

## Colville Confederated Tribes Department of Transportation (CCT DOT) invites you

Now active through 05/01/26

The Colville Confederated Tribes Department of Transportation (CCT DOT) and Washington State Department of Transportation (WSDOT) would like to receive comments from people whose home, work, education, shopping, family connections, cultural connections, other social connections, camping, hunting, fishing, gathering, or recreation may result in them using the US 97 & Dayton Street intersection in Omak, WA. CCT DOT and WSDOT are jointly seeking funding to construct a roundabout and are interested in understanding whether users of this intersection believe a roundabout would improve the sense of driving, bicycling, and walking safety at this location. This survey will be open until May 1, 2026.

Please follow the link below to the survey - or - use the QR code below. You can return to CCT DOT's webpage to follow progress for the public transportation planning effort and view results when posted.
