1 2 PERFORMANCE PAVILION & STORAGE:
A signature performance pavilion can host a diverse range of community events while providing storage and a central technology location for Christmas in Charlestown.

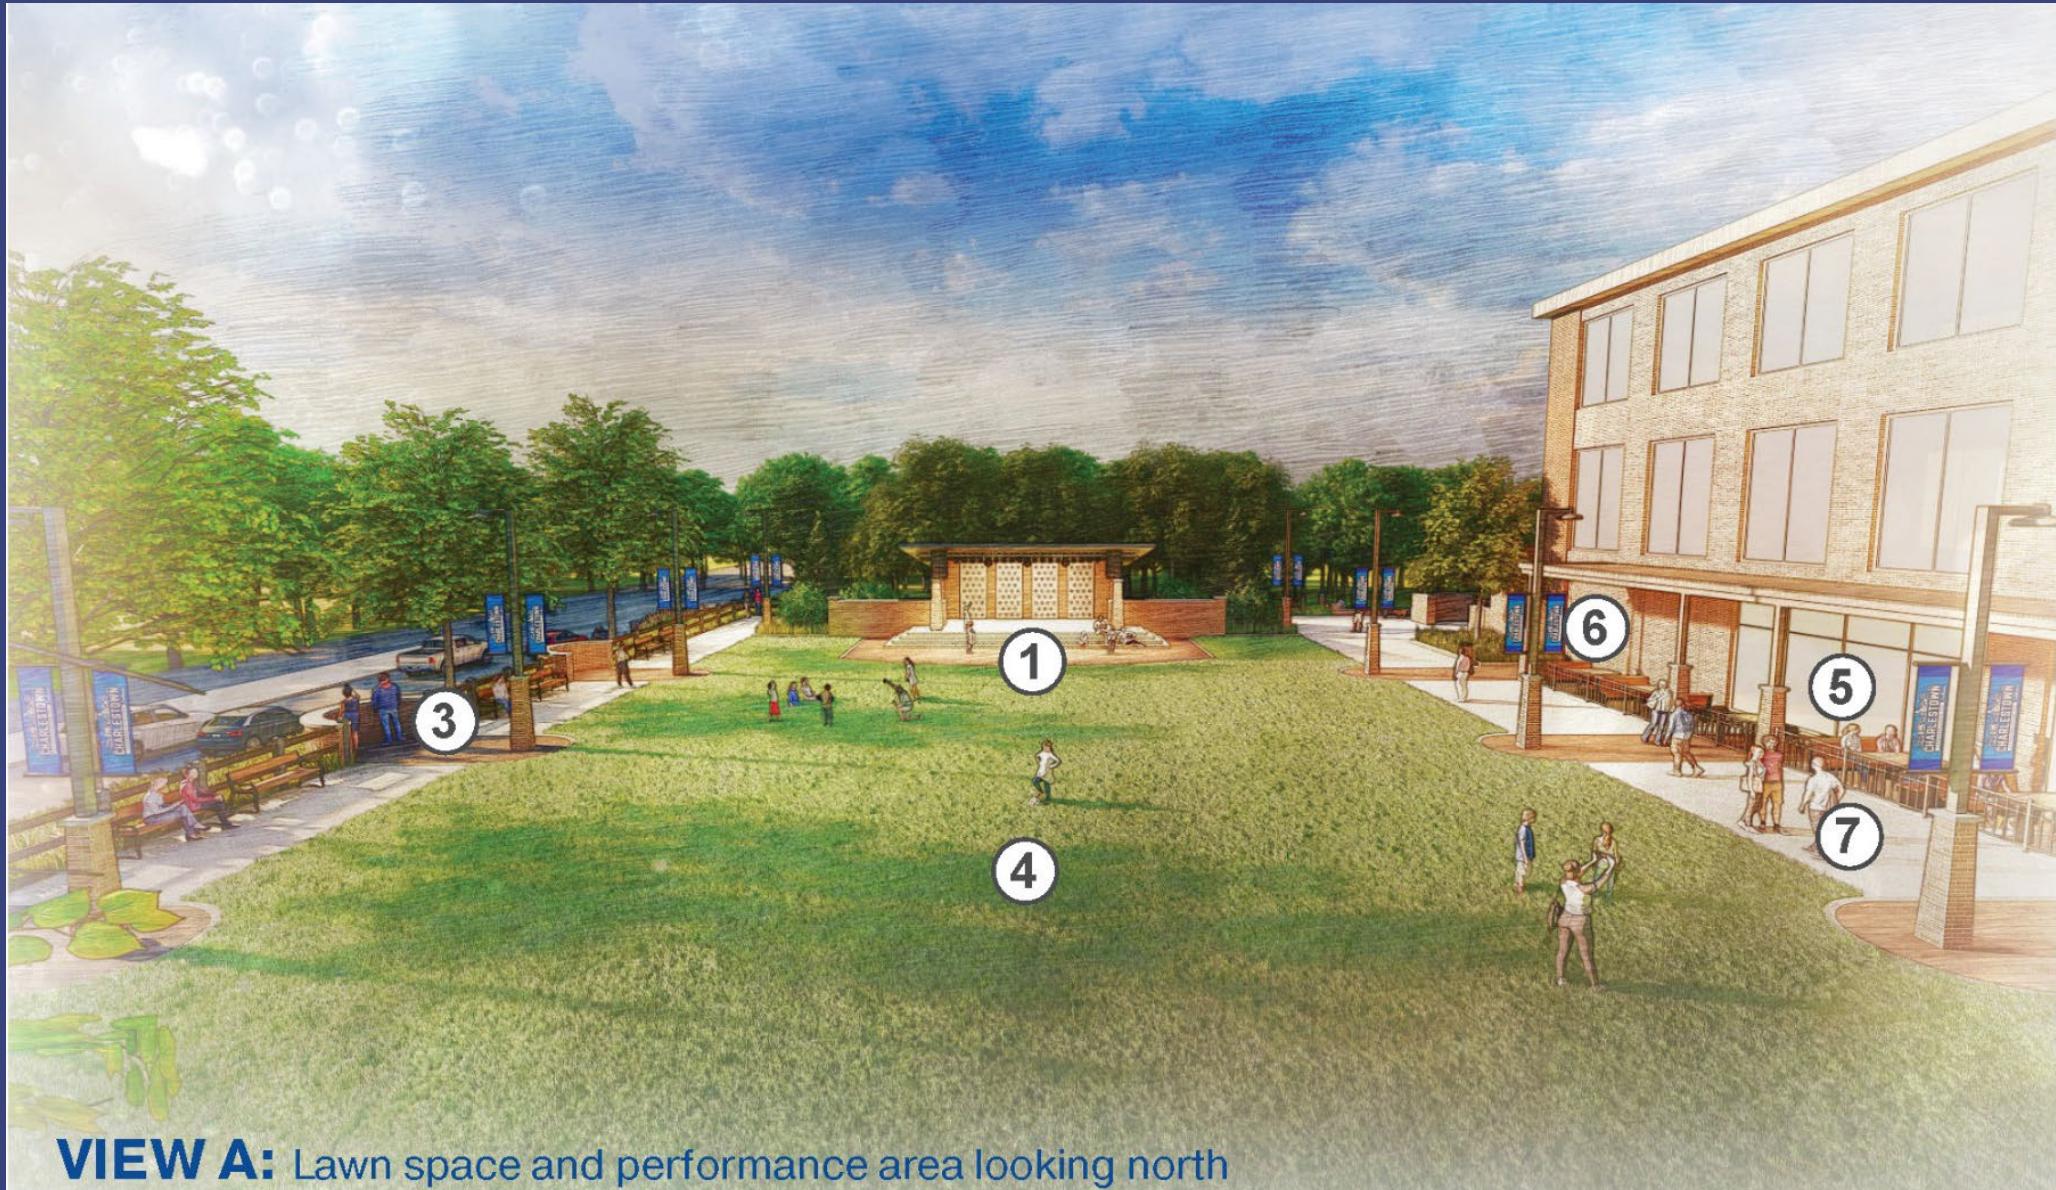

3 SAFETY FENCING & WALLS:
Safety railing and walls protect users while preserving views to the neighboring park.

4 FLEXIBLE LAWN:
The lawn allows flexible space for formal and informal gatherings of various sizes.

