

Heir Property and Wills

CLINIC

Legal Aid of NC invites you to a free info session addressing heir property and wills. During our presentation, we'll be able to share with you what heir property is, how having it can affect your property rights, as well as the importance of having a will to protect them.

Individual, one-on-one appointments with an attorney are available, where you'll have the opportunity to discuss your property issues or estate planning needs. There will also be a free dinner!
