Pacific Choice Sea Food Sails Out of the Harbor

BY **ROGER GITLIN**
Country Media, Inc.

Pacific Choice Seafood and its vital ice plant operation has pulled out of the Crescent City Harbor (CCHD). The exit leaves no outlet for commercial ice to ensure fish catch freshness.

The pullout was not unexpected. Owners of the 83 year old family firm blame onerous California Environmental Protection Agency (EPA) regulations over the anhydrous ammonia-based freezing process as the primary reason the company's moving its California operations to its Charleston, Oregon facility. New ice making technology involves non-toxic Carbon Dioxide.

The EPA was tasked with

inspecting the ice making machinery; for reasons unknown, the EPA has not conducted these mandated inspections since 2008.

Recently appointed Harbor-master (interim) Mike Rade-maker traveled up to Clackamas County to meet with Pacific Choice Seafood management, seeking a temporary agreement to re-open and service the ice plant until the Harbor can find an alternative ice-producing machine with the ability to produce quantities to service the needs of the local commercial fisherman fleet. At present, fishermen have an 80 ton reserve of ice.

"The need for ice will resume in January when commercial shrimp and crab vessels return to

Measure H: the Complete Picture

BY **ROGER GITLIN**
Country Media, Inc.

Property owners recently received a slick new political advertisement urging a YES vote for Measure H, a \$59 million School Bond item.

Proponents of Measure H tout the necessity to pass the School Bond which supporters claim will fix long overdue repairs on the 11 Del Norte Unified Schools (DNUSD).

Opponents of Measure H claim the beleaguered property owner can ill-afford another letter on an already-crowded alphabet soup of still-unpaid bonds totaling \$25 million.

For clarity, the assessments on your property tax bill, Measures D, E, F have been placed under the Measure A umbrella.

- Measure A Bond will remain on your tax bill until 2045.
- The new proposed bond will total \$59 million or adding \$59 for every \$100,000 of assessed valuation on your property.
- If passed, Measure H will be introduced and remain on your tax bill until 2060, an overlap of 15 years.

Indeed, like anything that ages, repairs are needed to keep up. The community wants to provide the most ideal environment in which our children learn and are educated.

Are our children's future at stake if the beleaguered property owner can ill-afford these new assessments?

It's a hard question to answer.

Confusion still abounds on the condition of the schools. The Measure H Committee states an independent evaluator, following State criteria for inspection declared none of the District's schools were rated "good" or exemplary. That evaluation would not be unexpected considering the 11 schools average 60 plus year old. Three were evaluated as "poor" and the remaining eight as fair.

This conflicts with a Facilities Report delivered at a July DNUSD meeting identifying only two schools were labeled as "poor" and the other nine schools as "fair" or above.

Are we splitting hairs, here? The independent evaluator's report did not indicate to the public when the Report was conducted, either before or after the July DNUSD meeting.

Without entering the opaque world of word definition, perhaps the DNUSD may wish to clarify what is the definition of "poor" or "fair."

GUEST COLUMN

The Voters approve, and What Do We Get Out of It?

GUEST OPINION BY SAMUEL STRAIT

We are fast approaching November 5th when local voters are asked to weigh in on various ballot measures. For the most part at least here locally, the items generally revolve around giving some local taxing authority more money. The propaganda offered by the agency as to why it is necessary is often quite compelling, and inevitably misleading.

Perhaps a trip down memory lane is the best way to show just how a careful reading of a ballot measure will highlight what we were told we'd get and how it never happens.

In 2008, the local school district placed a ballot measure on the local ballot which promised to add new classrooms, and the refurbishment of older rooms. It was to solve current and future maintenance issues for the foreseeable future. Seventeen years later we have seen no new classrooms built and only a few of the promised refurbishments. There is currently a \$44 million dollar balance on that bond.

In 2014, the local Fair District placed a measure on the ballot to upgrade facilities at the Fairgrounds claiming the State

had cut them adrift and the facilities may cease to exist. Nobody is quite sure what the Fair Board did with the revenue to this day. Disturbing!

In 2016, a sewer rate increase appeared on the ballot to repair the existing City sewer system. The sewer system hadn't been properly maintained for more than thirty years, and more recently another sewer rate increase was proposed once again to repair the system to the tune of millions more in rate increases. Depressing!

Also, in 2016 a "pot" tax appeared on the local ballot for the County which managed to close the County's only dispensary. What revenue collected by the County appears to have disappeared without a trace. Disheartening!

In 2018 the Crescent City Harbor was in dire financial straits from two consecutive Tsunami's which caused a fair amount of damage to the harbor. The local citizens passed an increased "bed tax" which was to address the harbor's financial issues. Four years later the harbor has revealed even greater financial difficulties today than it suffered in 2018.

In 2020 both the City and the County claimed to be in dire "straits" over the inability to pay for "vital" services, fire, police, emergency services, and infrastructure repair. Since that time, the County has spent little of the revenue, \$4 million banked, no money for fire but funding for a parking lot replacement and ball field fencing for infrastructure repair, a sheriff's department in chaos, and a useless emergency service department. "Vital services consisted of a building inspector, a planner, a grant writer, and funding for animal control. Demoralizing!

The City focused on Beach Front Park and Front Street, a quarter of a million-dollar salary for a fire chief, three six-figure fire captains, and not much else. It becomes very difficult to understand what both the County and the City mean by "vital services".

- In 2024, we are looking on the ballot at Measure H which is a \$59 million general obligation bond for a school district to pay for, yes, you guessed it, "renovation of the district's eleven schools." Not that the County's rate payers are even close to repaying the 2008 general ob-

ligation bond claiming to do the same thing. The district shows no shame when reporting that only two of the district's eleven schools are in "poor" condition and the student population will decline by hundreds to less than 3000 by the 2025-2026 school year. When you add in the fact that the school district benefited from three years of multimillion dollar windfalls from Covid distributions, maybe the new bond is a bit of an ask too-far.

The question becomes as most in the County are not exceptionally rich, and we have received very little from sixteen years of a steady stream of tax increases, is it finally time to say "NO" to the latest dip into local pockets? Perhaps the public should be asking "why millions of dollars each year does not translate into a particularly great outcome for our student population?"

The bottom line when you vote this year on or before November 5th, keep in mind all the failed promises to fix or improve services in the County and how little has been achieved.

I urge you to vote NO on ALL wasteful tax increases.

LETTERS TO THE EDITOR

The (not so) perfect Assembly-member Woods

The Sacramento office for Assemblymember Woods claims they have not received any complaints about our Assemblymember. The office manager is either ignorant, lying, or both. How can a politician, any politician, not receive any negative feedback? It's not that it's a bad thing, as you obviously have a mix of constituents that have different beliefs and values. But to claim the Assemblymember has not had any negative feedback is story gone too far. It all started back in May when I called the office for help with a DMV issue. And I called and left a message again. And again. And again. I sent an email message to the 'contact us' page. I still heard nothing. A few months later I decided to make one last attempt and called again. And when I started discussing my frustration, office staff member Nicole hung up on me. At this point the issue was no longer about a DMV, but about an Assemblymember and his staff who checked out 9 months before leaving office by ignoring his constituents. When I finally received an email response from Office Manager Cathy after applying much pressure, she acknowledged that all my messages had been

received and that I was the only complaint they have had. Well, it's certainly possible Woods has not received any negative feedback based on the fact that his office refuses to return phone calls or emails and hangs up when they don't like the conversation. But burying your head in the sand and ignoring any negative feedback or disagreements doesn't mean it's not out there. Manager Cathy also gave the excuse about limited staff due to the departure of Woods. If Woods had been an excellent leader, then there would not have been a mass exodus from his office when he announced he wasn't running for re-election. And that certainly doesn't address the issue of lying to constituents about his "perfect" record of no negative feedback.

