

Imagine Nation Learning Center

Imagine a world where your child's creativity is allowed to foster. Imagine a world where self-development, self-empowerment and early learning skills meet to bring out the best in your child. Imagine a world of discovery. Imagine ... Imagine Nation.

Located at 1401 Ferris Ave. in Waxahachie, Imagine Nation Learning Center was voted the 2022 Star Award top childcare facility in the Waxahachie Sun's business recognition program.

Imagine Nation is a privately owned and operated learning center with programs for infants, toddlers, preschoolers and school-age children stressing a unique child-led curriculum and enrichment programs designed to help children reach their full potential.

At Imagine Nation, we don't consider ourselves childhood educators. It's the children who educate us. We take each child's perspective as part of the foundation we build our programs upon. Our curriculum doesn't just instruct. It enriches the potential that is already inside your

child.

Our mission is to provide a personalized early learning experience focused on the developmental needs of each child, stressing educational, social and emotional skills with an emphasis on creativity, and informed by our faith in God.

Our philosophy is to unlock the full potential of each child in an encouraging and nurturing environment and instill a lifelong curiosity and love of learning. While our curriculum may be developed by early education specialists, it is ultimately informed and led by children themselves.

At Imagine Nation Learning Center, we believe our educators are only as strong as each individual child. That's why our mission is to help unlock each child's unique talents by emphasizing creativity, self-confidence and education in equal parts. Our teachers focus on both personal and educational development in an environment designed to be both uplifting, nurturing and, above all, fun.

Classes are divided into age-appropriate groups:

- Little Dreamers – 6 weeks to 12 months
- Explorers – 12 to 18 months
- Discoverers – 18 to 24

months

- Imagineers – 2-year-olds
- Creators – 3-year-olds
- Inventors – 4- to 5-year-olds

We also offer our Adventurers before and after school programs, summer camps and an outdoor classroom.

As a privately owned and operated learning center, we recognize parents play an even more vital role in the development of their children than educators do. We encourage you to participate fully with us during the most impressionable period of your child's life – their formative years. Together, we can make an impact in fostering their curiosity and love of learning and walk with them hand in hand during their first steps to success.
