

## A NEW CHAPTER IN BUILDING A BETTER ECONOMY FOR BETTER LIVES

### The Road to Prosperity: The 2026-2028 OLMCQ Collaborative Economic Development Roadmap

Something important is taking shape at the **Community Economic Development and Employability Corporation (CEDEC)**. Over the past two years, CEDEC has been exploring through research and extensive stakeholder consultation how the English-speaking Community of Quebec (ESCQ) can participate more actively in Quebec's growing economy.

**The Road to Prosperity: The 2026-2028 OLMCQ Collaborative Economic Development Roadmap** is a two-year strategy designed to help the ESCQ work with their Francophone neighbours to take full advantage of the economic development opportunities being created by rapidly evolving technology, shifting demographics, and a changing climate.

Premised on the powerful idea that **community vitality and economic development are inseparable**, readers of the Roadmap will see how Public, Private, and Civil Society Collaboration can spur long-term economic development, drive enterprise growth, unlock investment, strengthen productivity and accelerate access to jobs.

#### WHAT READERS OF THE ROADMAP CAN EXPECT

This isn't a traditional strategy filled with abstract ideas. The Roadmap is designed as a practical implementation framework.

It outlines:

- The opportunities emerging from the major forces shaping Quebec's economy.
- How collaboration shapes economic development.
- Structural conditions affecting long-term economic participation.
- The steps it will take to transform opportunities into economic benefits for individuals and their communities.

#### THE ROADMAP IS HERE

Take a sneak peek at the Roadmap on CEDEC's website. On June 15, CEDEC will officially launch it at a virtual event – registration is open now.