Is this what politics has become? Not listening to your constituents by ignoring all their messages? Woods obviously hung up the towel a long time ago. I hope this is not the new world of politics, as Woods is setting a dangerous, shameful, and unprofessional precedent. Unfortunately, this unprofessionalism appears to be par for the course for Assemblymember Woods.

*Intentionally ignored constituent,
Elizabeth Stefanik-Webb*

Del Norte Union Members Claim Unfair Treatment

by **ROGER GITLIN**
Country Media, Inc.

Several members of the SEIU 1021 Local appeared before the Board of Supervisors, none too happy, Tuesday and expressed their frustration for "...not being treated fairly."

Chapter president Norma Williams, who represents some 200 Del Norte County employees, across several departments expressed long-brewing impatience with the Board on having to wait for a long-overdue survey of wages paid in various departments across the North State. "Our employees are underpaid and are frustrated by the long wait to address the modest pay scale over several departments," Williams continued, "the last survey was conducted

in 1999-2000." Many jobs in Del Norte go unfilled and employees face additional pressure to cover larger caseloads. Retention is challenging, according to Union representative Williams. Del Norte has been inundated with complaints of poor compensation which has led to some employees leaving Del Norte for higher paying jobs in larger communities. The Del Norte Sheriff's Department has also been

chronically plagued by difficulty in hiring and retaining deputies. Within a short period of hire, many deputies transfer to other better paying law enforcement agencies around the Golden State. When asked what solutions can be employed by the Board to pay more competitive wages, Williams emphasized, "Supervisors must sit down with us and bargain in good faith. We can wait no longer."

Measure H

From page 1

In report card parlance, poor is barely passing; fair or above is passing. Good or excellent condition was not noted.

The Measure H Committee believes, the physical condition of its schools is dire.

Tragically, DNUSD Reading and Math scores languish in mediocrity. Of the 9,000 plus schools among the 977 school districts in California, the Del Norte Unified School District is mired near the bottom, in the lower 25 percent of surveyed schools. The Average Daily Attendance (ADA) continues to plummet. In 2019, the ADA was reported at 3,421. About 3,085 students are projected to matriculate in the 11 different DNUSD schools by 2025/26.

Supporters implore the

community must do everything it can to improve conditions and improve the poor scores.

The argument is a solid one but the question lingers... When will Crescent City see respectable reading and math scores?

Without conflating the two issues of improved reading/ math scores and the sharp increase in property tax assessments, doesn't the public have the right to know if schools are delivering a quality education? Are kids learning?

Investors who own homes and apartments may raise rents to cover the cost of another property tax assessment. Hospitals, churches, government buildings and many non-profits are property-tax exempt.

The only group which cannot pass on these costs is the beleaguered property owner who simply lives in his home, pays his mort-

gage, utilities, the insurance, (auto and home), shops at the market, and of course pays his/ her taxes... The oppressive inflation factor makes matters worse. Everything costs lots more today.

Measure H requires a 55 percent voting affirmative for passage.

The "Support Our Kids-YES on H Ballot Measure Committee is comprised of the following individuals: Patty Vernelson, Chairperson; Colleen Parker, Treasurer; Donald McArthur, Assistant Treasurer; Abbie Crist, member. The latter two are DNUSD trustees. The election is Tuesday, November 5.

City after the Election, with Harbor, City and County officials to find a viable alternative to addressing the ice challenge.

Harbormaster Rademaker also shared options of seeking a grant from the Coastal Conservancy and the possibility of teaming up with tribal partners, the Tolowa and Yurok Tribes for a joint grant application. Estimates of inspection costs and updating equipment may run about \$200,000.

Pacific Choice Seafood states the primary reason for moving to Oregon versus remaining in California

involved the EPA mandate banning the disposal of the ammonia-treated ice within the Crescent City Harbor. Oregon permits the disposal of ammonia-treated ice to be deposited into its harbors, including Brookings Harbor.

The CCHD met last week to discuss options and was scheduled to meet Election Day November 5. That meeting will be rescheduled after the Election. A Special Meeting was scheduled Tuesday, October 29 at 2PM at the Conference Room located on Citizens Dock Road.