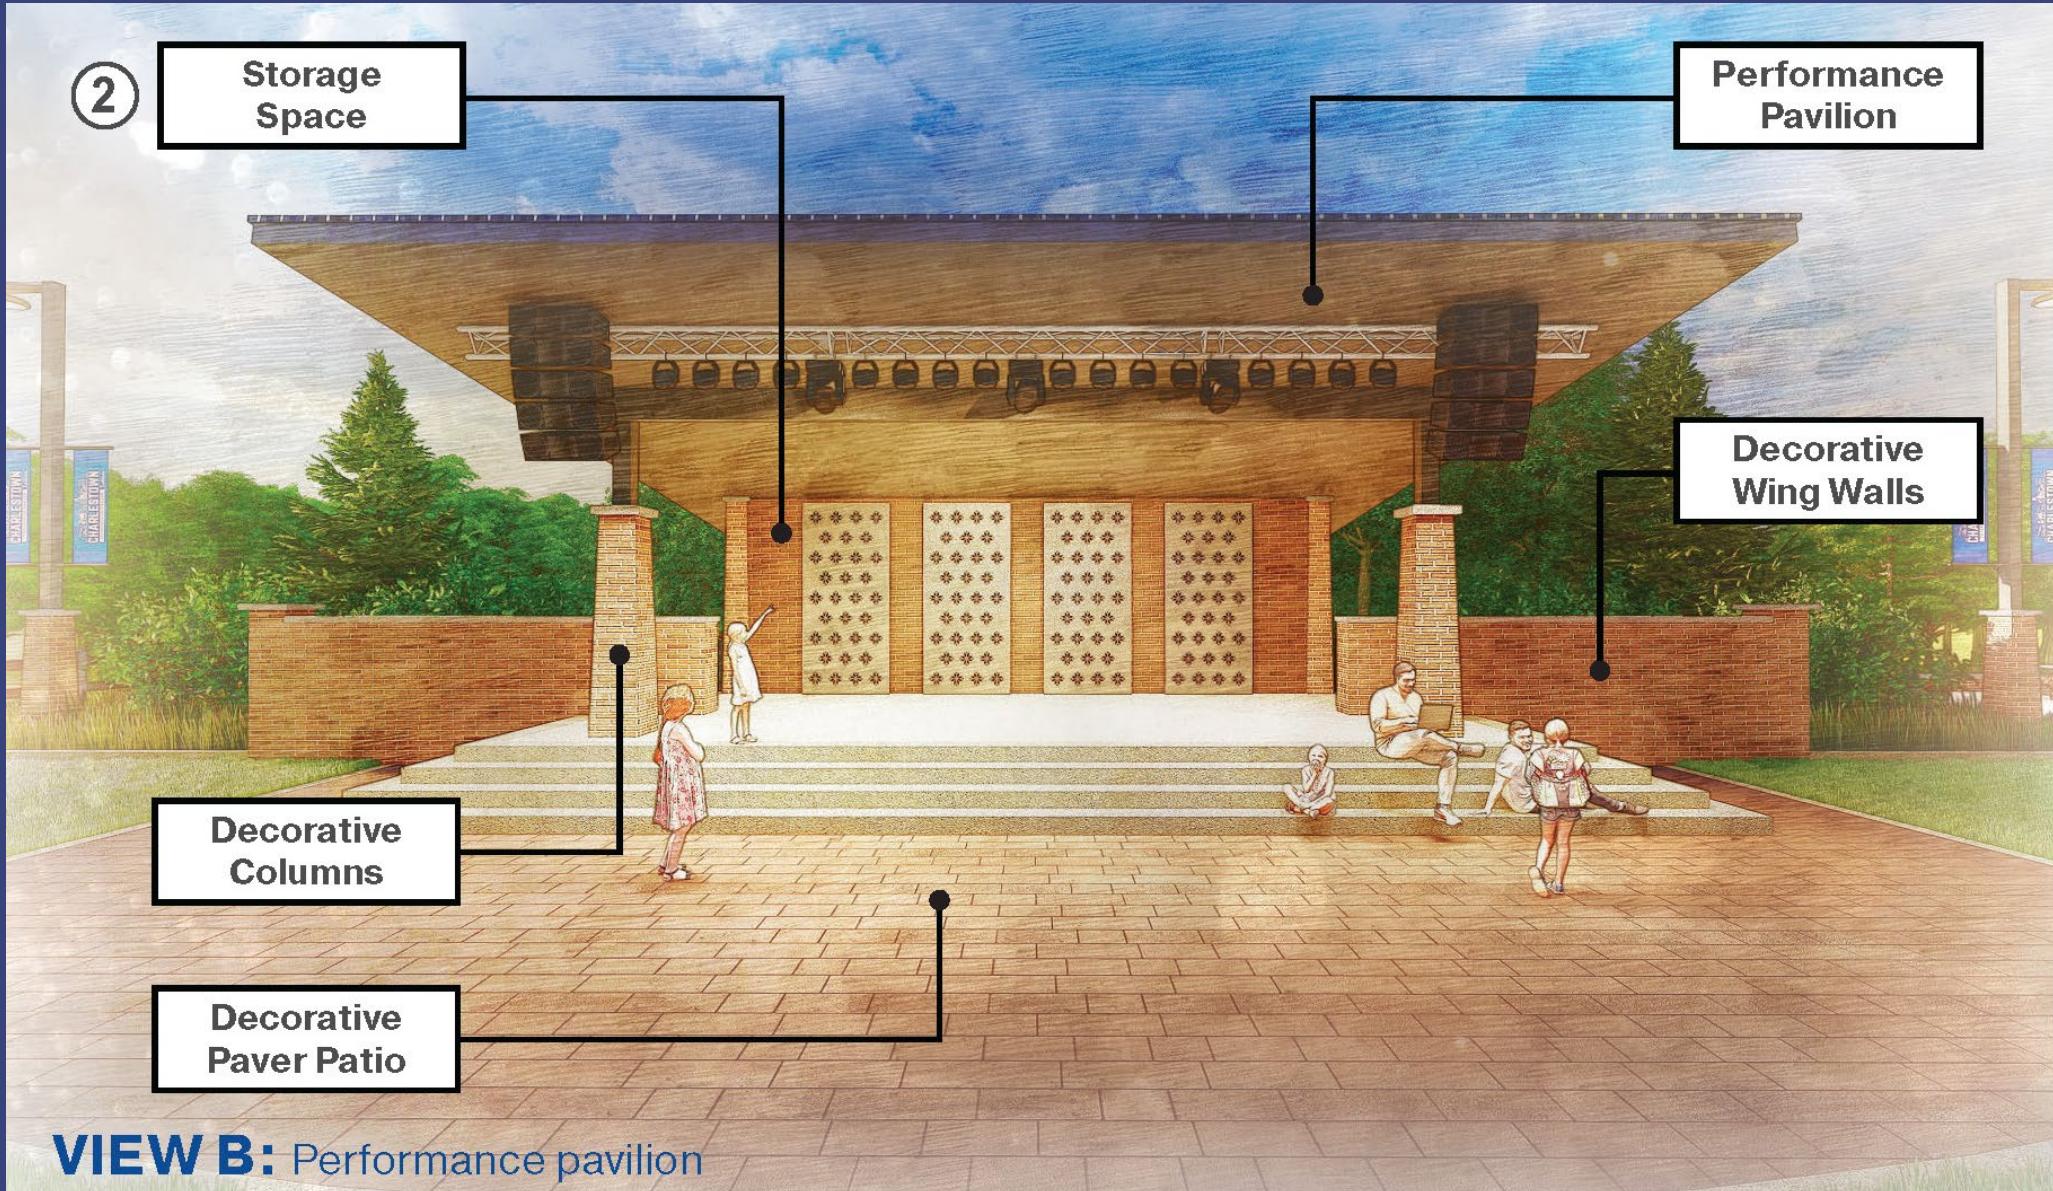

5 6 OUTDOOR DINING & PUBLIC RESTROOMS:
The private infill opportunity connects directly to the site providing event support with exterior access to public restrooms and outdoor dining.

7 PROMENADE & SERVICE ACCESS:
A flexible promenade creates a welcoming entrance to the lawn while allowing space for service access to the adjacent private development.

