Subject: Incident

I teach Learning Stats [REDACTED] and Mr. Wagner is my TA.

On Friday September 23rd I observed Scott Wagner helping a female student. He was behind her with one hand on the table to her left and the other hand on the table to her right. He had his face to her ear and was observing her do her work on a MacBook. I felt that he was inappropriately close for a few minutes.

Mr. Wagner leaves my class early so I was not able to address it privately at the time. When I observed similar behavior on Tuesday the 27th with the same student I brought it to the attention of Mr. Koerwitz who asked me to make this statement.

Respectfully Submitted,
Judy Greenwood
