Flora Red Beet Crystals are a nutritious, energizing superfood that helps to boost nitric oxide levels in the body. This naturally sweet tasting, instantly soluble product is a pure concentrate that is carefully obtained from the juice of freshly harvested, organic beet roots. Beet juice has a reputation for supporting exercise performance, energy and cardiovascular health. The main way it does this is by boosting nitric oxide production in the body. Beet nitrates get converted during digestion and metabolism into nitric oxide. This conversion is helped by things like vitamin C, polyphenols and CoQ10. This leads to wonderful things like vasodilation, better tissue perfusion of oxygen and nutrients, normalized blood pressure and mitochondrial biogenesis (an increase in size and numbers of the little energy factories that power our cells). In a "Systematic Review of Effects of Beet Juice on Endurance in Athletes", the authors found that beet juice can improve cardiorespiratory endurance in athletes by:

- increasing cardio and energy efficiency
- increasing time to exhaustion
- increasing VO2 max (a measurement of lung volume and oxygen carrying capacity)
- improving cardiorespiratory performance during anaerobic exercise

Certified organic, gluten-free, vegan and non-GMO Project verified,
