

**Open Letter to the Honourable Premier Danielle Smith from Health Professionals,
Frontline Workers United, and other concerned residents of Alberta**

Date: November 2nd, 2022

Office of the Premier

307 Legislature Building

10800 – 97 Avenue

Edmonton, AB T5K 2B6

Sent via email

Dear Premier Danielle Smith:

Congratulations on your Premiership! We are a group of health care professionals, frontline workers and other concerned Albertans who value Informed Consent and Freedom. **We write to support your public statements about the state of Alberta Health Services (AHS) management and their questionable policies during the pandemic.** Your comments about the unvaccinated being the most discriminated against group of Albertans in your lifetime are correct. We have lived it. We have been ostracized at work, investigated, and punished by our licensing bodies for practices that would have previously been expected and lauded in health professionals/frontline workers, and many of us have lost our means of providing for our families. As people who have been on the inside of this system for the last 2 years, we would like to highlight several concerning AHS management policies towards AHS workers and the citizens of Alberta:

Regarding Informed Consent, it is a firm, foundational principle that ensures the freedom of individuals to make decisions about their medical care. As per College of Physicians and Surgeons of Alberta guidelines (https://cpsa.ca/wp-content/uploads/2020/06/AP_Informed-Consent-for-Adults.pdf), consent must be VOLUNTARY, specifically “Patients must be free of compulsion, duress or coercion when consenting to or refusing treatment.” When AHS management instituted a Mandatory Covid Vaccine Policy for all AHS Staff by October 31st, 2021, there was direct violation of the principle of Informed Consent. Threatening to take away jobs for refusing an unproven, undesired medical procedure would certainly qualify as compulsion, duress, and coercion, such that Informed Consent is not possible. This alone is an abhorrent abuse of authority.

Regarding Freedom, the Alberta Bill of Rights, Chapter A-14 (<https://kings-printer.alberta.ca/documents/Acts/A14.pdf>) guarantees Albertans “security of the person”, “freedom of religion” and “freedom of speech”. When AHS management mandated the Covid vaccine, many individuals submitted valid medical and religious exemptions. These were nearly universally denied with no legitimate explanation as to why. Again, this is another abhorrent abuse of authority, especially with regards to medical exemptions, as administrators, who had no proper medical knowledge of the patient, were over-riding the medical advice of physicians with established patient-doctor relationships. Furthermore, doctors who wrote or spoke out about the exemptions, had their licenses threatened and their offices raided by the College of Physicians and Surgeons of Alberta!

We too, are concerned about AHS management’s relationship with the World Economic Forum (WEF) (<https://www.albertahealthservices.ca/news/Page15540.aspx>), led by people like Klaus Schwab and Noah Harari. We wonder if AHS management’s partnership with the WEF has allowed global interests to override not only the rights and freedoms, but also the interests, of ordinary Albertans. We have seen how AHS management’s draconian mandatory Covid vaccine policy has resulted in significant loss of healthcare staff: through dismissal, being put on unpaid leave, early retirement, and mass exodus from the province. This in turn has resulted in decreased morale (fewer workers doing the same work), increased surgical wait times, and multiple hospital, bed, and clinic closures. To say that AHS leadership has mismanaged the pandemic would be an understatement.

As for your political opponents (<https://twitter.com/rachelnotley/status/1465943528119275520>), who would go on to support AHS management’s tyrannical policies (after all, it was the NDP that installed nearly all AHS upper management) and continue to push for mandatory Covid vaccines, we would like to ask them a few questions. **Now remember everyone, Science should encourage questions, whereas Tyranny persecutes those who question.**

1. What do they say about the scientific evidence and reports that the Covid mRNA vaccines have failed to protect the population?

- Former supporter of Covid vaccines, British cardiologist Dr. Aseem Malhotra, reverses position after looking at the data. Vaccines were touted early on as having a 95% *relative risk reduction* but in reality, only a 0.84% *absolute individual risk reduction* (i.e., Getting the vaccine reduced the risk of testing positive for Covid by less than 1%!!!).

<https://insulinresistance.org/index.php/jir/article/view/71/221> Part 1

<https://insulinresistance.org/index.php/jir/article/view/72/225> Part 2

- Manitoba data showed those fully vaccinated for Covid were at higher risk of dying. Data suddenly stopped. Similar trends seen elsewhere

<https://childrenshealthdefense.org/defender/vaccinated-higher-risk-dying-covid-vaccine-canadian-province-manitoba/>

- In EU Parliament, Pfizer director admits vaccine was never tested on preventing transmission

https://twitter.com/Rob_Roos/status/1579759795225198593?s=20&t=u3YM-

2. What do they say about the scientific evidence and reports that the Covid mRNA vaccines have caused significant harm to the population?

