BUSINESS REVIEW FEATURE > POWER CLEANING EQUIPMENT, INC.

GET READY FOR CLEANING SEASON! WE SERVICE WHAT WE SELL!

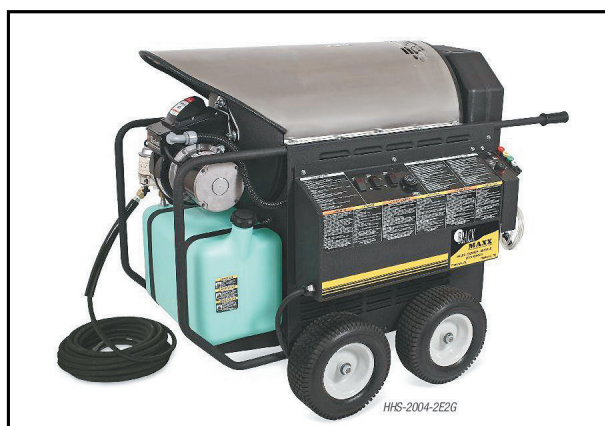

We are Joe and Jim Jackson, and we are the owners of Power Cleaning Equipment, Inc., located at 5020 Highway 157, Florence, AL.

We both were born and raised in the Shoals area, as were our parents and grandparents. We attended Florence City Schools and UNA.

Power Cleaning Equipment, Inc. opened in January 1972. Joe is the president of the company. He has served two three-year terms on the CETA Board of Directors, once in the middle nineties and once in the middle 2000's. He has also served two three-year terms on the CETA Education Foundation Board of Directors. He is known and respected by most dealer distributors, industry suppliers and manufacturers throughout the entire US.

We sell and service pressure washers hot and cold and steam cleaners. Our business from inception is primarily focused on the commercial and industrial market.

Today, it is a little different because now everyone uses pressure washers at their homes & businesses. However, today's consumers can afford to purchase gas engine cold water pressure washers from our company. And here is the real reason they should!

Our pressure washers are different from the ones sold by the big box store. We service what we sell! AND we stock parts for what we sell. Our parts inventory level is second to none in the southeastern US. We also manufacture a complete line of soaps and detergents to be used in the equipment we sell.

In addition, we have other specialty product lines such as the Val 6 Diesel Fire Infrared heaters. No odor or no noise! You will have to see it to believe it!

The number one reason customers should buy from us is that WE SERVICE THE PRODUCTS WE SELL! The number two reason is because of the personal touch and service we give to our customers. Where can you find that combination today? Certainly not on the internet or the big box stores!
