a-kind treasures that speak louder than trends, you're in the right place.

Bringing the light through the darkness

Seasoned glass artist Kristen Muñoz pours her heart and soul into crafting stunning glass creations. Her passion for infusing beauty into every piece shines through in her one-of-a-kind, meticulously handcrafted glass art — whether you're seeking to adorn your home, elevate your office, or gift a loved one. All elementals fire, earth, air, and water are needed to produce each piece of art. Kristen's mastery of working with these elements, including different metals and minerals, creates a unique piece every time.

ABOUT THE ARTIST

Kristen began her glassblowing career in 1999 in Austin where she became an apprentice. Wanting to learn more and get away from the Texas heat, Kristen moved to Western North Carolina and attended Penland School of Crafts. Upon seeing the hot glass studio, she fell in love with the art of traditional glassblowing.

Kristen invites the public into her studio for demonstrations and loves to share the magic of crafting with glass. Kristen lives in Marshall, N.C., with her two children, Raven and Seneca. She spends her time studying and praying with Indigenous peoples, hiking, growing food and medicines, and learning primitive skills.
