

**For Committee Rebuttal.
Ballot Measure #2
2023**

A public library *should* be committed to strengthening the social and economic fabric of the community, but the CCRLD has neglected its responsibility to that commitment. Nearly half a million dollars per year in taxpayer money... Over 100 sexually explicit materials available to children and youth... Library leadership unresponsive to community concern. *Age appropriateness is not censorship*. This is not the library we need. Vote yes to dissolve the CCRLD.
