November 12, 2020**

People Present:

Amy Zahm-Dungeon

Sergio A. Reyna

Chris Koerwitz

Scott Wagner

Michelle Mitchell

1. Do you know why I had to schedule this meeting? Please explain.

Yes, I do. I was in inappropriate cites on district Wi-Fi.

2. Did you access or download inappropriate pictures during your working hours (8:00am-3:00pm)?

I honestly don't think that I did. I might have, but I honestly don't know. I downloaded them on my phone. I know that. I don't think I downloaded them while I was here. I was at home. But I honestly can't be sure

3. Do you have Wi-Fi access at home?

No ma'am, I do not. But I did have a hot spot this past weekend.

4. Did you use District Internet to access or download inappropriate pictures?

5. Your dps.net Google Drive was flagged for "Nudity Activity Alert" for 6 pictures on Friday, November 6, 2020. Did you store pornographic images on your District provided cloud account (dps.net)?

Again, honestly, I do not know. I thought I had stored them into my desktop (my personal device). I never used any district device to access. ...district iPad.

6. Have you electronically signed off on the acceptable use policy that states the following: The System (District Computer System) shall not be used to: Access, retrieve, or view obscene, profane or indecent materials. "Indecent materials" are those materials which, in context, depict or describe sexual activities or organs in terms patently offensive, as measured by contemporary community standards. "Obscene materials" are those materials which, taken as a whole, appeal to the prurient interest in sex, which portray sexual conduct in a patently offensive way in which, taken as a whole, do not have any serious literary, artistic, political or scientific value.

I'm sure I did but that was not in my mind. I thought that if I had my own device and use my own device it was hurting the district.

7. Do you believe that accessing pornographic pictures acts accordance with your contract, school board policies, and the Illinois Code of Ethics Policy for Educators? The documents discuss maintaining a professionalism?

No, I don't think it was professional. Again, I was not thinking about that. Like I told you...Tuesday. I've just been so lonely...I was looking for comfort.

Other Comments:

- Like I said, I did not know I did that.
- I worked Friday. But I thought I had them on my phone and tried to send them to my device. I don't know how...Probably did it the wrong way or shouldn't have done it at all.
- Just that I'm very sorry. I'm very embarrassed. I let the...school down, the district down, and a lot of people down. And, I know this is not an excuse, but...and I have to learn.
- I have to do counseling, but they have not called me.
- I tried to do that yesterday because it keeps flashing on across my screen. I tried to figure out how to do it. I want it off my phone, I want it off my device. I was going to ask if the Tech guy can help me.
