## **Environmental Assessment for Construction and Demolition Projects at the 138th Fighter Wing, Tulsa International Airport Tulsa, Oklahoma**

The National Guard Bureau (NGB) invites the public to review and comment on the Draft Environmental Assessment (EA) and Draft Finding of No Significant Impact (FONSI) with Finding of No Practicable Alternative (FONPA) for this proposed action. The NGB has prepared a Draft EA to analyze the potential impacts of construction (including renovation) and demolition projects at the 138th Fighter Wing (138 FW) at Tulsa International Airport, Tulsa, Oklahoma. The proposed action would include eighteen infrastructure improvement projects in order to support the current mission. A Draft FONSI with FONPA was prepared based on the analysis in the Draft EA. A hard (paper) copy of the Draft EA and Draft FONSI with FONPA are posted at the Tulsa City – County Library, located at 400 Civic Center, Tulsa, Oklahoma, 74103. The Draft EA and Draft FONSI with FONPA are available for review beginning September 15, 2021 by downloading from:
