Again, we need to start expelling and incarcerating violent students.

I have only been saying that for 2+ years.

It is time we actually start doing it, or the School Board will start running the Police Dept directly and we will ensure they are incarcerated..

D

Shannon Davis

I trust you will provide any pertinent information, but I am extremely alarmed by this. We've had too many incidents these past two weeks! I don't know the answer, but we MUST do more. Is it appropriate to call an emergency closed session/meeting to expedite a plan? Strong communication to our parents, not just the students. Strong push on SRO's? Focus all efforts on implementing the plan the security team has given us. I'm sorry to overwhelm with

Is it appropriate to call an emergency closed session/meeting to expedite a plan? Strong communication to our parents, not just the students. Strong push on SRO's? Focus all efforts on implementing the plan the security team has given us. I'm sorry to overwhelm with answers, but sitting here seeing the ambulance leave with that child has rattled me...

S

David Hensley

This is what almost a decade under far left "no consequences", restorative Justice, etc gets us.

Referral to kuvinlevjistice and expulsion is the answer and has always been the answer.

If the parents want to sue is, so be it.

Referral to kuvinlevjistice and expulsion is the answer and has always been the answer.

If the parents want to sue is, so be it.

I will gladly defend a case where we expelled a student for "communicating a threat of mass destruction" which, if the kid is 18, it would be a federal crime eligible for life in prison...on par with murder. (Referring to the bomb threat and mass shooting threat earlier).

Again, the act creating the McS police is called the "MC Board of Education Police".

If the administration won't take the needed measures, we will run the McS ourselves, and I will certainly take the needed measures and deliver the appropriate

If the administration won't take the needed measures, we will run the McS ourselves, and I will certainly take the needed measures and deliver the appropriate consequences.

D

Either way, this must stop.

Bob Levy

Please have Cynthia add to our Monday agenda a closed session on student safety and an open session discussion student safety. It would be nice if the Chief could be present. Rich should probably be on zoom.

B

The public needs to know we are taking this matter seriously.

Shannon Davis

Thank you, Mr Levy.

S

Social media is blowing up about this. We need to make a statement as soon as appropriate.

Thank you, Mr Levy.

Social media is blowing up about this. We need to make a statement as soon as appropriate.

Bob Levy

The statement should come from the administration. We need to speak with one voice except to say that the Board will convene Monday at our previously scheduled meeting to discuss our ongoing concern for student safety ( and the advantage of smaller, more secure schools... just kidding.. sort of)

Shannon Davis

Yes, I was referring to admin

Pauline Bruno

I agree with you all STRONGLY! LOTS OF CONSEQUENCES! We are doing these kids no favor by letting them get away with everything or giving them a slap on the wrist.

Here is part of the problem.

We send "counselors" when we should be sending severe consequences.

Going out on a limb, my guess is this wasn't a straight A student with no background of disciplinary problems who took a break from doing differential equations and decided to stab someone.

Again, if we would deliver expulsions and other severe consequences, we wouldn't need counselors.

D

Counselors are for the witnesses. Please let Dr.L handle it and brief us once it is all done. We don't know the situation yet, so let's not jump to conclusions. Dr. L doesn't need us in his ear right now. (Remember this is a quorum)

T Some additional information was just sent via email.

David Hensley

Stacey:

Reading comprehension is fundamental. Please read my above text. It literally said "IF.....THEN...." as in "If we delivered severe consequences to include prison and expulsion for those who commit violent acts, then we wouldn't need counselors because those acts would stop".

D Of course the "then" was implied, so maybe you missed it.

Thank you Tim for the update.