PREFERRED CONCEPT ZONE 2: THE SQUARE

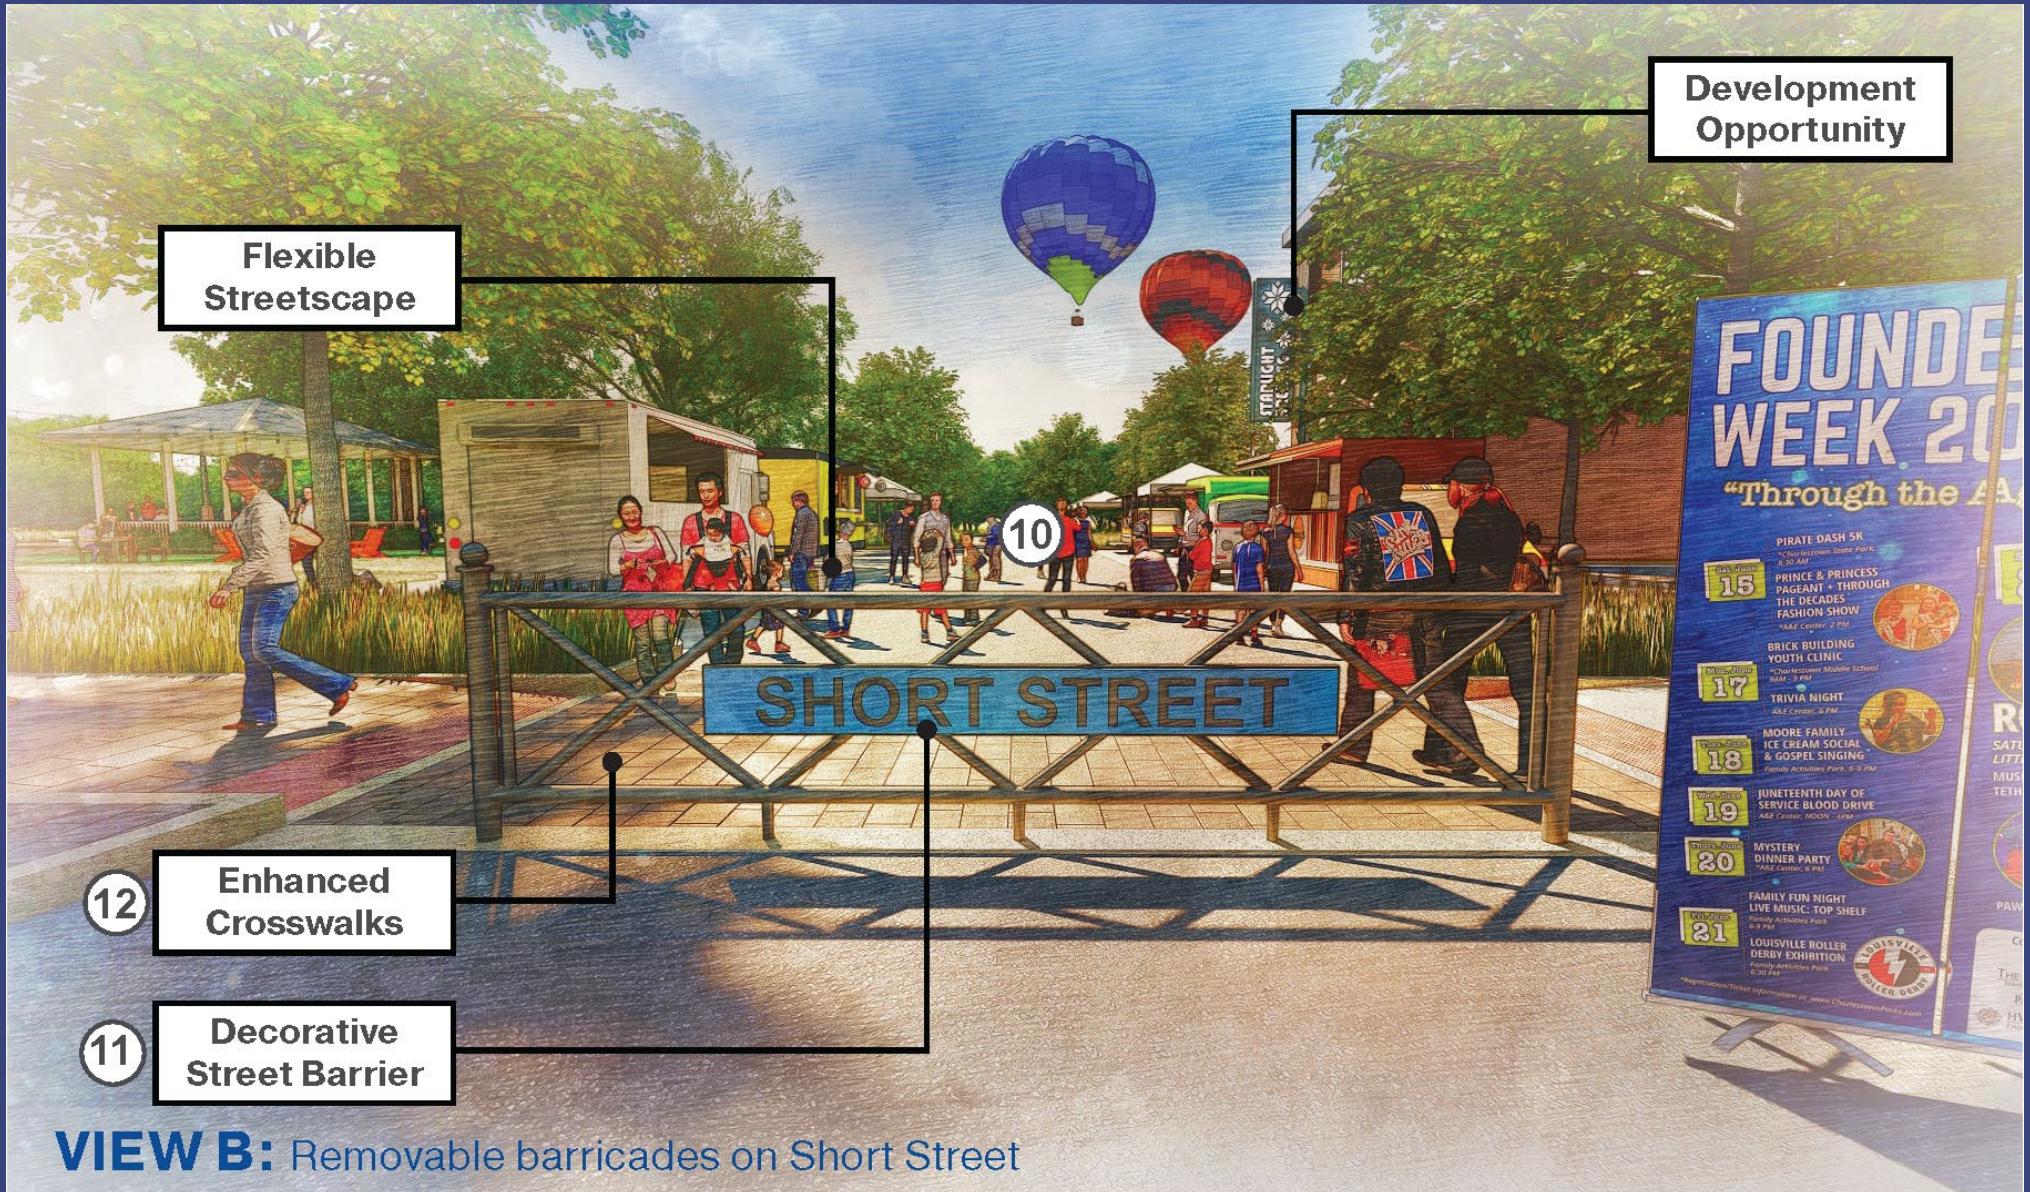

- 8 GAZEBO RESTORATION:**
Gazebo restoration maintains the original character/function of the gazebo and create a lasting community landmark.
- 9 COMMUNITY PATIO:**
String lighting, a stabilized crushed aggregate surface, new ADA ramps, and additional seating facilitate a relaxing gathering space.
- 10 ENHANCED STREETSCAPE:**
Increased street definition and added streetscape plantings create a dynamic and comfortable environment for both daily and event use.
- 11 ENHANCED CROSSWALK W/ BARRICADE**
