

NOTICE TO RURAL RESIDENTS OF HARDIN COUNTY

On May 1, 2026 and thereafter HARDIN COUNTY will conduct roadside herbicide treatments for noxious weeds and brush (weather permitting).

Such treatments may contain the herbicide Milestone. Milestone's herbicide label contains restrictions for haying. Before haying in the County right-of-way consult the herbicide label and contact the Hardin County IRVM Department for more information.

All persons spraying are trained and certified in strict conformance with the State of Iowa's requirements and the manufacturer's recommendations. Anyone who is interested in Material Safety Data Sheets (MSDS) for product information can contact the IRVM Department at (641) 858-5058 between 8:00am-4:30pm.

Residents wishing the County to not spray may sign up to keep their own ditches free of weeds and will be furnished "NO SPRAY" signs at the HARDIN COUNTY ENGINEER'S OFFICE when they sign a "NO SPRAY" agreement.