Rademaker is seeking interim assistance from the vacated Pacific Sea Foods and/or a temporary waiver, full abeyance (delay of enforcement) or consent agreement from the EPA, while the alternative ice resource can be located and secured.

Brookings Outdoor Pool

BY ROGER GITLIN
Country Media, Inc.

The Golden State and the Beaver State took another step in erasing the thin blue line separating California and Oregon.

The Fred Endert Pool will undergo two major projects that will interrupt service, closing the Crescent City pool for an anticipated 12 weeks. The Pool’s closure will effectuate December 2 and last through February, 2025. The renovations include HVAC and Locker Room floor projects.

The Crescent City swimming Pool is the only public pool that operates during winter months in both Del Norte and Curry counties.

Brookings does have a public outdoor pool that is open during the summer (Memorial Day through Labor Day).

Recently, the City of Brookings turned over pool management to South Coast Community Acquatics (SCCA). Many Curry County residents use the Fred Endert Pool during the winter months; that option will not be available, this Winter.

SCCA approached Crescent City staff to consider the possibility of a partnership to open the Brookings pool for the winter months.

- SCCA would be responsible for all facility-related costs, including utilities, electricity, propane, chemicals, supplies, insurance and facilities equipment maintenance.
- Crescent City would provide the lifeguards and supervisory staff for program operation and bear the cost.

Pool program would include a limited schedule, mutually agreed upon between Crescent City and SCCA. Morning and afternoon sessions Monday-Saturday are anticipated.

Swimming, Exercise, Recreational swimming and times for swim team training and the possibility of swim lessons may be included.

SCCA has committed to keep the outdoor pool heated at 83 degrees.

The City estimates the costs of the three month Program will be an approximately \$10,000-to a high of \$18,000 to \$28,000. The proposed agreement calls for a 50/50 revenue split.

Councilors expressed their enthusiastic support as final details are worked out.

The thin blue line between the States continues to fade.

If you are an "eligible bidder," you may be able to purchase the property if you exceed the last and highest bid placed at the trustee auction. There are three steps to exercising this right of purchase. First, 48 hours after the date of the trustee sale, you can call 530-246-2727; Toll Free: 844-333-6766, or visit this internet website: calforeclosures.biz, using the file number assigned to this case: TS#24-3101, to find the date on which the trustee's sale was held, the amount of the last and highest bid, and the street address of the trustee. Second, you must send a written notice of intent to place a bid so that the trustee receives it no more than 15 days after the trustee's sale. Third, you must submit a bid so that the trustee receives it no more than 45 days after the trustee's sale. If you think you may qualify as an "eligible tenant buyer" or "eligible bidder," you should consider contacting an attorney or appropriate real estate professional immediately for advice regarding this potential right to purchase. NOTICE TO PROPERTY OWNER: The sale date shown on this notice of sale may be postponed one or more times by the mortgagee, beneficiary, trustee, or a court, pursuant to Section 2924g of the California Civil Code. The law requires that information about trustee sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. If you wish to learn whether your sale date has been postponed, and, if applicable, the rescheduled time and date for the sale of this property, you may call the trustee's information line at 530-246-2727; Toll Free: 844-333-6766, or visit this Internet Website: calforeclosures.biz, using the file number assigned to this case: TS #24-3101. 10 days of the date of first
publication of this Notice
of Sale. NOTICE TO
POTENTIAL BIDDERS: If
you are considering bidding
on this property lien, you
should understand that
there are risks involved in
bidding at a trustee auction.
You will be bidding on a
lien, not on the property
itself. Placing the highest
bid at a trustee auction
does not automatically
entitle you to free and clear
ownership of the property.
You should also be aware
that the lien being auctioned
off may be a junior lien. If
you are the highest bidder
at the auction, you are or
may be responsible for
paying off all liens senior
to the lien being auctioned
off, before you can receive
clear title to the property.
You are encouraged to
investigate the existence,
priority, and size of
outstanding liens that
may exist on this property
by contacting the county
recorder's office or a title
insurance company, either
of which may charge you
a fee for this information. If
you consult either of these
resources, you should be
aware that the same lender
may hold more than one
mortgage or deed of trust
on the property. NOTICE
TO PROPERTY OWNER:
The sale date shown on
this notice of sale may be
postponed one or more
times by the mortgagee,
beneficiary, trustee, or a
court, pursuant to Section
2924g of the California Civil
Code. The law requires that
information about trustee
sale postponements be
made available to you and
to the public, as a courtesy
to those not present at the
sale. If you wish to learn
whether your sale date has
been postponed, and, if
applicable, the rescheduled
time and date for the sale
of this property, you may
call or (888) 902-3989 or
visit these internet websites
or www.nestortrustee.com,
using the file number
assigned to this case 2024-
08820-CA. Information
about postponements that
are very short in duration or
that occur close in time to
the scheduled sale may not
immediately be reflected in
the telephone information
or on the Internet Web
site. The best way to verify
postponement information
is to attend the scheduled
sale. NOTICE TO
TENANTS: You may have
a right to purchase this
property after the trustee
auction pursuant to Section
2924m of the California
Civil Code. If you are an
"eligible tenant buyer," you
can purchase the property
if you match the last and
highest bid placed at the
trustee auction. If you are
an "eligible bidder," you may
be able to purchase the
property if you exceed the
last and highest bid placed
at the trustee auction.
There are three steps to
exercising this right of
purchase. First, 48 hours
after the date of the trustee
sale, you can call or (888)
902-3989 or visit these
internet websites or [www.
nestortrustee.com](http://www.nestortrustee.com), using
the file number assigned
to this case 2024-08820-
CA to find the date on
which the trustee's sale
was held, the amount of
the last and highest bid,
and the address of the
trustee. Second, you must
send a written notice of
intent to place a bid so
that the trustee receives
it no more than 15 days
after the trustee's sale.
Third, you must submit
a bid so that the trustee
receives it no more than
45 days after the trustee's
sale. If you think you may
qualify as an "eligible
tenant buyer" or "eligible
bidder," you should consider
contacting an attorney or
appropriate real estate
professional immediately
for advice regarding this
potential right to purchase.

