

The Dental Studio of South Tulsa

Skilled dental team has provided exceptional care for 20 years

Dr. Wesley Black and his capable dental team have been serving Tulsa for 20 years, offering family, cosmetic and implant dentistry services. The practice offers common procedures such as bridges, fillings and in-office whitening, but also goes above and beyond by offering same-day crowns, Invisalign, Botox, complex cosmetic reconstruction and sleep apnea devices.

"I get to work with the best dental team on the planet," says Black, a Fellow of the International Congress of Oral Implantology. Black is certified by the ADA, and holds additional certification from the American Academy of Dental Sleep Medicine.

The Dental Studio uses only the industry leaders in dental products, such as Cerec, Oral B and Philips Zoom whitening. After the COVID shutdown, Black installed an industrial grade air scrubber, like what is used in the space shuttle, to ensure safety and air quality for all his patients and staff.

When not at work or spending time with his wife and two daughters, Black likes to volunteer at various charities. Black is honored that his peers chose him for the designation of Top Dentist. He looks forward to continuing to serve the Tulsa community.
