

We, the concerned residents of Shepherdsville, strongly disagree with the proposed City Ordinance 023-032 (an ordinance relating to camping on public property in the city of Shepherdsville, Bullitt County, Kentucky). This ill-conceived idea fails to address the real issues facing our community. We urge city officials to oppose this unnecessary ordinance.

- City Ordinance 023-032 restricts our personal freedom by imposing unnecessary regulations. As responsible citizens, we believe in making informed choices for ourselves and our families without undue interference from local authorities.
- It is crucial that any legislation impacting our community be based on transparent and inclusive processes.
- Contrary to its intended purpose, City Ordinance 023-032 fails to address the root causes it claims to target effectively. Instead, it burdens law-abiding citizens while doing little to solve the underlying problems it aims to tackle.
- Rather than implementing overreaching ordinances like City Ordinance 023-032, we propose exploring alternative solutions rooted in education, community engagement, and collaboration with relevant organizations and government entities.

We call upon Mayor Jose Cubero, members of the City Council, and other relevant officials to listen attentively to their constituents' comments and concerns. Let us work together to find effective, inclusive, and community-driven solutions that truly benefit the residents of Shepherdsville.

By signing this petition, we express our strong opposition to City Ordinance 023-032. Together, let's protect our rights, preserve personal freedom, and foster a thriving community in Shepherdsville.
