tion from working on the Caneview K-8 School for seven (7) days. During this time, Mr. Hume recommended hiring an independent firm to conduct infrared tomography testing on all of the buildings and have a record on file with the results of the testing. Mr. Hume also stated that his firm is enforcing the specifications. This break will also allow the contractor and subcontractors time to regroup and get back on schedule. Mr. Kern informed the Board that the school will not be ready for students at the start of the 2019-20 school year. Mr. Watts reported that it would probably be open after Thanksgiving break but possibly even in the best case scenario, it wouldn't be open until Labor Day. Mr. Kern said he did not want to rush the completion of the job and six months or so after the opening of school there would be problems due to inferior building issues. A meeting was held with the Contractor and a "Plan of Action Schedule" showing the new substantial completion schedule was requested.

The board did not need to take action to approve the seven (7) day shut down or the independent infrared tomography testing to detect moisture in the buildings. Mr. Kern and Mr. Watts had been approved by an earlier board resolution to make decisions relative to the Building program without prior board approval and report to the board with updates.

U.S. Corp of Engineers shut down any sub-surface work until the river stage at the Carrolton Gauge reading 15' or below. The Contractor was asked to submit a cost for temporary power so the interior and exterior finishes can continue with progress. Once the river levels fall to the appropriate level, the Contractor will be able to make the final tie ins to complete the job. As of now, we are waiting on a revised schedule from the Contractor showing what impact this will have on the completion date. As of now, the river is not forecast to fall in time to have the building ready for monthly expenditures and financial reports for May 2019 presented by Jared Gibbs. According to Margaret Pritchard, the Library's auditor, "the audit is still under review and will be ready in a couple of weeks. The report is due to the Legislative auditor's office by June 30, so it will certainly be available before then".

The Library plans to move the security officers tracking of time worked from the past practice of utilizing paper slips to track hours worked to the online payroll system, which will allow officers to enter time via an app, it will also include the ability to direct deposit. It's good business practice. This will reduce the number of checks written by 20 per month or 240 per year, which also lessens the risk of check washing, keeps payees in one location, and eliminate the need to manually calculate hours which can lead to errors and eliminates the potentiality of losing slips of paper. The system will calculate hours entered Cadie will continue to process the officer's payroll every week. Reports of hours worked can be printed out for each officer.

Ms. Lemoine moved to accept the Financial Report. Ms. Morgan seconded, and the motion passed unanimously.

The Statistical Report was presented with a discussion of the increase in circulation. In addition, the board was notified that the library has changed the way we count items in our collection to make it more accurate, by including all formats of library materials in the overall count. The number of library programs and attendance is up. Library technology use has also increased.

Director's Report. Ms. Bond reported that the library will purge inactive patrons from the last three years with no more than \$5.00 in fines. She attended the State Library's New Director Bootcamp in April. Recent library programming included Eggstravaganza, STEAM night, Writer's Group, and Storytime. Upcoming service renewals include FiberSeal, Directors and Officers Insurance, Port City Enterprises, Assurant Flood, and Overdrive. Current contracts, service agreements, and subscriptions were given to the board in a spreadsheet format. A list of maintenance vendors was given to the board. A list of software stated that Officers became aware of the purchase in late March 2019, following a phone call from Beth Vandersteen, previous Director, who said that she had not purchased the equipment during her tenure. Ms. Bourgeois reminded the Director that when she mentioned the equipment in July 2017, Board Members asked her not to purchase said equipment until they received more information and were referred to someplace where it was being used to see it in operation. It was further revealed to Board Officers that the equipment, paid for on October 17, 2017, was not installed/in use.

Ms. Bourgeois made the motion, seconded by Mrs. Morgan, to declare the equipment as surplus and provided the Director a handout with instructions on the process. Discussion ensued, including a question from Mrs. Swancy as to why the equipment was still in the box. No response was provided.

A roll call vote was held with the following results:

was given to the board. The board were pleased with receiving the information in an easy-to-read format.

Ms. Bourgeois presented the Executive Board Report. She discussed appointing board members to serve on the West Baton Rouge Parish Library Staff Handbook revision committee. She asked that the library director clear revisions of the handbook with the board officers before sending to an attorney for review.

Ms. Bourgeois brought up the issue of the purchase of self-checkout equipment in October 2017, which was not addressed in the Director's Report.

Questions regarding the Self-Checkout Equipment were raised during the Officers Meeting on April 8, 2019. The following statement was provided by the Director and included in the meeting packet:

1. When was the self-check/Library Document Station purchased? - October 5, 2017, for \$7,375.00 utilizing funds from the 13E Capital Outlay Acquisitions budget line (automation/ hardware) and separately the 07G Operating Services Automation software budget line \$2,093.00; September/October 2017 monthly report. Did I overstep in this area, if I did, I am so sorry? I believe in 2019 it's been established that any checks written for over \$5,000.00 require two signatures. Perhaps a threshold for approval of equipment purchases could be equal to that, and anything over \$5,000.00 requires board approval; please let me know so that I can avoid making the same mistake in the future. The goal was to create efficiencies to provide additional support to the circulation staff; to be able to have more time to assist patrons with technology, reference, and research questions; and create additional internal controls to reduce the number of collection of cash transactions by staff from patrons by providing the public the opportunity to pay for fines at the self-check station via a coin-op machine. The self-check/library document station provides all the services of the current LDS plus self-checkout and fine payment utilizing minimal floor space. The Library can provide 2017 transaction detail of the Capital Outlay Acquisitions budget line and the Operating Services Automation software budget line.

Regarding the equipment purchase, Ms. Bourgeois
