

Washington Plans

- Four radars planned for Washington at NO COST to communities. Currently in early, siting phase.
 - WA120 – targeting Moses Lake area - 2024
 - WA119 – targeting Klickitat Co area - 2024
 - WA180 – targeting Pierce Co area (or further west in Thurston)
 - WA181 – targeting Chelan Co area
- Company will enter into “radar-as-a-service” contracts with government agencies and other weather-sensitive industries.
- Climavision owns, operates, and maintains radars.
- Climavision continues work with NWS/NSSL for eval and integration into operations and is responsible for data delivery platforms, user training, and NWS engagement for CV data.

Blue circles show 60 miles coverage provided by planned Climavision radars.
