

# 2024 MO Feral Hog Elimination Partnership Updates

The Missouri Feral Hog Elimination Partnership continued elimination efforts into 2024, resulting in the removal of **5,105** feral hogs, of which 1,748 were removed by aerial operations and 141 were removed from the Arkansas border. The Partnership also placed equipment in numerous counties for landowners to use free of charge. Landowners and businesses alike embraced Partnership signs, including local Farm Bureau offices, veterinary offices, and local Wal-Marts.
