

Student Fees for 2019-20

Approval is recommended as presented, or with any changes the school board wants to make.

No increase in student fees is recommended for the 2019-20 School Year, except for breakfast and lunch prices.

The United States Department of Agriculture requires all school districts to use a formula to determine the amount of money to charge for lunch, and the proposed increases reflect the formula- driven increase.

The district has not charged for three year-old preschool for the ten nine years. The district receives no funding for three-year old preschool students unless they are in a special education program. The Board has the authority to charge for three-year old pre-school, and should consider doing so.
