

PRESENTS

MEN'S HEALTH & SURVIVORSHIP FORUM

Treating the Cancer Is Only Half the Story.

Thursday, October 22, 2026, starting at 7:00 p.m.

Sarto-Desnoyers Community Centre

1335 Lakeshore Drive, Dorval, QC H9S 2E5

Prostate cancer treatment can save lives.

But what happens to the man, and to the family living through it with him?

Join us for an open, candid moderated discussion about the **physical and psychological consequences of prostate cancer treatment**, particularly androgen deprivation (hormone) therapy, followed by audience questions.

THE SPEAKERS

Dr. Alexis Rompré-Brodeur, MD, FRCSC

Urologic Oncologist | McGill University

The physiological perspective: prostate cancer treatment, hormonal changes, sexual and urinary function, physical consequences and quality of life.

Dr. Samara Perez, PhD

Clinical Psychologist | Psychosocial Oncology

The psychological perspective: cognition, mood, identity, intimacy, relationships and the effects on partners and families.

ONE PATIENT. TWO PERSPECTIVES.

What is happening to us and why? What can we do about it?

Men, partners, families and friends are welcome.

Please share. Someone you know may need this conversation.
