

Delivering convenient, comprehensive dental care

When it comes to personal dental care, **Ballwin Dental Care** understands the value of treating clients like family. In fact, this family owned and operated general dental practice has transformed more than 30,000 smiles in West County over the last 50 years.

Dr. Kimberly Simonds purchased the practice in 2015, following in her father's footsteps who founded the practice in 1973. With assistance from Dr. Maya Habibi, Dr. Jessica Chellis, Dr. Nolan Finney and Dr. Nick

Berkenbile, the team at Ballwin Dental Care provides an array of services including cleanings, pediatric dentistry, root canals, fillings, crowns, bridges, dental implants, Invisalign, gum disease therapy, teeth whitening and more.

Thanks to a new, larger location at 14649 Manchester Road, Ballwin Dental Care has enough treatment suites that a family of five could conveniently schedule care at the same time. The practice also offers extended hours before and after school or work, and on two Saturdays per month.

"My father taught me the importance of patient care and satisfaction," Dr. Kim explained. "That's why generations of families choose Ballwin Dental Care. Now I'm training my team in those same practices and continuing a legacy of care that has spanned more than half a century!

"When a new patient comes in, we talk about their priorities, concerns and goals. At the heart of everything we do is our patients' comfort and oral health."

New patients can take advantage of a special offer that includes a comprehensive exam, cavity-detecting digital X-rays (up to 4), a professional cleaning and an oral cancer screening for only \$119, or \$100 off if paying with insurance. Learn more by visiting dentistinballwinmo.com.