- Analysis of UK MHRA, US VAERS, Australian TGA, Europe EMA medicine regulator data showing at least 77,000 dead and 7.3 million injured by COVID vaccines. Numbers actually much higher as medicine regulators estimate only 1-10% of adverse events are actually reported <https://expose-news.com/2022/06/11/77k-dead-7million-injured-covid-vaccine-us-uk-eu/>

- Over 1000 Scientific Studies showing harm from Covid-19 Vaccines

<https://www.globalresearch.ca/covid-19-vaccines-scientific-proof-lethality/5767711>

- Florida Surgeon General recommends against males 18-39 receiving mRNA vaccines after study shows modestly increased risk of cardiac-related deaths within 28 days of vaccination <https://floridahealthcovid19.gov/wp-content/uploads/2022/10/20221007-guidance-mrna-covid19-vaccines-analysis.pdf>

- Increase Athlete Collapses and Deaths since Covid vaccine rollout

<https://goodsciencing.com/covid/athletes-suffer-cardiac-arrest-die-after-covid-shot/>

- Significant increase in “sudden and unexpected deaths” of young Canadian doctors since vaccine rollout https://www.theepochtimes.com/alberta-doctor-calls-on-medical-association-to-investigate-sudden-deaths-of-80-young-doctors_4805760.html

- Ill-defined and unknown causes of death now Alberta's #1 killer. Was #10 in 2019. Why is SADS (Sudden Adult Death Syndrome) now a thing?

<https://calgary.ctvnews.ca/deaths-with-unknown-causes-now-alberta-s-top-killer-province-1.5975536>

3. What do they say about the scientific evidence and reports that the Covid mRNA vaccines are not beneficial, and actually harmful to children?

- Covid poses statistically “zero” risk to kids, and vaccinating them could compromise their natural immune response <https://childrenshealthdefense.org/defender/paul-elias-alexander-children-zero-risk-covid/>
- US VAERS data shows 57,622 children (aged 0 to 17) injured, 1201 suffering life-threatening events or permanent disability, and 163 dead due to Covid-vaccination as of Sept 29, 2022 <https://expose-news.com/2022/10/01/usa-children-injured-covid-vaccination/>
- UK ONS data shows Covid vaccinated children are 45x more likely to die of any cause than unvaccinated children, and 137x more likely to die of Covid-19 <https://www.globalresearch.ca/shocking-uk-government-admits-covid-vaccinated-children-4423-more-likely-die-any-cause-13633-more-likely-die-covid-19-than-unvaccinated-children/5788225>
- Official EU Data shows 8x increase in child deaths since Covid Vaccine rollout for 12-15yo <https://www.globalresearch.ca/thousands-more-children-die-eu-drags-out-europe-wide-investigation-into-why-there-been-8x-increase-excess-deaths-among-children-since-ema-approved-covid-vaccine-kids/5796470>

In conclusion, we repeat our support for your public statements about AHS management and their violation of the rights, freedoms, and interests of AHS workers and other Albertans during the pandemic. We implore you to consider the following going forward:

1. Reinstating and continuing protection of Informed Consent and Freedoms for all health care choices, including, but not limited to those unwilling to undergo the questionable medical procedure of Covid vaccination. This would include ending all Covid vaccine mandates province-wide, AHS and otherwise. It would also include allowing all students, learners and recruits the right to refuse the vaccine.
2. Restructuring AHS to prevent abuse of authority from a central few. Increase transparency and accountability for decision makers on future boards, including who

they are, affiliations, conflicts of interest, funding sources, and citing evidence for the basis of their decisions.

3. Stopping all vaccination for children, a population proven to be not at any serious risk from Covid, and where the risks of vaccination far outweigh any benefit.
4. Urgently needed is a more easily accessible and properly monitored vaccine injury reporting system. We are definitely seeing vaccine injuries, but the current reporting system run by AHS is overbearing (forms too excessive) and is staffed by nurses that appear to arbitrarily reject most reports.
5. Finally, Alberta needs legislation to protect doctors, nurses and others who want to speak out. We've seen and wanted to speak about AHS management's abusive and abhorrent policies for some time. However, our colleges and governing bodies threaten (and in some cases, have already revoked) our licenses if we truthfully report what we are witnessing, whenever it is contrary to their narrative. Please stop them from silencing us. Let us have Truth come out. The lives of Albertans depend on it.

Thank you for your attention. **No matter what happens, we want to applaud you for standing up to tyranny in all its forms.** You have encouraged us immensely by publicly standing for informed consent and freedom. We admire your courage. We stand with you and support you.

Sincerely yours,

367+ Healthcare Professionals

46+ Frontline Workers

1213+ Concerned Alberta Residents