Klamath River Chinook Reoccupying Historic Habitat

The California Department of Fish and Wildlife (CDFW) reports all adult fall-run Chinook salmon and have occupying and spawning in newly accessible habitat behind the former dam locations on the Klamath River. These are the first observations of anadromous fish returning to California tributaries upstream of the former Iron Gate Dam, since 1961.

October 15, spawning full-run Chinook were observed in Jenny Creek, a Klamath River tributary 4.3 miles upstream from the recently re-moved Iron Gate Dam. Iron Gate was the southernmost barrier of the four dams removed from The Klamath.

In addition to the returning fall-run Chinook,

an adult Pacific lamprey was observed swimming through CDFW’s fishermen counting station, in Jenny Creek, three weeks ago.

One of the major goals of the Klamath River dam removal is to reestablish viable, wild, and self-sustaining populations of anadromous fish species for conservation, ecological benefits and to enhance Tribal, commercial and recreational fisheries.

These returning adult salmon mark a major step toward reaching these goals.

CDFW’s post dam-removal management strategy is to mostly allow these ocean-going fish species to naturally recolonize the 420 miles of newly accessible habitat.

Credit to Appear on Your Power Bill

Pacific Power customers in California can expect to see a credit of \$174.25 on their October electricity bill as part of the Golden State’s efforts to fight climate change.
The California Climate Credit is a direct result of the State’s nation-leading Cap-and-Trade Program that requires polluters to pay for climate pollution.

Credits are distributed in April and October every year. Credits appear automatically on your bill and are designed to help utility customers during the transition to a more suitable future.
The majority of Pacific Power’s proceeds are split evenly across each residential household and qualifying small business.

About 20 percent of the total proceeds are used for clean energy and energy efficiency programs, administrative and outreach expenses and California Industry Assistance which helps to keep manufacturers in California.
Customers may contact Pacific Power at 888-221-7070 for additional information.
