Good morning,

Below is a valid concern that was brought to my attention on Friday evening.

This is HIGHLY illegal and will possibly be an issue on our audit in 2022.

Please see me for any further clarification you may need.

**Subject:** Personal request

I just wanted to let you know about an incident that occurred today,

Towards the end of my break today I was approached by Trooper Artega who had apparently gotten a call from the commissioner who wanted us to look into the record of somebody he personally knew who had been denied in Mass (whether that be a firearm purchase or a license to carry I can't remember). I was unsure but felt that because it came from so high up the chain, it was less of a request and more of an order, so I did as I was told and ran the individual and reviewed his Massachusetts record. I found what would have denied him and I told Artega who passed along the information, he did not tell the individual the charge, just that he had something from a certain year that was the issue and he told him how to go about getting rid of it.

I was very hesitant because I know we aren't supposed to run people without proper cause but again, it did not feel like something I could say no to without receiving a bit of backlash.

At your request, I printed out the records and the ntn of the individual and put it in a sealed envelope before locking it in the safe where it waits for further review.
