

# ***500 volunteers, 5 community programs***

**Assistance League of St. Louis** is a volunteer-driven nonprofit that has served St. Louis City and County since 1987. The organization works with school districts and other partners to invest in student success and support families in crisis through five community programs.

Assistance League volunteers:

- Give books to young children to build home libraries and spark a love of reading. Last year, 18,326 books were provided to build home libraries!
- Outfit students with uniforms, shoes, coats and other basics so they can attend school.
- Provide beds, bedding and household essentials for families rebuilding their lives, including those recovering from the devastating May tornado.
- Supply items to offer comfort and dignity to sexual assault survivors and women in shelters.
- Award scholarships to empower women to pursue their goals.

You can support Assistance League of St. Louis by shopping or donating at our upscale resale shop, **Fantastic Finds**, located in Bellerive Plaza in Creve Coeur; making a financial contribution; or spreading the word about the organization's mission and impact. Sometimes a little assistance is all it takes to change a life!

Assistance League's next new member/volunteer information session and training are scheduled for August. To learn how to become a member, visit [alstl.org/get-involved](http://alstl.org/get-involved).