Enhanced Crosswalks with decorative street barricades allow for seamless street closure during events.
- 12 ENHANCED CROSSWALKS**
Enhanced, paver crosswalks increase pedestrian safety and accessibility among all businesses and services on the square.

VIEW A: The gazebo and surrounding site improvements

PREFERRED CONCEPT ZONE 2: THE SQUARE

VIEW B: Removable barricades on Short Street

PREFERRED CONCEPT ZONE 3: THE TERRACE

13 RETAINING / SIGN WALL:

A feature sign wall and retaining walls (along Market and Water Streets) promote site identity while lessening the severity of existing site grading.

14 WATER STREET ENHANCEMENTS:

New sidewalks and curbs improve and allow for new street parking and access on Water Street.

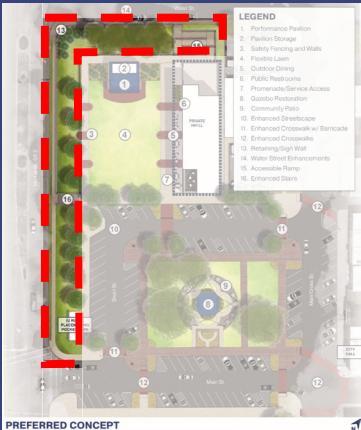

15 ACCESSIBLE RAMP:

The new accessible ramp on Water Street increases site accessibility and provides greater connection to the north.

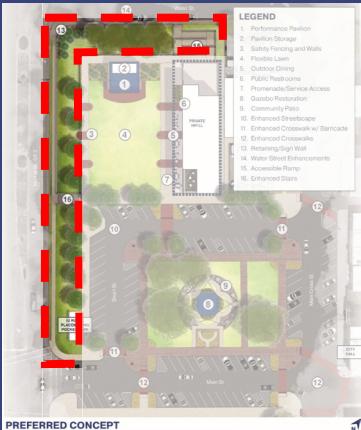

16 ENHANCED STAIRS;

An enhanced stairway improves access from Market street and creates a more formal entry that aligns with the sidewalk along Short Street.
