What Vehicle Fingerprint® technology identifies

Flock's machine learning technology allows officers to search vehicles based on unique vehicle criteria, time, and location — objective, investigative evidence.

flock safety

What this is:

- License Plate Recognition (LPR)
- Gathers objective evidence and facts about vehicles, not people
- Alerts police of wanted vehicles
- Used to solve crime

- Not used for tracking speed or parking violations
- Data automatically deletes every 30 days

How does this technology deter and eliminate crime?

- **Proactive:** Real-Time Alerts when stolen or wanted vehicles enter your city
- **Investigative:** As clearance rates increase, overall crime often decreases

“Flock Cameras have also become **our number one intelligence-sharing tool**. We have **assisted nine other Yakima county agencies** with their cases. Perhaps the most interesting was when we received a call from an investigator in California who saw a Flock hit in Yakima for a vehicle they were watching. Through a combined effort (led by the Department of Homeland Security), a warrant was served, resulting in the **recovery of thirty-eight guns, narcotics, and cash**.

– Yakima PD Chief Matt Murray
