

Foundations of JAG

JAG Journey

History

JAG has served 1.4 million students since inception and serves over 74,000 youth and young adults annually.

Let's give a big shout-out to Delaware Governor Pete DuPont. He started the program in 1979 and then expanded it nationally in 1980 with Ken Smith, the Governor's Education Policy Advisor and co-founder and President of JAG.

Outcomes

One of the things that we are super proud of at JAG is our outcomes. At the end of the day, it is the students that matter. That's why we use metrics to measure the impact we've had on the lives of our previous students and to keep on striving to improve the impact we will have on future students.

Outcome we measure include

Graduation Rate

Employment Rate:

Positive Outcome Rate

Full-time Jobs Rate

Full-time Placement Rate

Postsecondary Education Enrollment Rate

Program Applications

At JAG we recognize that there is value in reaching students in a variety of ways. That's why we have different program applications, including:

- Middle School
- Multi-Year
- Senior
- Alternative
- Out-of-School

JAG Model Components

While each of our programs has different audiences, and each state or district runs things a little differently, there are 10 key components that all our programs have in common. We like to think of these as spokes on a wheel.

If one is missing, the wheel isn't going to turn correctly, and you won't have a smooth ride.

JAG Advantage

The **JAG Advantage** is based on a promise: JAG will give students an advantage that will set them apart from other youth in today's emerging workforce through student-centered programs that help young people achieve their fullest potential.
