

Matthew P. Cline, DDS

Cline Dental

14560 Manchester Road, Suite 25 • Ballwin • (636) 230-8081 • www.ClineDentalGroup.com

At **Cline Dental**, patients say they feel welcomed, listened to and respected. It's a response that makes Dr. Matthew P. Cline DDS and his caring staff smile. The Cline Dental team's goal is not only to take care of your smile but to build patient relationships and provide each person an ideal dental experience. During each patient's first visit, Dr. Cline examines and discusses their dental needs and wishes. This comprehensive exam lays a strong foundation for all future visits.

Cline and his team see patients of all ages and perform all aspects of dentistry including cleanings, routine dental care, extractions, crowns, veneers, dentures and implants. New cutting-edge technology means Invisalign now can be completed in nearly half the time, impressions are done with a computerized digital scanner, and a 3-D scan of the jaw streamlines dental implants.

Listed among the top St. Louis dentists each year from 2016-2022, Dr. Cline and his staff enjoy their role in providing excellent dental care to St. Louis, and they are always welcoming new patients.
